Technical Information

Users can access Technical Information [here](#).

Academic Programs

Academic Planning Enhancements (SIS-128197) [Enhancement]

Academic Planning tools have been modified throughout the product. See the articles included for detailed information on these enhancements.

- Career Tech Programs have been renamed to Academic Programs throughout the product.
- A Category field has been added to the Graduation and Academic Program Detail editors. This allows districts the ability sort Programs by that selection.
 - Academic programs can be categorized as CTE, Certificates, Awards, and Seals. Existing Academic Programs are assigned a category of CTE.
 - Graduation programs can only be categorized as Graduation. Existing Graduation Programs are assigned a category of Graduation.
 - The category displays in the Academic Programs tree, in reports and on the Student Academic Planning tools.
 - The category field is available in Ad Hoc Reporting for selection in the Filter Designer and in Data Viewer (field name = programCategoryCode).
- The New Program icon has been renamed to New.
- Compound Requirements, in both Graduation Programs and Academic Programs, can now be created in parent/child format. This functionality allows schools to establish requirements where there may be a total of 5 requirements, but the student only needs to complete 2 requirements, for example.
 - The Parent/Child requirements relationship is shown in a tree-like format in the Compound Requirements list editor.
 - The student's Academic Planning Progress tool has been modified to include child compound requirements within the Compound Requirements section, as have the Academic Plan Progress Summary and Detail Reports.
 - The Academic Plan Progress Batch Summary and Detail Reports have also been updated to include the child compound requirements.
- On the Compound Requirements editor:
 - The Save icon has been renamed to Save Requirement.
 - The New Compound Requirement icon has been renamed to New Requirement.

- The Delete Compound Requirement icon has been renamed to Delete Requirement.
- A new Add Academic Program Requirement button has been added to the Compound Requirement editor. This allows users to add other Academic Programs to another Academic Program as part of a Compound Requirement.
- A Status column has been added to the Academic Planning Progress tool for Graduation Programs and Academic Programs. This Status also displays when generating the Academic Plan Progress Detail Report.

Course Plan Template - Inactive Courses (SIS-129915)

When creating a new program template, available calendars were filtered to only include course information from one year previous. This caused an error (no valid courses found) when retrieving the course catalog. This has been corrected.

Course and calendar information is always retrieved for a previously selected calendar regardless of end year.

Academic Planning - Course Plan Template for Current Year (SIS-132024)

When assigning an eligible student to a course plan in the current year for a new graduation/academic program, the courses for the student's current grade were not added to the plan in some cases. This has been corrected.

Article(s): [Course Plan \(Academic Planning\)](#)

Path: Student Information > Academic Planning > Course Plan

Academic Planning - Credit Group Filtering (SIS-130429)

Graduation and Academic Programs (formerly CTE Programs) now allow the ability to filter Course Requirements by credit group and specific credit type. For courses receiving credit in more than one credit group, the total amount of credits can be evaluated for all credit groups or for a selected credit group.

The following fields have been added to the Course Requirements and Compound Requirements editor:

- Evaluate Credits From
- Limit to Credit Type

The existing Credit Type field has been renamed to Display Alert and relocated within the interface. Any previously selected values in the Credit Type field are still selected and shown in the Display Alert field.

See the articles below for detailed information on this functionality.

Ad hoc Reporting

Data Analysis Updated and Renamed to Pivot Designer (SIS-114061) [Enhancement]

The Data Analysis tool has been renamed to Pivot Designer and has been given a cleaner, easier to use interface bringing it up to date with Campus UI standards. New functionality allows users to apply conditional formatting, create custom calculations, and build a variety charts. A majority of the existing functionality remains unchanged.

Adobe Flash is no longer required to use Data Analysis (Pivot Designer) functionality.

For more information, please see the Pivot Designer tool article in the Campus Knowledge Base.

Campus Student/Parent

Student Barcode Added to Campus Student (SIS-131141) [Enhancement]

This option is only available for Districts who have purchased the Campus Workflow suite.

A new preference, Display Barcode of Student Number on Campus Student, has been added to Portal Preferences. When marked, a barcode of the student's student number displays upon log in of Campus Student that can be used to scan in and out for attendance.

Article(s): Display Options

Path: System Administration > Portal > Preferences > Display Options > Other Display Options

Campus Student & Parent Updates (SIS-131788) [Enhancement]

Various minor bug fixes and cosmetic improvements have been made to Campus Student and Campus Parent, including the following:

- Custom text now displays on each screen as entered by the district, even if there is no data to show on the tool (excluding the Fees tool).
- The Attendance summary by course now totals attendance events correctly.
- Improved accessibility of the login page.
- Addressed issue in which the wrong course name sometimes displayed in attendance if the student had dropped a course and added another during the same period.
- The Google Apps for Education account currently logged in is now shown on the assignment and submission screens if the teacher or student has attached a Google file.
- The Schedule, Attendance, and Grades tools have been updated to distinguish between dropped

- and completed Responsive Scheduling courses.
- Push notifications in the mobile apps have been updated so that users can now tap notifications to be taken to the related screen in the app.

Online Payments

Partial Refunds (SIS-130206) [Enhancement]

Districts can now issue partial refunds using the Payments Reporter. Previously, the entire transaction had to be returned. Now, districts can refund individual lines on a transaction. Each line that the district refunds is given the Transaction Status "Returned".

Previously, if your district chose not to refund Service Fees, the original Service Fee was assigned the "Returned" Transaction Status but did not add a Return Void offsetting transaction. Transaction Fees were also assigned the "Returned" Transaction Status. This function was updated. Service Fees that are not refunded and Transaction Fees now stay in a "Completed" status. Service Fees and Transaction Fees that were in a "Returned" status prior to this release have also been updated to a "Completed" status.

Note, refunds may incur an additional Transaction Fee based on your district's contract with the payment vendor.

Nebraska – Ed-Fi v3.1 Student Programs Resources Updates (SIS-131557)

The logic for the specialEducationHoursPerWeek and schoolHoursPerWeek has been updated in the Student Special Education Program Association resource.

The resync logic has been updated so that if the Student Special Education Program Association resource is toggled off, Student Special Education Program Association records are not deleted in the State ODS when resyncing.

