# Post Conversion Checklist

## Fixtures

- In SP Manager go to Competitions > List Competitions and then select a competition.
- On the competition Dashboard screen go to Fixtures > Regular Season.
- Then open the same fixture in FIBA Organizer and compare the two competitions ensuring that they are correct.

## Results

- In SP Manager go to Competitions > List Competitions and then select a competition.
- On the competition Dashboard screen go to Match Results.
- Then filter the match list to the competition you are comparing with.
- Go to pre-game for a few matches and ensure that the final scores and player stats are accurate to what was listed in FIBA Organizer.

## Ladders

- In SP Manager go to Competitions > List Competitions and then select a competition.
- On the competition Dashboard screen go to Ladders.
- Then open the same ladder in FIBA Organizer and compare.
- Look at wins/losses, for/against points.

## Player History

- In SP Manager go to Competitions > List Competitions and then select a competition.
- On the competition Dashboard screen go to Teams.
- Once on the team Dashboard go to Members > List Members.
- Select a player and go to their player Dashboard.
- On the member dashboard click on Statistics.
- Compare the player statistics between SP Manager and FIBA Organizer.
- Note: If the player stats are wrong a Stats Rebuild may fix this.

If you notice any issues with your data it is important that you make contact with Fox Sports Pulse 1300 139 970 or support@foxsportspulse.com within 24-48 hours of receiving your database.
