

Art Advisory Committee

Meeting Minutes

6/18/14

In attendance

Citizens: Patrick Dahlstrom, Sandy Lentz

Staff: Maureen McCarthy, Jan Arnold

The decision was made to contact the following artists to let them know they are the final 3 who were selected from our call for art.

Bagget

Swanson

Orsler

These artists will be contacted and told they will be awarded \$500 each to produce a model by September 5, 2014 with their proposed sculpture to be installed in front of the GRC after funding has been secured. The models will remain the property of the Park District.

The remaining artists will be notified that they have not been selected as the final 3.

Patrick has secured funding for the remaining Mars pictures to be restored. Jan will contact the library to see if they will display them for a short time. Most likely the pictures will be on permanent display at 218 Madison once construction is complete.

Art Advisory Committee

Meeting Minutes

5/21/14

In attendance:

Patrick Dahlstrom

Sandy Lentz

Maureen McCarthy (staff)

Painting Restoration:

There was a general impression that \$5k would be raised by the Foundation for painting restoration; need to clarify. If there is no commitment to raise funds, we should slow down the process.

Dog Park Murals:

An idea was presented to have a chalk drawing at the RC dog park. A fundraiser could be organized, where sections would be sold for dog memorials. Adults and children, various artists could be involved. FOOPD has funds and availability / willingness to help with the project.

GRC Sculpture Project:

The submissions for the GRC Sculpture Project were reviewed. Additional feedback will be requested from those not in attendance.
