What is the Kaltura Video Plugin for WordPress?

Kaltura's All in One WordPress Video Plugin is a standard WordPress Plugin, which adds Kaltura's powerful video capabilities into WordPress.

With the Plugin activated, WordPress authors and contributors can add videos to the posts; WordPress administrators can add a recent videos sidebar widget and can allow video comments by WordPress subscribers and guests.

Getting Started

Workflow:

1. [Install and Activate the Plugin](#)
2. [Configure the Plugin](#)
3. [Add Media to a Post](#)
4. [Add Video Comments](#)
5. [Manage Existing Media](#)
6. [Create Video Posts in Bulk from your KMC Content](#)

Installing and Activating the Plugin

You can install or upgrade the plugin from a previous version and then add or activate the Recent Videos Sidebar Widget.

To install the plugin for the first time

1. Download and extract the plugin zip file to your WordPress server.
2. Paste the 'all-in-one-video-pack' directory under the '/wp-content/plugins/' directory.
3. Activate the plugin through the 'Plugins' menu in the WordPress admin application.

The following message is displayed:

To complete the All in One Video Pack installation, you must get a Partner ID.

4. Click the link to get a Kaltura Partner ID or to connect the Plugin to an existing Partner ID.
5. Fill in All in One Video Package Installation form.
 - o If you do not have a Kaltura Partner ID, fill in the All in One video Package installation Form.

All in One Video Pack Installation

[Click here if you already have a Partner ID](#)

Once you complete the form below and click "Complete installation", the All in One Video Pack will be fully installed and ready to use.

Get a Partner ID

First Name: *	<input type="text"/>
Last Name: *	<input type="text"/>
Email: *	<input type="text" value="me@mail.com"/>
Phone: *	<input type="text"/>
Company: *	<input type="text" value="Single WP site"/>
Website:	<input type="text" value="http://www.domain.com/wordpress"/>
Job Title: *	<input type="text"/>
Describe yourself: *	<input type="text" value="Please select..."/>
Country: *	<input type="text" value="Please select..."/>
Would you like a Kaltura Video Expert to contact you? *	<input type="text" value="Please select..."/>
How do you plan to use Kaltura's video platform?	<input type="text"/>
<input type="checkbox"/> I Accept Terms of Use *	
* Required fields	
<input type="button" value="Complete installation"/>	

- If you have a Kaltura Partner ID, click "Click here if you already have a partner ID" and fill the form with your Kaltura credentials.

All in One Video Pack Installation

Please enter your Kaltura Management Console (KMC) Email & password

Partner ID:	<input type="text"/>
Email:	<input type="text"/>
Password:	<input type="password"/> forgot password?

[Complete installation](#)

- If you are installing the plugin on a WordPress MultiSite network (from the Network Admin interface), fill in the following form with your Kaltura credentials:

All in One Video Pack MU Installation

This installation page should be used in order to configure the default Kaltura integration settings for all sub blogs.

Please enter your Kaltura Management Console (KMC) Email & password

Partner ID:	<input type="text"/>
Email:	<input type="text"/>
Password:	<input type="password"/> forgot password?

[Complete installation](#)

6. After the Plugin is connected to a Kaltura Partner ID, go to Settings > All in One Video Pack to setup the plugin.

To upgrade the Plugin from Previous Versions

1. In the WordPress admin application, deactivate the plugin through the 'Plugins' menu.
2. Download the latest version.
3. Follow the [installation steps](#).

To Activate and Add the Recent Videos Sidebar Widget

1. In the WordPress admin application, activate the All in One Video Pack Sidebar Widget through the 'Plugins' menu.
2. Select Design and then select Widgets.
3. Click Add to add the Recent Videos Widget to your sidebar.

NOTE: Videos from earlier versions of the plugin will not show up on the sidebar unless they are reposted.