The logic in the Student Food Service Program Association resource has been updated so that students with a CEP report as '4', even if the student has a Free/Reduced record that overlaps. CEP will keep all individual FRAM records from reporting as it is an override for all students in the school.

The endDate logic in the Student Special Education Program Association, Student Title 1 Part A Program Association, Student Early Learning Program Association, and Student CTE Program Association resources was previously not reporting correctly. This issue has been resolved.

A delete must be done on all existing Student School Food Service Program Association resource records and then a resync needs to be performed in order to prevent orphaned records.

- The participationDescriptor has been removed from reporting in the English Language Proficiency Assessments array. This is a field that WI does not collect for state reporting.
- The schoolYearTypeReference in the English Language Proficiency Assessments array has been updated to report the year the test was aligned to.
- The limitedEnglishProficiencyDescriptor English Language Proficiency Assessments array has been updated.

The logic for the limitedEnglishProficiencyDescriptor in the Student Education Organization Association resource has also been updated to report the correct value from the assessment.

A resync on the Student Language Instruction Program Association resource and Student Education Organization Association resource is required with this update.

The following corrections are included in Rx Packs for December 2019 and January 2020. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2001 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1949 and the date of availability:

- Rx Pack Campus.1949.9 - Thursday, January 16, 2020
- Rx Pack Campus.1949.7 - Monday, January 6, 2020

Localization - Kansas

Kansas - SMSC, EOYA Calculation of Membership and Attendance Days (SIS-133434)

The Membership Days and Attendance Days calculation for the KIDS SMSC and EOYA Extracts has been modified.

- For the SMSC Extract, attendance is calculated through December 2, 2019.
- Membership Days reports the number of days between the student's enrollment start date and the student's enrollment end date for all state reported enrollments for the same calendar ID. If the Enrollment End Date is blank, the Filter End Date field on the Report Editor is used.
- Attendance Days reports the number of days between the student's enrollment start date and the student's enrollment end date for all state reported enrollments for the same calendar ID, minus any attendance records where the Absent/Excuse value is not Excused.

Localization - Minnesota

Minnesota - Ed-Fi ID Script (SIS-133118)

This release runs a one-time script on production sites for all students to update their Ed-Fi ID, if it is currently NULL, to be their current Student State ID. If the Student State ID is less than 13 characters, the number is increased to 13 characters in length via leading zero padding. If a student's Ed-Fi ID already contains a value, no change is made.

If your Ed-Fi Configuration is successfully configured and your resources are mapped and turned to 'On' status, this release also serves as a district-wide Ed-Fi resync, pushing data to MDE for your district.

Path: OH State Reporting > OH Extracts > GE

Ohio - HB410 Student Truancy Report (SIS-132585)

The HB410 Truancy report has been updated to compare calculated truancy data with existing truancy records for the student. Users have the option of comparing All Records or looking for Differences Only, which reports instances where a threshold was met by no record exists. Two new fields were added to the HB410 extract called Truancy Record Type and Truancy Record Date. Courses marked as State Exclude are no longer included in the truancy calculation. The truancy calculation will now delete truancy records if the record no longer meets the calculated threshold and there is been no user entered data stored on the record.

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - Admins

- The new Advisory tool is designed to help teachers identify areas of improvement for students. To use this tool, teachers must have tool rights. Access to this tool can be governed in two ways, by course using the Advisory checkbox on course masters, courses, and section or by teacher using the "Include Non-Advisory Sections" sub-right, which grants a teacher access to the advisory tool for all of their sections, regardless of whether the Advisory checkbox is marked. ([SIS-128185](#))
- Attendance views now pull directly from the Attendance Day Aggregation table. ([SIS-122835](#))

Update Manifest

Click on a header to sort the table by that column.

See the [Campus Release Pack Enhancements](#) article for a list of just enhancement release notes, or click the **Description** column header twice to sort enhancements to the top of the manifest.

CTE Program Field Changes (SIS-127828) [Enhancement]

The **Minimum GPA required to graduate** field has been renamed to **Minimum GPA required for completion** in the following locations. Functionality has not changed.

- Program Admin > Reports > Academic Plan Progress > Academic Program > Report Options > Summary, Detail > GPA Requirement
- Student Information > Academic Planning > Progress > GPA Requirement
- Student Information > Academic Planning > Academic Plan Progress Report > Summary, Detail > GPA Requirement
- Campus Student and Campus Parent > Academic Plan > Progress Report > Summary, Detail > GPA Requirement

The field **Graduation Minimums Detail** is now **Completion Minimums Details** in the following location. Functionality has not changed.

- Program Admin > Programs > Career Tech Programs > GPA Requirements

Program Admin - GPA Requirements available on Compound Requirements (SIS-128195) [Enhancement]

The Compound Requirements for both Graduation Programs and Career Tech Programs now includes the ability to add GPA Requirements which allows GPA calculations for a student to be compared against other GPA Calculations, completed courses, tests or CTE programs.

Detailed progress towards compound requirements is visible on the student's Academic Planning progress tab and the Academic Plan Progress report.

Ad hoc Reporting

Attendance Views (SIS-122835) [Enhancement]

To improve performance of attendance reports, attendance views that produce a day calculation (labeled as Daily Approximation or Daily Exact) now pull attendance data directly from the Attendance Day Aggregation table (AttDayAggregation).

Because the attendance views are pulling data directly from the AttDayAggregation table, today's information is no longer included and the results are consistent with the Chronic Absenteeism calculation. This means daily attendance information in certain reports is only current as of the previous night's attendance calculation, or the last time the Attendance Aggregation Refresh was run.

These tools are affected:

Test Results Report (SIS-121331) [Enhancement]

The Test Results Report has been rewritten with new options on the report editor and new printed layouts, available in PDF, DOCX and CSV formats.

- State Test subjects can now be selected. This includes an option for tests with No Subjects.
- The report can include only tests the student has taken, only tests the student has not taken, or all tests the student has taken and not taken.
- Test results now includes options for Passed, Failing, Missing or No Results Defined.
- Test Score has been renamed to Result Status.
- Score Types can now be selected, and includes any score type that is not hidden in the attribute dictionary.
- A Display Options section has been added that allows the selection of the type of test score - best score, etc.

