## Technical Information

Users can access Technical Information [here](#).

## Academic Programs

### Career and Technical Programs within Graduation Program Requirements (SIS-122882) [Enhancement]

A new editor has been added to Graduation Programs called Career Tech Requirements. Users can require Career Tech Program completion as part of the Graduation Program Requirements.

Career Tech Programs can also be included in Compound Requirements, where a student could complete a course or take an assessment, and now also complete a Career Tech Program.

The Career Tech Programs assigned to a Graduation Program or as part of a Compound Requirement display on the student's Progress tab.

*Article: [Graduation Programs](#); [Enter Career Tech Requirements](#); [Enter Compound Requirements](#); [Progress \(Academic Planning\)](#)*

*Path: [Programs](#) > [Program Admin](#) > [Graduation Programs](#) > [Career Tech Requirements](#), [Compound Requirements](#); [Student Information](#) > [Academic Planning](#) > [Progress](#)*

### Display Options - Academic Progress HTML Field (SIS-123696)

The Academic Progress HTML field is not an option in Campus Student/Campus Parent. Because of this, it has been removed as an option in Portal Display Options.

*Article: [Display Options](#)*

*Path: [System Administration](#) > [Portal](#) > [Preferences](#) > [Display Options](#)*

### Academic Plan Status Report (SIS-123878)

The Academic Plan Status Report returned an error when a student did not have an enrollment record with a primary service type. This has been corrected.

The report only evaluates students with a Primary enrollment in the specified calendar.

## Assessment

### Assessment Publishing and Syncing Logic Update (SIS-120305)

The following logic used for publishing Test Structures and Test Score data from State Edition to District Edition has been updated:

- Publish Test Structure:
  - Only display tests that meet the following when a school year is selected in the Campus toolbar:
    - Test Year is set to the same school year in the toolbar
    - Test Year is blank

- Publish Test Scores
  - Only display tests that meet the following when a school year is selected in the Campus toolbar:
    - Test Year is set to the same school year in the toolbar
    - Test Year is blank
  - All test score data will be synced from State Edition to District Edition (parent, child, grandchild, etc), not just the parent test score record.
  - Logic will look at the selected school year in the Year field
    - If the assessment has years set and it matches the selected school year, send all test score records.
    - If the assessment has no year, verify the test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year. If any child(ren) test are missing a date, look at the parent test to verify the date.
    - If the test score record(s) does not have a date, look if the assessment has an end year that matches the selected school year. If it has no assessment end year, do not send the test score data.
  - When the correct testScore records have been identified, look at the student enrollment that matches the school year and then look at all of the student enrollments for that year and future years. Logic will then gather the districtID's from each enrolled district. When publishing the testScore record, logic will publish to each of the districts the student was enrolled at.
  - Assessment scores being published to the District Edition will do an insert of data if they do not already exist.
  - Assessment scores that have been synced from State Edition to District Edition and then deleted from the State Edition and then test scores published to the District Edition, test scores for the deleted tests are removed from the District Edition.

Logic for syncing assessments from the District Edition to the State Edition has been updated to the following:

- Logic will determine what test scores will sync based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
  - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.
  - If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
  - If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
  - Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If test score data that has already been synced from District Edition to State Edition and the test score record(s) get deleted in the District Edition, they will be deleted from State Edition as well.

Logic for batch syncing assessments from District Edition to State Edition has been updated as follows:

- Logic for determining what test scores are synced is based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
  - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.

- If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
- If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
- Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If assessments that have been synced from District Edition to State Edition get deleted in the District Edition, a new batch sync is run and test scores deleted in District Edition are removed from State Edition.
- Logic only look five levels deep on test structures.

Logic for Records Transfer has been updated so that when a district uses the Assessment Import Wizard, the DIS message sent to the State Edition does not overwrite existing records for tests that are State or National, locked or unlocked.

*Path: No Specific Path*

#### Records Transfer – Assessment Import Failing to Import All Data Causing Sync to State to Null Fields Containing Data (SIS-122258)

The Records Transfer tool was incorrectly importing only data for fields existing in the Assessment Import UI and not all of the additional information that exists in the XML message sent from the releasing district. Importing the record as generating a DIS event sync message back to the State Edition and thus, updating and overwriting data existing at the State with this missing (null) data. This issue has been corrected. All fields from the releasing district's XML file will be imported and if a test is either a state or national test and is locked, a DIS event message will not be sent. If the state or national test is not locked, a DIS event message will be sent but the State Edition testScore.districtID and testScore.schoolID values will not be updated.