Configuring the Plugin

To configure the plugin

1. In the site admin, click Settings and then select All in One Video.

B *I* ABC                                     

The following screen is displayed:

The screenshot shows the 'Add Kaltura Media' dialog box with the 'Video' tab selected. At the top, there are two tabs: 'Add Media' (highlighted in red) and 'Browse Existing Media'. Below these are three main sections: 'Video', 'Audio', and 'Photo'. Under the 'Video' section, there are two sub-sections: 'Upload' and 'Webcam'. The 'Upload' sub-section contains a 'Browse' button and the text '(You can select one file)'. At the bottom right of the dialog, there are 'Back' and 'Upload!' buttons.

2. Upload your content/media.
Follow the wizard steps to upload or record your media. After the media item is uploaded, the following screen is displayed:

The screenshot shows the 'Add Kaltura Media' dialog box with the 'Video' tab selected, after a video has been uploaded. The video player shows a video of horses running in water. To the right of the video player, there are several settings: 'Title' (Migration of wild horses), 'Select player design' (Light Skin), 'Player Dimensions' (Normal, Widescreen), 'Select player size' (Large (400x365), Small (260x260), Custom width), and an 'Insert into Post' button.

3. Select:
 - a. Title (that will be displayed above player)

- b. Which player to use for the video
 - c. The player dimensions
4. Click Insert into Post.

To add existing media to a post

1. When creating a new post or editing a post, click the Add Kaltura Media button above the text editor.

B *I* 

The major scientific agencies of the United States — including the National Aeronautics and Space Administration (NASA) and the National Oceanic and Atmospheric Administration (NOAA) — agree that climate change is occurring and that humans are contributing to it. In 2010, the National Research Council concluded that "Climate change is occurring, is very likely caused by human activities, and poses significant risks for a broad range of human and natural systems". ^[1] Many independent scientific organizations have released similar statements, both in the United States and abroad. This doesn't necessarily mean that every scientist sees eye to eye on each component of the climate change problem, but broad agreement exists that climate change is happening and is primarily caused by excess greenhouse gases from human activities.