Calendar Grade Levels (SIS-96845)

A new checkbox has been added to the Calendar Grade Level editor, called Exclude from Enrollment. This checkbox can be marked for a grade level where it is added to a calendar for reporting purposes but not necessarily to enroll students into that grade level (e.g., a student receives high school credit for a course taken in 8th grade).

When this checkbox is marked:

- The Grade Level does not show in the Enrollment Editor in Census, Student Information, or Student Locator.
- Enrollment Roll Forward does not roll students into the excluded grade level.
- School choice does not allow applications or processing for the excluded grade level.
- The excluded grade level is not included in selections for grade levels on reports (see the article below for a complete list of those reports).

Campus Instruction

Campus Instruction - Advisory (New!) (SIS-128185) [Enhancement]

A new Advisory tool has been released for teachers, designed to help teachers identify areas of improvement for students during classes such as advisory, homeroom, and study hall. Teachers who have the appropriate tool rights can use this tool to view a list of students in their classes who have missing or late assignments, and who have failing posted or in-progress grades. Click on a student to view the student's Profile, which includes attendance, in-progress grades, and assignments.

Note to administrators: Teachers must have the Advisory tool right to use this tool. Access to this tool can be governed in two ways:

- By course using the Advisory checkbox on course masters, courses, and section.
- By teacher using the "Include Non-Advisory Sections" sub-right, which grants a teacher access to the advisory tool for all of their sections, regardless of whether the Advisory checkbox is marked.

Campus Learning

Progress Monitor Scoring Screen (New!) (SIS-128480) [Enhancement]

A new scoring screen has been added to the Progress Monitor which allows teachers to view all assignments and all of their alignments for an entire section in the selected term. Previously, views were limited to all assignments for a single alignment or all alignments for a single assignment.

All existing scoring features, such as flags and fill options, are available on this screen. Additionally, the settings menu allows teachers to sort and filter the view. The Search option helps teachers find assignments by name and abbreviation. Expand an assignment to view the in-progress grade.

The Progress Monitor is available as part of the Campus Learning premium offering.

As part of this change, Campus Instruction tool rights have been rearranged to collect rights that apply to multiple tools into a Grading Tools group. Additionally, the pass/fail color coding has been added to the Account Settings menu in Campus Instruction and expanded to be a global setting for all sections. Teachers can still access this option from the Grade Book, Planner, and Progress Monitor.

Ed-Fi – Multiple Applications and Framework Updates (SIS-128248) [Enhancement]

Updates to support multiple applications for one or more schools in one Campus Database:

- The Ed-Fi Configuration tool has been updated to allow multiple Keys and Secrets for one or more schools in one Campus Database. This option is only available in states where Ed-Fi is used for state reporting and the Ed-Fi Connection Type is 'State'.
- The Delete tool has been updated to delete by configuration.
- The Resync tool has been updated to sync by configuration.
- A report has been added to the Configuration screen to allow users to view which schools belong to a configuration and application.

Framework changes and performance enhancements:

- The Start Date and End Date logic in the Staff Section Associations resource has been updated.
- The Student and Staff resources have been updated to report Non-Binary Gender.
- The Staff School Associations, Student Cohort Associations, and Staff Cohort Associations resources have been made available.
- Performance enhancements have been made to improve resync times.

Student Enrollments - No Show and Displaying in Red (SIS-114242)

An enrollment marked as No Show is not used in the logic for determining if a student displays in red (inactive student) or black (active student) in the Student Search. The most recent enrollment that is not marked as No Show is considered.

- When a student has a No Show enrollment followed by another ended enrollment in the same calendar, the student displays in red the day after the subsequent enrollment is ended or after the last day of the calendar.
- When a student has a No Show enrollment followed by another future enrollment in the same calendar, the student displays in red until the Start Date of the subsequent enrollment.
- When a student has an ended enrollment followed by another No Show enrollment in the same calendar, the student displays in red beginning the day after the enrollment End Date.

Student Schedule, Walk-In Scheduler Updates (SIS-130135) [Enhancement]

A new Student Requests report has been added to the Print options. This prints a list of the courses the student requested.

Settings are now available in the Schedule Term View. Users can set whether to display course and section numbers in the course grid.

The following issues have been addressed for Student Schedule and Walk-In Scheduler:

- Ending a student's placement in a course section (End Rosters) with a date of the last day of the term no longer displays an error indicating the entered dates were outside of the term.
- Performance of the schedule in a school with many terms/schedules/periods has been optimized.
- Performance of the Walk-In Scheduler has been optimized.
- The Search panel now retains the entered date when searching and adding courses for one student and then moving on to another student.
- Correct validation messages now display when viewing courses in Term view.
- The course chevron to display course sections now resets when searching for courses.

- Text in the information boxes that display on the Requests Panel and Search Panel are now left aligned.
- Walk-In Scheduler information continues to display courses for students marked as No Show.
- A dropped double-period course section displays as two sections in the course grid.
- Scroll bars display when needed in the modals when loading and unloading sections.
- When searching for a course section, all sections display the same information - term, period schedule, period, team, IEP count - regardless of those items being available. For example, if a calendar only has one period schedule, the name of the Period Schedule still displays for that section.
- Full screen issues with updating roster modals, validation messages and student names have been corrected.
- The Upload Document error message (when the same document has already been uploaded) now displays in its entirety.
- When a section spans multiple periods and the periods don't have start and end times entered, mass loading of courses now functions without error.
- When a course is dropped with an end date in the past, the Lock checkbox no longer displays in the Roster Update panel.
- The Calendar view now displays both courses when two sections meet in the same period.
- Information for a course displays the same information in Term View as in Calendar View.
- The Section Start and End Dates message displays correctly for a student when they switch course sections midyear.
- Changing settings in the Schedule Term View or in the Walk-In Scheduler occurs without the user needing to refresh the browser.

Arizona – AzEDS 5.0 / Ed-Fi v3.1 Student Program Attendance Event Resource Update (SIS-126492)

The following corrections are included in Rx Packs for November 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1949 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1945 and the date of availability:

- Rx Pack Campus.1945.7 - Friday, November 22, 2019

Academic Programs

Academic Planning - KG PESC Grade Level (SIS-129720)

Previously, programs used PESC grade level to identify graduation cohort years for kindergarten grades for planning. An error for ungraded kindergarten and preschool grades has been addressed by using NCES grade levels instead. This behavior now matches all regular post-kindergarten grades for students with no explicit graduation record.

