Cara, Thanks for the forwarded email.
I will ensure the consultants have this going forward.

Thanks.
Craig

Subject: FW: VOP Comprehensive Plan

Hi Jan,

Thanks for this email – it is timely as the Village Board has been discussion the chapters and they are still working through the language. I will make sure that this is provided to the consultants (I have copied Craig Failor the Village Planner as he is coordinating this work) and I will share with the Board. The Village is still a ways away from a final document being presented to the Plan Commission for public hearing.

You may see the Board take a preliminary approval of the chapters, but it is not to accept language but more to accept the status of the progress.

Thanks - Cara

Subject: VOP Comprehensive Plan

Cara,

In reviewing the Parks, Open Spaces and Environmental Features component of the VOP Comprehensive Plan there is some concern regarding what is stated since PDOP is responsible for the public parks and recreation programming in the Village. I stressed this fact at the “Envisioning” meetings that I attended. However, this separation is not clear in the document as presented. I would like to recommend a statement before the vision statement such as:

The Park District of Oak Park consists of 82 acres of open space, 7 community centers, 3 special facilities, 14 Ball Diamonds, 16 Multipurpose Fields, 17 playgrounds, 3 historic properties, 3 natural areas, and in 2012 supported programming for 26,000 participant. The Park District is a separate taxing body and represents approximately 4.9% of the tax levy. The Village of Oak Park and the Park District of Oak Park work cooperatively to improve the quality of life for all Oak Park residents.

Please give me a call if you have a chance and we can chat.

Best,
Jan
