Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

> Check out the list of New and Updated Documentation for this release.

For additional information platform support, see the Supported Platforms article.

To Do - This Release

- The Mailing Labels Report has been significantly enhanced, with options to generate labels for Guardians, Teachers, Staff and District Staff, in addition to generating labels for students. Personnel responsible for generating mailing labels should consult the Product Documentation available on the Knowledge Base for detailed information and guidance. (SIS-119737)
- A new Teacher Schedule Report has been added to Campus Instruction. Give teachers tool rights to this report to allow them to generate printable versions of their own schedules. (SIS-122983)
- The Academic Progress Planner HTML field is NOT available in Campus Student/Campus Parent. Because of this, it is being removed from the Portal Display Options in a future release. If you have text in this field that displays on the existing Parent Portal, please consider moving this text elsewhere.

Academic Programs

Course Plan Display in a Program without Credit Requirements (SIS-118006)

When a student is assigned a Graduation or CTE Program that does not have any Credit Requirements, the Course Plan in Campus Student does not load, and the Course Plan tool does not load for the counselor. This has been corrected.

A note has has been added to the Course Plan in Campus Student and the Course Plan tool associated with the program indicating the selected Graduation or CTE Program does not have any credit requirements. To correct this, the counselor needs to update the Credit Requirements tool associated with the Academic Plan.

Course Planning Rules (SIS-122325) **[Enhancement]**

Two new Planning Rules are now available.

- Course Rotation allows courses to be planned in specific years based on the entered interval and starting school year. For example, a course that is only available every third year has an interval of three. Parents and students are unable to plan these courses in off years.
- Grade Level allows a course to be marked for specific grade levels and restricts planning of that course by parents or students to those grade levels.

Counselors do have the ability to override these rules as they do with the existing planning rules.

Assessment

Percentile Value of Parent Test Incorrectly Overwriting Percentile of Child Tests (SIS-123085)

Initiating a save on a parent or corresponding child test was incorrectly causing the Percentile value on child tests to be overwritten with the Percentile value existing on the parent test . If the parent test had a null Percentile value, existing Percentile values on child tests were being set to null. This issue has been corrected.

Campus Student & Parent Updates (SIS-122127) **[Enhancement]**

The following updates have been made to Campus Student and Campus Parent:

- Updated login page of web applications. NOTE: This change applies to all login pages, including those for staff.
- Updated Attendance to include the attendance Description and Present codes if applicable.
- Updated the display of the Message Center.
- If students have multiple enrollments, tools have been updated to display active enrollments first.
- A banner has been added to the Today screen that includes student picture, number, calendar name, and grade level.
- Added the Access Log to the User Account area, with an enhanced design to improve clarity.
- Various other bug fixes and cosmetic changes.

Additionally, a new tool was added to System Administration called Login Page Preferences, which is used to configure the text and options that display on all login pages, including those for parents, students, and staff. From this tool, schools can enable New User account creation for parents.

Census

Census Mailing Labels for Guardians, Teachers, Staff (SIS-119737) **[Enhancement]**

The Mailing Label Report can now be generated for Guardians, Teachers, Staff and District Staff, in addition to generating labels for students.

- **Guardian** labels print the name(s) of the guardian who has a guardian relationship with the student and the mailing checkbox marked on the household address and on the relationship.
- **Teacher** labels print the name of the teacher who has an active District Assignment record and the Teacher checkbox marked, or if using Campus HR, an active Work Assignment and a role of Teacher selected. Teachers must be in a household that has an address marked as mailing (for Campus HR, the address must be marked as HR Mailing).
- **Staff** labels print the name of the staff person who has an active District Assignment record, or if using Campus HR, an active Work Assignment. Staff must be in a household that has an address marked as mailing (for Campus HR, the address must be marked as HR Mailing).
- **District Staff** labels print the name of the district staff person who has an active District Employment and no District Assignment record, or if using Campus HR, an active Work Assignment. Staff must be in a household that has an address marked as mailing (for Campus HR,

the address must be marked as HR Mailing).

Existing functionality for generating student labels has not changed. Student labels can be generated by selecting a Grade level or a Course/Section. The only difference between student labels and guardian labels is the ability to print the salutation on the student label (To the Parent/Guardian of: option).

In addition to the added report options, the following modifications have been made:

- The option to **Print Labels for Student or Household** has been removed, since labels can now be printed for guardians.
- Users can now select a **Starting Position** for the Row and Column to begin printing.
- The Enrollment Effective Date field is now **Effective Date** and is available for all report types.

