- Attract applicants who possess a combination of talent and passion,
- Encourage workplace diversity by following all applicable laws related to equal opportunity employment.

Below are the procedures required to review, open and advertise a replacement or newly created position.

Employee Recruitment Process

1. Authorize filling of the position. Staff are required to make sure that they have the necessary permission and funding to fill a new or vacated position.

a. Seasonal/temporary positions. Staff must gain authorization from the Department Head to ensure that the number and type of positions being filled are inline with department needs and budget.

b. Year-round part-time and full-time positions. Staff follow the same steps as when filling a seasonal/temporary position, but must also then gain authorization from the Executive Director before recruitment begins.

2. Review position description. A job description must be created for any authorized new positions or reviewed or at time of turnover to determine if any essential functions or requirements have changed or will be changed due to new business needs. The review is completed by the hiring supervisor with assistance from his or her supervisor.

3. Complete position requisition. Hiring supervisors are required to post job openings electronically through the AppliTrack System. The request is stored within AppliTrack and moves through a series of approval steps, allowing other members of the organization to review and amend, and finally approve or deny the requisition. Once approved, the requisition is converted to a job posting on the Park District website. There is the additional bonus of now having a record of who created, reviewed, and, finally, approved the posting.