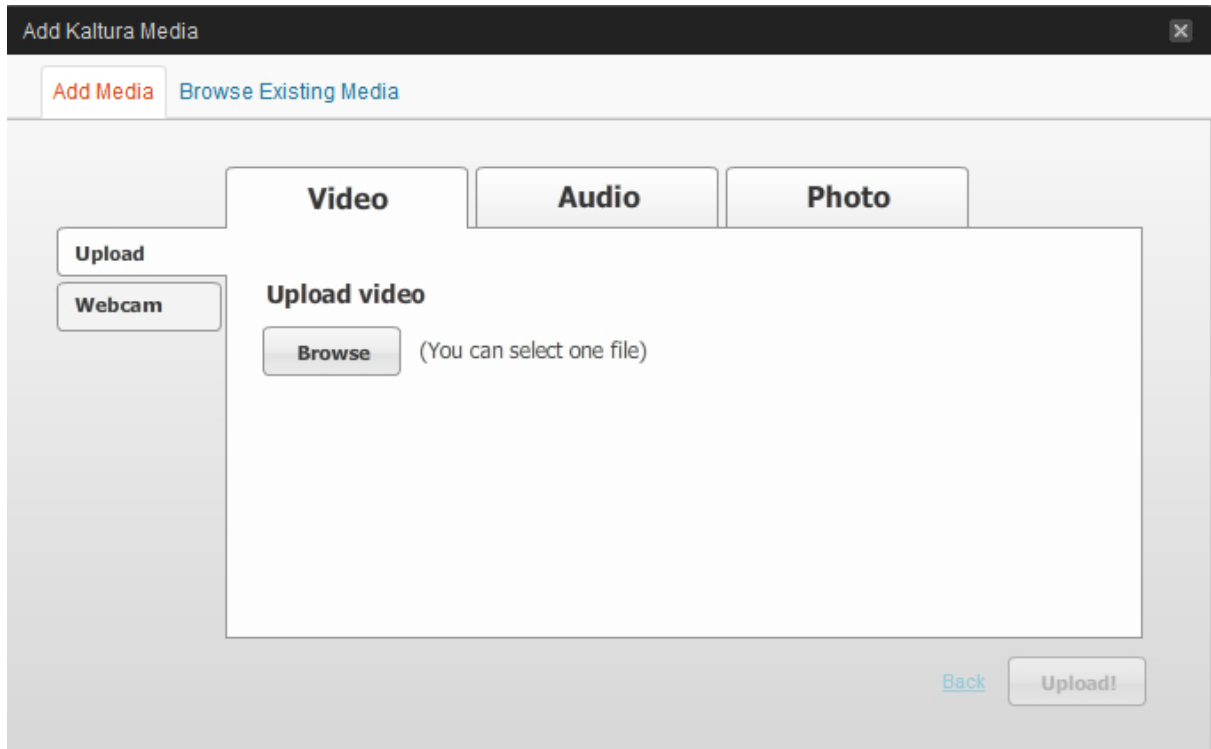

Scientists are still researching a number of important questions, including exactly how much Earth will warm, how quickly it will warm, and what the consequences of the warming will be in specific regions of the world. Scientists continue to research these questions so society can be better informed about how to plan for a changing climate. However, enough certainty exists about basic causes and effects of climate change to justify taking actions that reduce future risks.

To view media

- Click on the thumbnail.

To edit a media title

1. Click on the title and modify the information.
2. Press Enter to save, or, Escape to undo the editing.

To change media thumbnails

1. Click on the camera.
2. Play the video or use the scrubber to the frame that you want to use as thumbnail.
3. Click Capture Thumbnail.

To delete media

1. Click the red X sign below the media thumbnail.
2. Click OK on the confirmation box that pops up.

Creating Video Posts in Bulk from Your KMC Content

To create video posts in a bulk from your KMC top level categories

1. On the side menu, select Media and then select All in One Video.
2. Click “Bulk Create Video Posts”

A list of your Kaltura top level categories is displayed.

If you have created categories in your Kaltura Management Console (KMC), this page allows you to automatically generate a post that includes videos from your KMC, by category. These posts will be saved as drafts.

<input type="checkbox"/>	Name	Description	Slug	Posts
<input type="checkbox"/>	Aquarium	KMC Category		
<input type="checkbox"/>	Dove	KMC Category		
<input type="checkbox"/>	Fish		fish	1
<input type="checkbox"/>	hd content	KMC Category		
<input type="checkbox"/>	image	KMC Category		
<input type="checkbox"/>	Kingfisher	KMC Category		
<input type="checkbox"/>	video	KMC Category		
<input type="checkbox"/>	Name	Description	Slug	Posts

Create posts from category 

3. Check all the categories from which you want to create Video Posts for the included entries.
4. Click Apply.

The following screen is displayed:

Here are the videos found in your KMC categories that match your WordPress categories. Select player and videos to create posts.

Select player: Dark Skin (400x330) ▼

<input type="checkbox"/> Name	Category
<input type="checkbox"/> Logo_Lime.flv	Dove
<input type="checkbox"/> Kaltura Logo Pink	Dove
<input type="checkbox"/> Logo_Cyan	Dove
<input type="checkbox"/> Logo_Black.flv	Dove
<input type="checkbox"/> Middle Men New Trailer	Dove
<input type="checkbox"/> Megamind New Comic-Con Footage	Dove
<input type="checkbox"/> Yogi Bear New Teaser	Dove
<input type="checkbox"/> Name	Category

Create Posts

5. Choose the player you want to use for the video posts.
6. Check the entries you want to create video posts from.
7. Click Create Posts.

NOTE: The video posts are created as drafts.

Each video post is created with the name of the entry as the post's name and the selected player with the entry as the post's content.