DIS/SIF

SIF StudentSchoolEnrollment/Homeroom Element Logic Update (SIS-89014)

Logic for the StudentSchoolEnrollment/Homeroom element has been updated to include the following:

- The homeroom RoomInfo RefId must reference the RoomInfo associated with the latest section the student is enrolled in as of the current date.
  - When the student has more than 1 homeroom section they are enrolled in during the same term or day, the RoomInfo Refid from the section with the student's latest section enrollment Start Date is reported.
    - When the student is enrolled into more than 1 homeroom section during the same term or day and more than 1 section enrollment has the same Start Date, the section with the latest End Date (or null End Date) is reported. The null End Date takes priority.
      - When more than 1 homeroom section has the same latest End Date, the section with the highest section ID is reported.
- When the current days is greater than the homeroom section's term date range, the latest homeroom the student was last enrolled in is reported.
- These changes apply to both SIF events and SIF batch.

Infinite Campus Application Service (ICAS) Update 1.0.4 (SIS-122255)

Infinite Campus Application Service (ICAS) package 1.0.4 is now available. Included in this package is the following updates to critical system applications and services:

- Apache Tomcat - 8.5.32
- Oracle Java – JDK 1.8.0_181
- Apache Log4j2 – 2.11.1
- Microsoft JDBC Driver – 7.0.0 jre8
- Apache Jvisual – 1.4.1
- LogStash Gelf Appender – 1.11.2
- NI02 Connector for HTTPS
- URIEncoding to default to UTF-8
- Max Memory increased to a default of 8GB

Campus Cloud, Cloud Choice, and In-District customers will have the ICAS package installed automatically during the update to Campus.1901.x.

Self-hosted customers will need to install the ICAS package before or after updating to Campus.1901.x. For more information on how to install the ICAS package, please see the instructions posted to the Self Hosted forum.

Due to dependencies, districts MUST update to Campus.1841.1 or greater prior to taking Campus.1901 and the newest ICAS package. This applies to ALL environments on a given server: Production, Sandbox, or Staging.

Transcript Report Preferences and eTranscript Updates (SIS-96189) **[Enhancement]**

Transcripts
The following modifications have been made to Report Preferences for Transcripts:

- Additional options for including In-Progress Courses on the Transcript have been added. Options can also be marked to not include In-Progress Courses from previous years (Exclude Previous Years) and to include In-Progress Courses that exist for any future term in the current year (Include Future Courses).
- If a previous course number or course name is changed, and transcripts were posted using the Transcript Post tool, the course displays correctly. If a transcript record was manually entered for a student with the previous course number or course name, that course may show as in progress. This happens because there is no section ID to attach to the record. To eliminate this from happening, mark the Exclude Prior Years for In-Progress Courses.
- One-time grading tasks are included in the In-Progress credit total.
- In-Progress logic follows standard date logic, which is that a course is considered in progress until midnight of the entered end date. If a student drops a course or is no longer enrolled on Tuesday the 12th, the student is still active in that course until midnight of the 12th.

eTranscript

- On the PESC XML Layout, future In-Progress Courses previously sent as InProgress. This now sends as NotYetReported.
- The Electronic Release History log has been increased to 4000 characters, and the window on the eTranscript Batch that indicates an error has also increased.

Oklahoma – SIF StudentDailyAttendance Object Updated to Populate Correct Attendance CodeInfoRefId (SIS-112695)

Logic for the SIF StudentDailyAttendance object (Oklahoma and Core users) has been updated to include the following:

- When a student has any attendance code(s) assigned to a day that are not included on the zone's Attendance Code Allowed List, and when the StudentDailyAttendance record is reported for the student and day:
    - The AttendanceCodeInfoRefId reported must consistently be for an attendance code on the Attendance Code Allowed List.
    - The AttendanceCodeInfoRefId reported must be the same RefId reported when there are no attendance codes in the Attendance Code Allowed List.

