| Pert: muscle aches (myalgias)                           | _____           |
| Reports: rashes or dry skin                             | + circular rash |
| Pert: Comments:   | headache        |

Structured exam

|  |       |
|--|-------|
| NL: general appearance: alert, pleasant, not ill appearing, no | _____ |
|--|-------|

|  |   |
|--|---|
| distress   |   |
| NL: conjunctivae & lids: pink & moist  | , no pallor or icterus (asked patient/parent to pull down lower eyelids to assess sclera and conjunctiva which was observed via video connection)               |
| NL: external ears & nose   |   |
| NL: nares (nasal mucosa, septum and turbinates): clear                                   | through video connection anterior nares inspected and clear without nasal flaring   |
| NL: oropharynx: moist mucous membranes, without pharyngeal erythema or intraoral lesions | , through video connection limited oropharynx inspection completed and normal   |
| NL: without meningeal signs  | patient/parent asked to flex and extend neck without any difficulty on visualization or compensatory elevation of shoulders                                     |
| NL: respiratory effort: no retractions, no tachypnea                                     | , also no audible grunting or other indication for increased work of breathing  |
| NL: extremities: no edema, brisk capillary refill  | , with cooperation of patient/parent through video visualization of good perfusion with brisk capillary refill confirmed (asking patient/parent to demonstrate) |
| ABNL: inspection (includes subcutaneous tissue): no rash                                 | classic Lyme's bull's eye rash with central clearing location:  |