## Attendance

#### Duplicate Letters Being Sent to the same Household (SIS-122742)

Any letters generated through the available letter wizards were printing duplicate letters for the same address when the letters included Campus Fields for Mailing Addresses (mailingAddress.street, etc.) and the student had multiple mailing addresses. This has been corrected.

*Article: [Letter Builder](#), [Attendance Letters](#), [Behavior Letter Wizard](#), [Account Letter Designer](#), [HR Letter Wizard](#)*

#### Positive Attendance Import Wizard Now Available (SIS-122821) [Enhancement]

The Positive Attendance Import Wizard is now available for all Campus customers (except for Kentucky

users). The Positive Attendance Import Wizard allows you to import positive attendance records from a separate Learning Management System (LMS) or from other external sources (Excel file, etc). This wizard can be used daily, weekly, monthly, or even on an irregular schedule.

Note: This tool only imports positive attendance data. It does not update existing positive attendance records within Campus. If positive attendance records need to be update, please use the 'Positive Attendance' type within the Attendance Wizard tool.

## Behavior

### Behavior Incident Completion without Participant (SIS-123370) [Enhancement]

New Behavior Preferences have been added that allow behavior incidents to be marked complete without a participant being associated with it.

When the **Require participant before behavior incident can be set to complete** is set to No (default setting), behavior incidents can be set to complete without a participant being assigned. When set to Yes, a participant is needed to mark the incident complete.

When the **Require participant before behavior referral can be submitted** is set to No (default setting), referrals without a participant being assigned can be submitted. When set to Yes, a participant is needed to submit the referral.

## Calendar

### State Edition Incorrectly Displaying No Calendars When All Districts/All Calendars is Selected (SIS-124099)

State Editions of Campus were incorrectly displaying No Calendars next to the School dropdown list when All Calendars was selected and a value of All Districts was selected after a district was selected in the District dropdown list and then the user switched back to a value of All Districts. This issue has been corrected.

*Article: N/A*

*Path: [Campus Tool Bar](#) > [Calendar](#), [District](#)*

## Campus Instruction

### Curriculum/Assignment Copier (SIS-121570)

Previously, the Curriculum Copier could not be used to copy units and/or lesson plans without also

copying assignments. This has been corrected.

*Article(s): [Curriculum Copier](#)*

*Path: [Campus Instruction](#) > [Grade Book](#) > [Settings](#) > [Curriculum Copier](#)*

#### Post Grades (SIS-122816)

Previously, if a teacher accessed Post Grades in a calendar with no sections, the screen did not load properly, even after the context was changed. This has been corrected.

*Article(s): [Post Grades](#)*

*Path: [Campus Instruction](#) > [Post Grades](#)*

#### Curriculum/Assignment Copier - Source Category (SIS-123854)

Previously, the Curriculum Copier did not keep the category of the source items if the source and destination courses did not share grading tasks/standards. This has been corrected.

*Article(s): [Curriculum Copier](#)*

*Path: [Campus Instruction](#) > [Grade Book](#) > [Settings](#) > [Curriculum Copier](#)*

#### Push All Course Masters (SIS-124129)

The description of the Push All Course Masters tool has been updated to clarify that the push logic is not calendar specific.

*Article(s): [Push All Course Masters](#)*

*Path: [Grading & Standards](#) > [Push All Course Masters](#)*

#### Limited Report Rights (SIS-124426)

Previously, if a teacher only had rights to some Campus Instruction reports, the headers on the reports page were misaligned. This has been corrected.

*Article(s): [Campus Instruction Reports](#)*

*Path: [Campus Instruction](#) > [Reports](#)*

## Campus Learning

#### Planner - 'Does Not Meet' (SIS-94772)

Previously, the Planner displayed 'Does not meet' for sections that were scheduled into different periods across terms. This has been corrected.

