You can link to an external to provide students with quick and easy access to resources outside of D2L.

Create Link

1. Open the website to which you wish to link.
2. Highlight and copy the URL.
3. Open D2L, access your course, and click the **Content** tab.
4. Select the module in which to add a link.
5. Click **New** and select **Create a Link** from the drop-down menu.
6. Enter a title and paste the web address into the **URL** box.
7. Select the **Open as External Resource** checkbox so students do not lose their place in D2L when they click the link.
8. Click the **Create** button.