Campus Student & Campus Parent Updates (SIS-130211) **[Enhancement]**

The following updates have been made to Campus Student and Campus Parent:

- Updated the visual display of attachments on an assignment.
- Previously, users were unable to create accounts via GUID if the student's enrollment start date was prior to the current date and the previous school year was still active. This has been corrected.

- Previously, former students were unable to create Campus Parent accounts. This has been corrected.
- The Grades view for a course has been updated to allow users to see all grading tasks/standards in the same view.
- A new preference has been added to the Portal Display Options allowing admins to hide the lunch balance from the Today screen in Campus Student. This option does not affect Campus Parent.

Grade Reporting

New Grading Window (SIS-126352) [Enhancement]

An enhanced Grading Window is now available. With this new Grading Window, users can now visually see the date range of when teachers can post scores for grading tasks and standards.

The following is a summary of the features available with this new Grading Window:

- View the status of a Grading Window by either Grading Tasks or Standards.
- Schedule new grading windows for multiple calendars and multiple terms at once.
- Choose the dates the Grading Window is open by selecting from a calendar view (date range) or by the Term End Date.
- Select the desired grading tasks or standards. When selecting standards, choose all standards in a group, or just the parent standard, or just the child(ren) standard. Grading tasks and Standards are filtered to the selected terms.
- See a preview of the window before it is saved, and reapply it as needed.

Courses still require grading tasks and standards to be assigned to them, as well as the School Standards being marked, and the appropriate Term Masks marked.

The classic Grading Window remains for the time being, but can only be used to close any open grading windows. It is not advised to use both the classic Grading Window and the new Grading Window interchangeably.

Updates for Fees in Campus Parent and Campus Student (SIS-120764) [Enhancement]

The following changes were made to improve the user's experience when paying Fees in Campus Parent and Campus Student.

- The Fees tool in Campus Parent was redesigned to allow parents to see all of the Fees assigned to them and to their students on a single screen. Parents can still choose to view one person at a time.
- Users can now pay Fees for students regardless of the students' enrollment status as long as Fee Payments are turned on for the school from which the Fee was assigned.
- A new button called "Optional Payments" was added to the bottom of the Fees page. When users select the button, the Optional Payments screen displays. Users can add Optional Payments to their cart and easily return to the Fees tool.

Options include showing the course and section number in the active grid, displaying full sections, filtering request search by a specific team. For complete information on the available Settings, review the article below.

Counting of Scheduling Units has been updated for Skinnied Courses:

- If a request has not be scheduled, the unique associated units with that request is counted.
- If a request has been scheduled and the course does not have a Scheduling Rule of Skinny, the unique associated units with that request is counted.
- If a request has been scheduled and the course is assigned a Scheduling Rule of Skinny, but there is no other section in the same cell, the unique associated units with that request is counted.
- If the request has been scheduled with another section in the same cell but not all of the courses are assigned a Scheduling Rule of Skinny, all unique associated units are counted.
- If the request has been scheduled with another section in the same cell and all of the courses are assigned a Scheduling Rule of Skinny, all associated units are counted as one, using the highest unit count if applicable.

Additional updates are listed below:

- When a course that spans multiple periods is dropped, the words No Scheduled Course display on the schedule grid for one of the dropped period cells.
- When unloading a student's schedule, the modal display no longer mentions that attendance data is removed from view.
- When loading and unloading courses, terms not selected in the confirmation modal now remain not selected.
- Keyboard shortcuts for S (search panel) and R (requests panel) are not available in Quick Add.
- The overloading of a section using the Load option is no longer possible.
- Hover text now displays when in full screen mode.
- Period schedule times now display correctly in the schedule grid and when ending a course for a student.

IowaIowa – SIF and SRI Days Present Field Updated to Calculate to Hundredth of a Day (SIS-127688)

Logic for the Days Present field in the SRI Data Collections Extract has been updated to calculate to the hundredth of a day. New logic is as follows:

- From across all periods with "Instruction" = Checked in instructional days up to and including the extract Effective Date:
 - Find the total hours available in each instructional period, rounded to the nearest hundredth (.01).
 - For each period in which the student was marked Absent, Not Exempt:
 - Subtract the hours (rounded to the hundredth) for the period from the student's total daily attendance.
 - Lunch minutes are subtracted from the total hours calculation for the applicable period.
 - Days Present = SUM((total instructional hours in day - students absent hours) / total instructional Hours in day) (rounded to the hundredth). Report to the hundredths of a day in format 0.00 to xxx.00

Logic for the following SIF elements was updated to calculate results to the hundredth of a day:

An Insufficient Enrollment Report has been added as option for the KEES Report. This report indicates all students who meet reporting criteria for the KEES Spring Report but do not have the minimum number of days enrolled (140) in the district in order to be considered KEES eligible.

Along with this new report option, the following updates were made:

- A CSV format is now available for all KEES reports.
- KEES Eligibility selection criteria has been updated to the following:
 - Students must have an enrollment in a selected calendar to report however the number of days enrolled in any eligible enrollment in the district during the calendar year will count days in Enrollment records from calendars not selected in the extract editor.
 - Count Days where a student was enrolled in any school in the district.
 - Only count Primary enrollment records
 - Count unique days, if overlapping enrollments exist count each unique date only once.

Maine – New State ID Import and Attendance Report Updates (SIS-128390)

The Start Status field has been added to the New State ID Import. Although added, this field will not currently import any data nor be used for record matching.