*Article(s): [Planner](#)*

*Path: [Campus Instruction](#) > [Planner](#)*

**Planner - 'Does Not Meet' (SIS-102158)**

Previously, 'Does not meet' displayed incorrectly for sections in the Planner if the section took place in periods in different Period Schedules. This has been corrected.

*Article(s): [Planner](#)*

*Path: [Campus Instruction](#) > [Planner](#)*

**Scores Received from Illuminate (SIS-121561)**

Previously, scores received from Illuminate through the OneRoster API were not rounded. This has been corrected.

*Article(s): [Uncategorized Assignments](#)*

*Path: [Campus Instruction](#) > [Grade Book](#)*

**Grading Services - Assignment Terms (SIS-122273)**

Previously, assignments received from an external program with due dates that fall outside the grading task's terms did not display in the grade book. This has been corrected.

*Article(s): [Uncategorized Assignments](#)*

*Path: [Campus Instruction](#) > [Grade Book](#) > [Uncategorized Assignments](#)*

**Grading Services - Test Connection (SIS-123147)**

Previously, the Test Connection option on the Grading Services tab sometimes failed. This has been corrected. The user performing the test should have an email address entered on their Demographics tab for optimal function.

*Article(s): [Grading Services](#)*

*Path: [System Administration](#) > [Learning Interoperability](#) > [Grading Services](#)*

**Curriculum Planner - Generally Available (SIS-124024) [Enhancement]**

The Curriculum Planner accessed through Scheduling > Courses is now generally available. This tool allows district and school personnel to access the same Planner teachers use, where they can view a specific planner, create curriculum, and copy it to sections.

This tool is only available to users who have a school or district license to Campus Learning.

*Article(s): [Curriculum Planner](#)*

*Path: [Scheduling](#) > [Courses](#) > [Curriculum Planner](#)*

**Scoring Rubrics in Campus Student (SIS-124407)**

Previously, students were unable to view scoring rubrics in Campus Student if the due date of the assignment was in a different term than the Term Mask of the grading task. This has been corrected.

*Article(s): [Scoring Rubrics](#)*

*Path: [Campus Student](#) > [Assignments](#) > [View Scoring Rubrics](#)*

### Campus Learning Pricing Updates for 2019 (SIS-124496) [Enhancement]

The Campus Learning Licensing tool has been updated to reflect current pricing.

*Path: N/A*

### Campus Student & Campus Parent Updates (SIS-123615) [Enhancement]

The User Account Batch Wizard has been updated to include an option for updating student and parent home pages. When 'Update Home Page' is selected as the Change Type, student and parent home pages will be updated from the Portal to the new Campus Student and Campus Parent portals. Users are assigned a home page of Campus Student if they have an enrollment, including emancipated students with a guardian relationship to themselves and students who are also parents. Users are assigned a home page of Campus Parent if they have a Relationship to a student with Guardian or Portal marked, including former students who are now parents. This conversion affects all portal accounts, not just active ones.

Additionally, the following updates have been made to Campus Student and Campus Parent:

- Preparation work for translations, which will be available in a future release of Campus Student and Campus Parent.
- When a user clicks a notification from the bell icon, they are routed to the related screen, such as assignments or grades.
- Issue fixed in which exempt absences were counted differently than they were in the previous Portal.

- Notifications are no longer sent for assignments in which the student is marked as exempt.
- Notifications are no longer sent for food service balances if the preference is set to off.
- 'Multiple Scores' no longer displays for unscored assignments that have multiple alignments.
- Assignment flags and comments have been added to the grade detail screen.
- Updated text on the assignment screen indicating where users can enter their email addresses.

### Ed-Fi Version 2.0 Core Updates and Ed-Fi Version 3.1 Initial Release (SIS-122957) [Enhancement]

The following updates were made to the Ed-Fi version 2.0 resources:

- The remaining version 2.0 Core resources were added to allow districts to turn on the resources and send data if desired: Parents, Student Parent Associations, Discipline Actions, Student Discipline Incident Associations, Discipline Incidents, Cohorts, Staff Cohort Associations, and Student Cohort Association.
- Removed the Term Type field from the Terms tab.
- Updated the Student Characteristics resource with Career Tech logic.
- The US Entry field was added to the Demographics tab.
- Nebraska Districts Only: Removed the Ed-Fi Exclude button on the District Employment tab.
- A Runaway checkbox has been added to the Homeless tab.
- Single Parent, Pregnant, and Displaced Homemaker fields have been added to Career Tech programs under Academic Planning.

