FAQ

1. Q: Time display is not stable, always blinking?

A: It's with low battery, please charge it.

2. Q: Can't get device Wi-Fi signal? (Four solutions FYI).

A: 1). Please confirm the power adaptor connected;

2). Take out battery, then plug in power and wait 2 mins;

3). Press reset key for 5 seconds and wait 2 mins;

4). Turn off camera backside, then turn on again;

5). Turn off smartphone Wi-Fi for a while, then turn on to search again.

3. Q: Can't add or set camera after connected with camera Wi-Fi?

A: Please wait phone status bar appear Wi-Fi  symbol, then to do follow settings.

4. Q: Why live video screen shows up black and a searching circle spins in center but nothing ever displays?

A: 1). If camera's connected Wi-Fi speed is slow, please wait 10-30 seconds for live video appear;
2). One click middle of screen, select top right 480p resolution to check.

TIPS: If local Wi-Fi speed is slow, please choose lower resolution for good video and audio.

5. Q: Live video not smooth and clear?

A: Select suitable resolution according to the real time network environment.

6. Q: How many cameras can be added to APP?

A: No limit.

7. Q: How many visitors support to check live video?

A: 1-2

8. Q: Only 1 user, but show 2 or more users?

A: 1). If login in very often, last record is still in. If check every 2-5 mins, surely will be the exact numbers of users;
2). To be safer , please change camera's password when first use (Page 11).

9. Q: Motion detect set and alarm?

- A: 1). Set motion detect sensitivity in Advance Config - Alarm Config, and scroll down press OK;
2). When motion detected, camera will push a alarm message to your phone and take 3 pictures for checking in the APP [Page 12 - Alarm - ].

10. Q: Micro SD card instruction?

- A: 1). Format card before inserting;
2). When backside switch is on, every time you insert micro SD card, it will record automatically;
3). Once connected, can set SD management in app [Advance Config - SD Card Record Config].

11. Q: How to play micro SD card video?

- A:1). Use a card reader to read and play;
2). Use APP to play back [Page 12 - Record - ];
3). Play back in good speed network.

12. Q: After connected to Wi-Fi, how is the status of camera when Wi-Fi off?

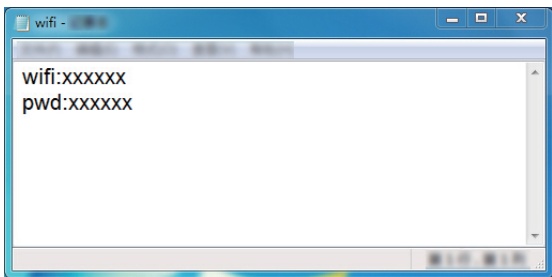

- A: 1). If modem off, camera can still check local view as it is connected directly to wireless router;
2). If both modem and router off, camera will keep searching the connected Wi-Fi and connect again;
3). If above point 2, not connect; Just turn off and on backside switch again to connect Wi-Fi.

13. Q: Camera can't hold set Wi-Fi, lost contact and offline?

- A: 1). Make sure camera inside the range of good Wi-Fi signal;
2). Low battery, check if power adapter connected properly for long time use.

14. Q: Forget camera password, or item goes abnormal?
A: Turn on camera and wait for 2 minutes, press reset key around 5 seconds till front blue light off to restore factory default. Camera restarts and get ready again in 2 minutes.
15. Q: Connect camera with wifi by micro SD card setting?
A: Steps: (Format micro SD card first.)
a, Create a txt file named wifi on the micro SD card
b, Input below format to the file
wifi:xxxxxx (Your local wifi name)
pwd:xxxxxx (Both are case-sensitive)
c, Insert the micro SD card when camera is OFF
d, Turn on camera, it will connect with your wifi in 10-15 seconds.

TIPS:Can also copy the txt file from camera's CD to the micro SD card,change wifi name and password.

16. Q: Any operation video demo of the camera for setting up?
A: Please contact local dealer for video guide.

The End!
