

# **STORAGE PLAN OGRAM**

---

February '16

## WELCOME TO STORAGE

Natural storage needs to be merchandised light to dark and from left to right. With each bay, start with the smallest basket at a shopable height then proceed to larger baskets/hampers towards the bottom of the fixture. Product should run all the way to the top of each fixture with repeat product above the shopable shelfline.

If space is limited, certain ranges can be merchandised in the office area.

### **Fixture Bay Requirements**

Natural Storage: 22 (combination of tall and small)