This release also contains the following Ed-Fi version 3.1 resources:

- Calendars
- Schools
- Students
- Student School Associations

## Health

### Health Conditions Summary Report and Conditions List Updates (SIS-97509)

Updates to the Health Condition Summary Report include:

- The Start and End Date fields default to the dates of the calendar selected in the toolbar.
- Previously when the Health Conditions list had groups with alpha/numeric group codes, the Health Condition Summary Report resulted in a conversion error when choosing a single numeric group. This has been fixed to allow a single Health Condition group to be chosen from a list of mixed alpha and numeric codes.
- The Code column on the printed version has been expanded to display both the Type and Code up to 25 characters.
- The Description column on the printed version has been expanded to allow up to 100 characters.
- The report now prints in Portrait instead of a Landscape orientation.

Updates to the Condition List include:

- The Flagable field has been renamed to Allow Flag.
- The Description field has been expanded to allow entry of up to 160 characters. The Description displays fully in the editor and in at Student Information > Health > Conditions > Health Condition with an expanded text box.

### New Food Service Messenger Preference (SIS-112817) [Enhancement]

A new preference called "Food Service" was added to the Messenger Preferences Contact Reasons on the Demographics tab. To receive Point of Sale messages, contacts must have the new Food Service checkbox selected. Previously, Point of Sale messages were tied to the "General" preference.

To help migrate existing users, the new Food Service preference will be automatically selected for users who have the General preference marked. If the General preference is not marked, the Food Service preference must be assigned manually. To assign the new Food Service Preference, Campus recommends using the Contact Preferences Batch tool (System Administration > Messenger > Contact Preferences Batch). ## Report Card

### Report Card Preference Options and Print Modifications (SIS-47528) (SIS-122190) [Enhancement]

The following modifications have been made to Report Card Preferences and Report Card print display:

#### **Standards Based Report Card Options**

- Report on Terms options are now available.
- The Standards Display Options have been modified. Instead of Display All Scores, users can now select Grades for Selected Terms, and then choose which terms to include in the report. The other two options are Best Grade Only (previously was Display Best Score Only) and Most Recent Grade Only (previously was Display Most Recent Score Only).
- When printing the Standards Based Report Card, the list of standards now includes the course and section in which the student was graded if that standard is scored in more than one course.
- When creating a new report card or editing an existing report card, the Attendance Summary section needs to be selected. Previously, this option was automatically selected.

#### **Conventional Report Card Options**

- The Report on Terms radio buttons have been changed to checkboxes, allowing selection of multiple terms. The option to exclude previous terms has been removed.

#### **Standards Based and Conventional Report Card Options**

- When only one term is selected for Attendance Summary printing, no total column of attendances is listed on the printed report card. A total column only displays when more than one term is selected. This also applies to Attendance Messenger.
- The label for Attendance Summary on the printed report card now prints as Attendance Summary by Term.
- A new Tasks to Display section has been added that includes the option to print All Standards and Tasks (graded and ungraded grading tasks and standards) or Graded Standards and Tasks Only (only prints grading tasks and standards that have scores).
- When printing a report card for only In-Progress Grades, only the calculated in-progress grade displays, even when a posted score has been entered for the selected task in that term.

Also note that when a report is rolled forward into a new or another calendar, the Term Schedule Name, the Schedule Structure Name and the number of Terms must match between the calendars in order for terms to be selected on the new report.

## Response to Intervention

### Response to Intervention Updates (SIS-120831) [Enhancement]

Several enhancements have been made to the Response to Intervention tools. Updates include:

- An Additional School(s) picker field has been added to the Intervention Providers tool.
- A new option has been added to the Response to Intervention preferences, Use School Scope for Response to Intervention Staff.
- Previously, the Use School Scope Advisers/Service Providers/SPED Staff preference for Special Ed was impacting the Response to Intervention module. This preference has been changed to only impact the Special Ed module.
- An issue with staff members displaying more than once in the Team Members dropdowns has been resolved.
- The Refresh Census Information button logic on the Team Members detail has been updated to display the correct school address of the team member relative to their district assignments and the school selected in the toolbar. If the team member has active district assignments in multiple different schools, the address of the district will display.