- The AttendanceCodeInfoRefId reported will consider all absent attendance codes assigned to the day (Status = A, Excuse NOT = X), where:
  - When the sum of all periods with an absent attendance code qualifies the student's day to be a full day absence, the full-day absence version of the RefId for the AttendanceCodeInfoRefId will be reported.
  - When the sum of all periods with an absent attendance code qualifies the student's day to be a half day absence, the half-day absence version of the RefId for the AttendanceCodeInfoRefId will be reported.
- When the StudentDailyAttendance SIF Delete event is triggered, the AttendanceCodeInfoRefId is not tied directly to an AttendanceCodeInfo (It will not match).
- StudentDailyAttendance reports only for Absent/Not Exempt attendance codes.
- When the period for the student has Code = Blank and Status = Absent:
  - If the student qualifies to report half day (0.5) absent:
    - StudentDailyAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 0.5 in the calendar.
    - When the calendar does not have an Absent attendance code with Excuse = Unknown, report the RefId for the attendance code in the calendar with Status = Absent and Excuse= Unexcused that has AbsenceValue = 0.5.
    - When neither an Absent/Unknown nor Absent/Unexcused attendance code exists in the calendar, do not report the absence.
  - If the student qualifies to report full day (1.0) absent:
    - StudentDailyAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 1.0 in the calendar.
    - When the calendar does not have an Absent attendance code with Excuse = Unknown, report the RefId for the attendance code in the calendar with Status = Absent and Excuse= Unexcused that has AbsenceValue = 1.0.
    - When neither an Absent/Unknown nor Absent/Unexcused attendance code exists in the calendar, do not report the absence.
- When the period for the student has Code = Blank and Status NOT = Absent, the period must not count toward the student's absence minutes.

Logic for the StudentPeriodAttendance object has been updated (Oklahoma only) to include the following:

- When the period for the student has Code = Blank and Status = Absent:
  - StudentPeriodAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 1.0 if exists in the calendar.
  - Otherwise, the RefId for the Absent/Unexcused attendance Code with AbsenceValue = 1.0 if exists in the calendar.
  - If neither attendance codes exist in the calendar, do not report.
  - StudentPeriodAttendance reports only for Absent/Not Exempt attendance codes.

Pennsylvania

Pennsylvania - PIMS Staff Extracts Reporting Updates (SIS-121454)

The following reporting updates have been made for Pennsylvania:

- A new Alternate School Number field has been added to the School Editor. When populated, the entered school number is used for reporting purposes, instead of the number entered into the State School Number field. (System Administration > School > Resources)
- New Assignment Codes for staff have been added (Census > People > District Assignment):
    - 8416 - Science, Staff Coach
    - 9220 - Special Ed, Staff Coach
- School district 8442: West Green JSHS is now available for selection for Resident School (Student Information > General > Enrollments > State Reporting Fields).

The following modifications have been made to all PIMS Staff Reports:

- When the Exclude checkbox is marked on the District Assignment record, the staff person is not included in any reports.
- For the October Reporting Period, staff are not reported when the District Employment Qualification Status is populated. The Staff ID reports from the Demographics tab. *This change applies to all staff reports except Staff Student Subtest.*
- For the June Reporting Period, all current reportable staff are included, even when the District Qualification Status is populated.
    - When populated, the Staff ID reports from the License Number field(SS + license number) on the District Employment record. If this is null, this reports from the Staff State ID field (SS + staff state ID number).
    - When District Employment Qualification Status is not populated, Staff IF reports from the Staff State ID field. *This change applies to all staff reports except Staff Student Subtest*
- Staff ID on the Staff Student Subtest and Staff Student Course Extracts reports from the State Staff ID field for all reporting periods.

The following modifications have been made to the PIMS Staff Template and Staff Snapshot Template:

- Field 3, SSN, is now a filler field for all reporting periods.
- Assessment Participation Codes 2-4, report O: Online when selected in the Assessment Participation Code fields on the State Reporting Enrollment editor. If not populated, this field reports as Null.

Wisconsin - Ed-Fi Primary Nighttime Residence Update (SIS-122829)

The '00: Unknown - do not send record to WISE' value has been added to the Primary Nighttime Residence field in the Homeless Detail editor to identify students that are determined to be homeless, but their primary nighttime residence location has yet to be determined.

The triggering logic in the Student Homeless Program Association – EdFi WI resource has been updated to suppress any records from sending to WISE if the Primary Nighttime Residence value is set to '00: Unknown - do not send record to WISE'.

When the student's primary nighttime residence location is determined, updating the Primary Nighttime Residence field in the Homeless Detail editor triggers a record to be sent to WISE.

Rx Pack - Campus.1901

Rx Pack Campus.1901.9 | Rx Pack Campus.1901.8 | Rx Pack Campus.1901.5 | Rx Pack Campus.1901.4 | Rx Pack Campus.1901.3 | Rx Pack Campus.1901.2

The following corrections are included in Rx Packs for January 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1905 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1901 and the date of availability:

- Rx Pack Campus.1901.9 - Thursday, January 24, 2019
- Rx Pack Campus.1901.8 - Saturday, January 19, 2019
- Rx Pack Campus.1901.5 - Wednesday, January 16, 2019
- Rx Pack Campus.1901.4 - Friday, January 11, 2019