The following updates were made to the Attendance Report:

- The Effective Date has been removed from the report editor.
- The Reporting Period dropdown list has been added. This field includes the following options:
 - Quarter 1
 - Quarter 2
 - Quarter 3
 - Quarter 4
- A Start Date and End Date fields have been added to the extract editor.
- To account for the new editor fields, report logic has been updated to the following:
 - Report a record for each calendar in which a student has attendance data associated with the Calendar(s) selected in the extract editor for the selected Start and End Dates.
 - Only report if student has an Enrollment record on or within the extract editor Start and End Date range.
 - If multiple enrollments meet all sub-requirements, they must all contribute attendance data to the calendar's record for the selected Start and End Dates on the extract editor.
- The Quarter and Quarter Days fields have been added to the reported.
- Days Enrolled logic has been updated to the following:
 - If Enrollment meets all of the following, report the sum of all unique Enrolled Days between

- enrollment Start Date and End Date:
 - Enrollment Start Date => Extract Editor Start Date
 - Enrollment End Date <> NULL
 - Enrollment End Date <= Extract Editor Effective End Date
- Else, report the sum of all unique Enrolled Days between Extract Editor Start Date and Extract Editor End Date
- Days Present logic has been updated to the following:
 - Report the difference of Scheduled Days minus Absent Days for the selected Start and End Dates on the Extract Editor
 - Scheduled Days must be within the Extract Editor Start and End Dates
- Days Excused Absences logic has been updated to the following:
 - Report the sum of Excused Absent Days for the selected Start and End Dates on the Extract Editor

Wyoming – SIF StudentAttendanceSummary Updates (SIS-129790)

Logic for the following StudentAttendanceSummary elements was updated:

- DaysAttended
 - Report the Student Aggregate Attendance value from the WDE600 using Per Enrollment, Per Minutes setting.
- ExcusedAbsences
 - The reported value should be the same as "UnexcusedAbsences" except that we will report absences with Status = Absent, Excuse = Excused:
 - Unexcused Absence: Status = Absent, Excuse = Excused

- Half day determination: A .5 day is determined when a Day Event exists on the Day with a Day Event Type = HD.
- For each day from the beginning of the calendar to the current date:
 - Calculate the (# of periods Absent Excused** / # of periods rostered in eligible courses) * (FTE Value / 100) * .5 if half day or 1 if full***
 - Sum the result of the above calculated days
- Uses the Per Enrollment, Per Minutes calculation.
- UnexcusedAbsences
 - Report the Student Aggregate Unexcused Absences value from the WDE600 using Per Enrollment, Per Minutes setting.
- DaysInMembership
 - Report the Student Aggregate Membership value from the WDE600 using Per Enrollment, Per Minutes setting.

Also, the format for the StudentSchoolEnrollment/FTE element has been updated to be 1 place prior to the decimal and 2 places after.

The following corrections are included in Rx Packs for October and November 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1945 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1941 and the date of availability:

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - Admins

- In the Campus.1945 Release Pack (November 2019), Attendance views are being updated to pull directly from the Attendance Day Aggregation table. Please see the [Update to the Attendance Views Release Notification](#) for more information.
- In the Campus.1941 Release Pack (October 2019), a new Grading Window will be available. Please see the [Grading Window Release Notification](#) for more information.
- In 2018, new [Student Schedule](#) and [Walk-In Scheduler](#) tools were made available in the Student Information > Counseling > General toolset. In Campus.1929 (July 2019), those tools replaced the Student Schedule and Walk-In Scheduler available in Student Information > General. **Please verify the appropriate tool rights to the Counseling toolset (noted in the linked articles) are assigned to the staff who need to access these tools.**

Great New Features Added to the New Look of Campus (SIS-128773) [Enhancement]

Several new features have been added to the new look of Campus.

- You can now mark tools as favorites and have these tools populate a separate menu. This allows for easy access to those tools which you find most important and use on a day-to-day basis.
- You can also quickly access a menu of recently visited tools. This speeds up the process of jumping back and forth between different tools when working through various workflows.
- Navigable breadcrumbs are now displayed under each tool name. Clicking an item in the breadcrumb will send you to the category or menu item selected.
- An intelligent student and tool search bar has been added to the top of the screen, allowing you to quickly search for and select students and tools within Campus.

Events & Actions

Events & Actions (SIS-128701) [Enhancement]

A new Events & Actions toolset is now available that allows districts to configure day-to-day workflows so all individuals are notified as needed of important changes that affect students and student learning.

A district (or school) can create an event, like a change to an enrollment, and then add actions to that event, like an email to building staff.

Stored procedures can also be created for that event, if desired. This requires database access and SQL knowledge.

Learning Interoperability

Learning Interoperability Update (SIS-123806) [Enhancement]

The Learning Interoperability tools have been combined into one interface where admins can manage OneRoster Grading Services, OneRoster Provisioning, and Learning Tool Interoperability (LTI) connections. Click 'Add New App' to choose from a list of vendors supported by Campus, or create your own vendor record.

Existing integrations display as tiles in the Interoperability tool - click to view additional information about all connections to that vendor. The available features for that vendor are shown at the top right, which may include roster sync, grade book sync, learning tools, and score passback.

In conjunction with this new tool, Campus has released the pre-certification version of the 1.2 version of the OneRoster specification. This version includes a number of improvements over the existing 1.1 specification. Admins have the option of scoping 1.2 connections to individual schools in their district and sharing only those schools' data, rather than enabling the entire district. Teachers will be pleased to hear that the specification now includes categories for assignments, which means that assignments received into the Campus grade book will already have categories and alignments in place and teachers will no longer have to manually complete this step.

At this time, IMS Global has not finalized the 1.2 specification. Once the specification is finalized, digital learning partners will begin updating to the new version. As individual partners become certified, districts can update their connections to 1.2 by providing partners with the Client ID and Client Secret. Multiple connections can be enabled per partner with different data sharing settings and school scoping.

Student Schedule, Walk-In Scheduler Updates (SIS-128543) [Enhancement]

The following updates have been made to Student Schedule and Walk-In Scheduler:

- Student to Student Constraints now look at future roster dates.
- Improved search parameter logic has been implemented, when searching for courses to add to a student's schedule.
- Enrollments marked as No Show are not included in the Seat Count totals.
- When searching for a course by course number, entered values are not case sensitive.
- Search options selected by a user are now retained when navigating away from the search panel.
- Logic for Seat count totals prior to placing a section and after placing a section have been modified. If a Max Students value has not been entered for the course, the logic treats the available seats as unlimited. The seat count for these sections only displays the seats taken (i.e., no denominator).
- A legend has been added that identifies certain information for a section when viewing search results. Term, period schedule, period, team, and IEP count are included.
- Information about courses without sections and inactive courses, currently displayed in a hover, now displays in an information box.
- The alert related to incomplete calendar setup has been modified.
- In certain situations, the Walk-In Scheduler button was not visible on smaller screens. While using the Walk-In Scheduler on smaller screens is not advised, it can still be done and the button displays when expected.
- The Seat Count for combined courses and the Section Seat Count now displays in the Search Panel.
- Search results for Term and Term Structure only return results for the selected values.
- The Report button that displays the Report Side Panel is now Print.
- In Term view, the times associated with a period correctly show the AM/PM designation.