The following corrections are included in Rx Packs for February, March, and April 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1913 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1909 and the date of availability:

- Rx Pack Campus.1909.8 - Thursday, April 11, 2019
- Rx Pack Campus.1909.7 - Thursday, March 27, 2019
- Rx Pack Campus.1909.6 - Friday, March 15, 2019
- Rx Pack Campus.1909.5 - Thursday, March 14, 2019
- Rx Pack Campus.1909.4 - Thursday, March 14, 2019
- Rx Pack Campus.1909.3 - Tuesday, March 12, 2019

#### Report Cards - Not Printing Scores (SIS-125269)

In a previous release, the preference to include Posted Grades or In-Progress Grades was added to the Report Card Preferences. Report cards that were rolled forward from a previous calendar and not modified since the inclusion of that preference were not including any scores when a user chose those report cards for printing. This has been corrected.

Any existing report cards that do not have the Posted Grades or In-Progress Grades option selected now print with Posted Grades.

### Localization - California

#### California Immunization Corrections (SIS-124964)

The Hepatitis B, Varicella, Measles, and Mumps immunization requirements active start and end dates were set to dates in 2018. These dates have been corrected to 2019.

*Path: System Administration > Health > Vaccines*

### Localization - Massachusetts

#### Massachusetts – Various SIF Logic Updates and SIF ZIAgent Preferences Tool Created (SIS-121626)

A new SIF ZIAgent Preferences tool is now available. This tool allows districts to define the School Year and State Reporting Date, which are vital in properly reporting various SIF data to the State.

Also, the SIF Publish Tool has been renamed the SIF ZIAgent Publish Tool and the SIF Message Audits tool has been renamed SIF ZIAgent Message Audits.

In conjunction with the new SIF ZIAgent Preferences tool, logic for the following SIF extended elements has been updated to consider the new State Reporting Date field (found in the SIF ZIAgent Preferences tool) when reporting data:

- StudentPersonal/LEPStudentsInTheirFirstYearInUSSchools
- StudentSchoolEnrollment/ELLProgramStatus
- StudentSectionEnrollment/CourseEnrollmentStatus
- StudentSectionMarks/MarkList

Logic for the SIF StudentSectionEnrollment object has been updated to require a student have an enrollment End Date that is not null and an End Status code of 04 or 10 in order to be considered "Graduating".

### Localization - Vermont

#### Vermont - FTE Percentage Corrected in POS and POS Role Reports (SIS-124689)

The following columns were corrected to report 2 decimal places. Previously, they were reporting 3.

- POSFTE (11\_POS)
- RolePercent (11a\_POS\_RoleTable)

Logic on the 14a\_StuSectionEnrollment was updated for the COURSEENROLLSTATUS column. Now, if a student received a Final Grade for a course, 03 Completed will report. If the Course Section has ended and no grade is posted, 04 Incomplete will report.

The 0\_Staff Match collection was updated to not report staff when Exclude is selected on their District Assignment.

## Technical Information - Release Pack Campus.1909

These cases are included in the Campus.1909 release.

### Data Definition Language Scripts (DDL)

This section lists data structures that were created, altered, or dropped, based on the vocabulary used to define data structures in SQL Server.

#### New Tables

Case Number	Table	Description
SIS-120831	PlanServiceProviderSchool	Relation of school to planserviceprovider.
SIS-122882	ProgramRequirement	
SIS-122957	ProgramPerson	Contains program-related information for a given person.
SIS-123545	OAuth2Scope	Scopes that may be assigned to an oauth2clientcredentials or an oauth2authorizationcode. This table is built on app startup from the enum located in oauth2scope.java.
SIS-123545	OAuth2ScopeAssignment	Many to many link between oauth2scope and oauth2clientcredentials or oauth2authorizationcode.
SIS-124120	GradingWindow	Represents the start and end times of a period of grading for a group of gradingtaskcredits.
SIS-124120	GradingWindowTask	Represents which tasks the grading window affects.
SIS-124120	GradingWindowTerm	Represents which terms the grading window affects.
