WELCOME TO TABLETOP & KITCHENWARE

Dinnerware bays need to be merchandised light to dark and from left to right. With each bay, start with the smallest piece such as a teacup at a shopable height then proceed to larger pieces towards the bottom of the fixture. Product should run all the way to the top of every second bay with repeat product above the shopable shelfline. Every first bay should have a display above the shopable shelf line.

If space permits, discontinued stock should be pulled into a separate bay (in relevant departments) of a low gondola with 'Last chance to Buy' shelf cards displayed. (These were supplied previously). Otherwise product can be incorporated back into relevant looks within each department. Please refer to the permanent markdown list supplied by Kylie Neighbour.

ACTIVITY TOWER - TUNISIA STORY

TUNISIA dinnerware in black and grey.

Majority of stores will receive cube insert, banner and overlay.

TUNISIA dinnerware in black and grey.

Selected stores will receive cube insert, voile, vinyl and overlay.

Ply cubes will need to be painted in Taubmans Black Fox - purchased from Bunnings.

ACTIVITY TOWER - ANAIS STORY

All stores will receive table skirt, decorator quote, vinyl and leather strapping.

The display will require the following to be purchased at Bunnings:

Masonite white peg board 1830 x 915 (3mm)- \$30 (This will need to be cut twice so you have 2 pieces at 630x915)

Strong glue like Tarzan Grip

Sample pot paint of Tubman's Elegant Evening (If you do not have any left over from the walls)

Create the board by painting both pieces of peg board (allow to dry). Arrange plates on board and glue down (allow to dry over night). Decoratively thread through leather strapping to help hold plates. Apply vinyl to top left hand corner. Tie both boards together with left over leather strapping.

Attach table skirt with double sided tape to larger table and decorator quote to smaller table.

ANAIS dinnerware available in various colours.