 - Quarter 3
 - Quarter 4
- A Start Date and End Date fields have been added to the extract editor.
- To account for the new editor fields, report logic has been updated to the following:
 - Report a record for each calendar in which a student has attendance data associated with the Calendar(s) selected in the extract editor for the selected Start and End Dates.
 - Only report if student has an Enrollment record on or within the extract editor Start and End Date range.
 - If multiple enrollments meet all sub-requirements, they must all contribute attendance data to the calendar's record for the selected Start and End Dates on the extract editor.
- The Quarter and Quarter Days fields have been added to the reported.
- Days Enrolled logic has been updated to the following:
 - If Enrollment meets all of the following, report the sum of all unique Enrolled Days between enrollment Start Date and End Date:
 - Enrollment Start Date => Extract Editor Start Date
 - Enrollment End Date <> NULL
 - Enrollment End Date <= Extract Editor Effective End Date
 - Else, report the sum of all unique Enrolled Days between Extract Editor Start Date and Extract Editor End Date
- Days Present logic has been updated to the following:
 - Report the difference of Scheduled Days minus Absent Days for the selected Start and End Dates on the Extract Editor
 - Scheduled Days must be within the Extract Editor Start and End Dates

Iowa – SIF and SRI Days Present Field Updated to Calculate to Hundredth of a Day (SIS-127688)

Logic for the Days Present field in the SRI Data Collections Extract has been updated to calculate to the hundredth of a day. New logic is as follows:

- From across all periods with "Instruction" = Checked in instructional days up to and including the extract Effective Date:
 - Find the total hours available in each instructional period, rounded to the nearest hundredth (.01).
 - For each period in which the student was marked Absent, Not Exempt:
 - Subtract the hours (rounded to the hundredth) for the period from the student's total daily attendance.
 - Lunch minutes are subtracted from the total hours calculation for the applicable

period.

- Days Present = $\text{SUM}((\text{total instructional hours in day} - \text{students absent hours}) / \text{total instructional Hours in day})$ (rounded to the hundredth). Report to the hundredths of a day in format 0.00 to xxx.00

Logic for the following SIF elements was updated to calculate results to the hundredth of a day:

- StudentAttendanceSummary/DaysAttended
- StudentAttendanceSummary/ExcusedAbsences
- StudentAttendanceSummary/UnexcusedAbsences

The SIF StudentAcademicRecord/ReportingDate element has been updated to now report the current date (the date the record was prepared).

Also, population logic for the SIF SchoolCourseInfo/SectionProvider element has been updated to the following:

- When (Scheduling>Courses>Course>Institution Providing Section) NOT = null, report the code selected.
 - When a 4-digit code is selected, reports District Code + "0000". Otherwise, reports 6 or 8 digit code selected.
- When (Scheduling>Courses>Course>Institution Providing Section) = null, report the attribute Default Value when it exists.
 - When the field is null and no valid attribute Default Value exists, report the District Number+0000.

SD and PD records in the State Format were incorrectly having a 3 appended to the end of the record. This issue was corrected.

The SIF StudentSchoolEnrollment/EntryType/OtherCodeList/OtherCode element has been updated to report the attribute Default Value mapped to the State Start Status when the database is null.

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - Admins

- In the Campus.1941 Release Pack (October 2019), Attendance views are being updated to pull directly from the Attendance Day Aggregaton table. Please see the [Update to the Attendance Views Release Notification](#) for more information.
- In 2018, new [Student Schedule](#) and [Walk-In Scheduler](#) tools were made available in the Student Information > Counseling > General toolset. In Campus.1929 (July 2019), those tools replaced the Student Schedule and Walk-In Scheduler available in Student Information > General. **Please verify the appropriate tool rights to the Counseling toolset (noted in the linked articles) are assigned to the staff who need to access these tools.**
- In the Campus.1933 release, two new Employee Self Service tools were made available for districts that use Campus Food Service and Campus Payments. **Verify the appropriate tool rights to the [Employee Self Service](#) toolset (noted in the linked article) are assigned to the staff who need to access these tools.**

Calendar

Duplicate Calendar Names (SIS-96446)

Calendar Names must now be unique within a school year. Logic has been updated within the Calendar

Attributes tab and Calendar Wizard to prevent duplication of the calendar name.

Calendar Wizard: Before creating a calendar, logic verifies a calendar does not already exist with that name. If that name does not exist, the calendar is created utilizing the specified name label template (e.g., 2018-19 Community Education Co). If that name does exist, the template is modified slightly to a 28 character label with an appended space and numbered 1-9 (e.g., 2018-19 Community Education 1).

Calendar Attributes: When modifying the name of an existing calendar, logic verifies that the name does not already exist. If it does, an error message displays indicating the calendar name must be unique.

OneRoster 1.2 with School Scoping (SIS-120477) (SIS-99950) [Enhancement]

With this release, Campus has implemented the OneRoster 1.2 specification, which includes scoping connections by school. The supporting updates to the Learning Interoperability tool will be included in an upcoming release.

This release and subsequent updates position Campus districts to be ready once the 1.2 specification is implemented by vendors. At that point, districts will be able to configure connections using the 1.2 specification, which includes the option to scope connections by individual school. Districts should contact individual vendors to track progress towards implementation.

Walk-In Scheduler Updates (SIS-126723) [Enhancement]

The following modifications have been made to Student Schedule and Walk-In Scheduler:

- The total count of students scheduled into a course section was displaying incorrectly in situations where a student begins a course section at a future date. This has been corrected.
- When a course already exists on a student's transcript and that same course exists in the list of Courses Requests or is searched for and attempted to be placed on the schedule, a warning message displays indicating it already exists on the student's transcript. In order for this message to display, the Course Number must exist on the Transcript and the Course must not be marked as Repeatable.
- When restoring an entire schedule, only the most recently ended course sections are restored. If a course was ended in January and another course was ended yesterday, only the course ended yesterday is restored.
- When loading courses to a student's schedule, the Load Rosters modal now includes a Start Date.
- In the Requests Panel, requested courses are now listed by Course Number, then by the type of request (Required, Elected, Alternate). Alternate courses are listed in Request ID order, meaning the course that is first added as an alternate is listed first.

- When searching for courses, the entered date remains after adding a course. If an additional course is searched for and added to the schedule, that same date applies to the additional course.
- When adding a course in a future term, the Effective Date field is blank. When adding a course in the current term, the Effective Date field defaults to the current date.

Arizona – Ed-Fi v3.1 Calendar Dates Resource Update (SIS-128283)

The triggering logic for the Calendar Events array in the Calendar Dates resource has been updated to report only one Calendar Event per day.

If you have any Calendar Dates records that have already been sent to AzEDS that included multiple Day Event records, Deleting and Resyncing the Calendar Dates resource records will resolve the issue, and only send one record per date.

Path: [System Administration > Ed-Fi](#)

Arizona – Ed-Fi v3.1 Calendars and Calendar Dates Resource Updates (SIS-128685)

The Calendars resource logic has been updated to ensure that any Ed-Fi Calendars records that exist in the ODS for a school are not deleted.

The Calendar Dates resource logic has been updated to ensure that any Ed-Fi Calendar Dates records that exist in the ODS for a school are not deleted.

This issue affects all districts that submit Calendars data for schools that are shared between multiple districts, including Tuition Out calendars. Without this update, Calendars data for Tuition Out schools will be overwritten by other districts, and your district will in-turn overwrite other district's Calendars submissions.

After taking this update, perform a resync for any Calendars and Calendar Dates resources that have not landed successfully at ADE.

Nevada - NV01 Monthly Enrollment and Attendance Report Updates (SIS-116730)

The following changes were made to the NV01 Monthly Enrollment and Attendance Report.

- The CTE checkbox was removed.
- The 100 Instructional Days option was removed from the School Month dropdown list.
- A new option called "Enrollment Service Type" was added to the report editor. Options include P: Primary, S: Partial, and N: Special Ed Services.

- A new checkbox called "Full Year" was added to the report editor. When marked, the report uses the earliest date from first school month as a start date and the latest date from last school month as an end date. If there are gaps in the selected school months, all data between the first date and the last date is still included.
- A new column called "Enrollment Start Status" was added to the Detail report. This column reports the state enrollment Start Status.
- Logic for the IEP, LEP, and FRL columns was updated on the Detail report. These columns now report status based on the selected date range.

Oklahoma – Military Enrollment Fields Moved to Military Connections Tab (SIS-119411)

The MSI Armed Forces, MSI Reserve, and MSI National Guard fields found on the Enrollment tab have been moved to the Military Connections tab.

To account for this move, a new Military Connections record will be created for any student who meets the following criteria based on the student's most recent (latest Start Date) enrollment record:

Military Connections > Branch will be set as follows:

- MSI Armed Forces record:
 - When student does not have a Military Connections record with:
 - Start Date <= current date
 - End Date >= current date or is null
 - Status = Active Duty, Deployed OR Active Duty, Not Deployed
 - Branch = Air Force, Army, Coast Guard, Marine Corps, or Navy
 - THEN:
 - When (Student Info>General>Enrollments>State Reporting Fields>MSI Armed Forces = Checked:
 - Set Military Connections record Start Date = the Start Date of the enrollment.
 - The Military Connections record End Date must be left blank.
 - Set Status = Active Duty, Deployed
 - Set "Branch" = Army
 - Set "Comments" = "Record converted from enrollment."
- MSI Reserve record:
 - When student does not have a Military Connections record with:
 - Start Date <= current date
 - End Date >= current date or is null
 - Status = Active Duty, Deployed OR Active Duty, Not Deployed
 - Branch = Air Force Reserve, Army Reserve, Coast Guard Reserve, Marine Corps Reserve, or Navy Reserve
 - THEN:
 - When (Student Info>General>Enrollments>State Reporting Fields>MSI Reserve = Checked:
 - Set Military Connections record Start Date = the Start Date of the enrollment.
 - The Military Connections record End Date must be left blank.
 - Set Status = Active Duty, Deployed
 - Set "Branch" = Army Reserve
 - Set "Comments" = "Record converted from enrollment."
- MSI National Guard record:

- When student does not have a Military Connections record with:
 - Start Date <= current date
 - End Date >= current date or is null
 - Status = Active Duty, Deployed OR Active Duty, Not Deployed
 - Branch = Air National Guard, Army National Guard
- THEN:
 - When (Student Info>General>Enrollments>State Reporting Fields>MSI National Guard = Checked:
 - Set Military Connections record Start Date = the Start Date of the enrollment.
 - The Military Connections record End Date must be left blank.
 - Set Status = Active Duty, Deployed
 - Set "Branch" = Army National Guard
 - Set "Comments" = "Record converted from enrollment."

A separate record will be created for each of the 3 military checkboxes moved from a student's enrollment record to the Military Connections tab.

The Standard Code column for the values in the Branch field have been populated as follows:

- When Code = Air Force, Army, Coast Guard, Marine Corps, or Navy:
 - Set Standard Code = Armed Forces
- When Code = Air Force Reserve, Army Reserve, Coast Guard Reserve, Marine Corps Reserve, or Navy Reserve
 - Set Standard Code = Reserve
- When Code = Air National Guard, Army National Guard

Tennessee

Tennessee - Student Attendance in Service Schools (SIS-122026) [Enhancement]

The EIS049 and Daily Code Report have been updated to report student attendance at Service Schools.

049

- When generating an extract, the Primary School is the school tied to the calendar selected in the extract editor. All other school are considered Service Schools. Students are reported who have a Primary Enrollment in the Primary School or who have a Primary enrollment in the Primary School and a subsequent Partial enrollment in a Service School.
- Attendance calculations for students enrolled in both Primary and Service Schools aggregate across schools to determine if the student was absent for the day.

Daily Code

- These changes only apply to reports generated when the Active Year is 19-20 or later.
- The Primary School is the school selected in the Campus toolbar when the report is generated. All other schools are considered Service Schools.
- If a student has subsequent Partial enrollments in a Service School, attendance in those enrollments is also considered in attendance calculations.

The following corrections are included in Rx Packs for August 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1937 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1933 and the date of availability:

- Rx Pack Campus.1933.11 - Thursday, September 12, 2019
- Rx Pack Campus.1933.10 - Friday, September 6th, 2019
- Rx Pack Campus.1933.8 - Thursday, August 29, 2019

[Arizona – AzEDs5.0/Ed-Fi v3.1 Student Special Education Program Association Update](#) (SIS-130094)

The EducationOrganizationID element in the Student Special Education Program Association resource has been updated to report the School Entity ID instead of the District Entity ID.

For any students who have already sent Student Special Education Program Association records for the 19-20 academic year, navigate to the Ed-Fi Tools area, and perform a Delete on all of the Student Special Education Program Association resources (you only need to select that single resource in the list area). Then navigate to the Resync tab and perform a resync on the Student Special Education Program Association resource (again, only that resource is necessary to resync - all other Student Information resources can be left unchanged).

[AzEDs5.0/Ed-Fi v3.1 Student Education Organization Associations Resource Update](#) (SIS-128869)

The logic for the EducationOrganizationId in the Student Education Organization Associations resource has been updated to report the School Entity ID instead of the District ID. The object triggering logic has also been updated to report one unique Student Education Organization Associations record for each valid enrollment in a unique school.

For any students that have either previously sent Student Education Organization Association records that reported the district entity ID, or were unable to successfully post any Student Education Organization Association records due to the 403 error, perform a delete & resync on just the Student Education Organization Association resource within the Resync tool. A resync is not necessary on any of the other student-related resources.

SIF and SRI Days Present Field Updated to Calculate to Hundredth of a Day (SIS-127688)

Logic for the Days Present field in the SRI Data Collections Extract has been updated to calculate to the hundredth of a day. New logic is as follows:

- From across all periods with "Instruction" = Checked in instructional days up to and including the extract Effective Date:
 - Find the total hours available in each instructional period, rounded to the nearest hundredth (.01).
 - For each period in which the student was marked Absent, Not Exempt:
 - Subtract the hours (rounded to the hundredth) for the period from the student's total daily attendance.
 - Lunch minutes are subtracted from the total hours calculation for the applicable period.
 - Days Present = SUM((total instructional hours in day - students absent hours) / total instructional Hours in day) (rounded to the hundredth). Report to the hundredths of a day in format 0.00 to xxx.00

Logic for the following SIF elements was updated to calculate results to the hundredth of a day:

- StudentAttendanceSummary/DaysAttended
- StudentAttendanceSummary/ExcusedAbsences
- StudentAttendanceSummary/UnexcusedAbsences

The SIF StudentAcademicRecord/ReportingDate element has been updated to now report the current date (the date the record was prepared).

Also, population logic for the SIF SchoolCourseInfo/SectionProvider element has been updated to the following:

- When (Scheduling>Courses>Course>Institution Providing Section) NOT = null, report the code selected.
 - When a 4-digit code is selected, reports District Code + "0000". Otherwise, reports 6 or 8 digit code selected.
- When (Scheduling>Courses>Course>Institution Providing Section) = null, report the attribute Default Value when it exists.
 - When the field is null and no valid attribute Default Value exists, report the District Number+0000.

SD and PD records in the State Format were incorrectly having a 3 appended to the end of the record. This issue was corrected.

The SIF StudentSchoolEnrollment/EntryType/OtherCodeList/OtherCode element has been updated to report the attribute Default Value mapped to the State Start Status when the database is null.

Ad hoc Reporting

Data Access Tracker Now Available for Fulton County (SIS-126383) [Enhancement]

The Data Access Tracker tool is now available for Fulton County Campus users. This tool provides system administrators with the ability to audit and review information about all users who viewed one or more specific students or users' data, when they viewed this data, and what tools they used to view this data.

Using this tool, districts can monitor and protect personal, private, and sensitive user data by identifying exactly who is accessing this information and determining its appropriateness.

This functionality is only available for Fulton County, GA district users

Calendar

Calendar Wizard - Overwrite Term Days Option (SIS-76462)

When using the Overwrite Term/Days function of the Calendar Wizard's Copy mode, the Calendar Wizard was only able to make changes to previously configured days but could not insert any new days. This has been corrected.

The Overwrite mode of the Calendar Wizard now fully synchronizes the Day attributes (School Day, Instruction, Attendance) of the Days tab of the Source and Destination calendar as long as the Schedule Structure names match. The Overwrite mode can now also sync up Period Schedule assignments and Term Dates if the Period Schedule and Term Names match and insert Day Events into the Destination Calendar.

Campus Student and Campus Parent Updates (SIS-127703) [Enhancement]

An options has been added to the Portal Preferences to display Average Score in Campus Student and Parent. When marked, the average of scores displays for an assignment across students in the section. Averages only display for assignments scored using points or marks. Be aware that displaying score averages may violate FERPA data privacy regulations in your state. Consult local guidelines before enabling this option.

Additionally, a Display in Portal option has been added to Grading Tasks and Standards. This option is marked by default and can be used to hide tasks and their aligned scores as desired. Assignments that are only aligned to hidden tasks and/or standards are also hidden.

- Archive standards that are no longer in use to prevent them from being added to courses in the future.
- Within a group, click and drag children to easily reorder.
- Associate standards with each other to link standards that are related.

The new Standards Replacement Wizard has also been added, which greatly simplifies the process of replacing standards aligned to courses and course masters. Use this wizard to:

- Archive standards
- Remove standards from courses and course masters
- Replace aligned standards with a different one(s).
- Archive standards and replace alignments with another.
- Batch show or hide standards from the Campus Student and Parent portals.

Scheduling

Report Preferences Schedule Report, Schedule Batch- New Options (SIS-126471) [Enhancement]

New options have been added to the Schedule Report in Report Preferences and to the Schedule Batch Report. See the article below for detailed information on these options.

- Mailing Label - users can now select whether to include Mailing Address information in the Report Header using one of four selections:
 - One Copy per Mailing Address - this is the default selection. The schedule prints one copy for each mailing address.
 - Student's Primary Household Only - The schedule prints a copy for the mailing address associated with the student's Primary Household.
 - No Mailing Label - The schedule prints a single copy of the schedule with no address information in the header (suitable for handing out at school)
 - Student's Primary Mailing Addresses Only - The schedule prints one copy per primary mailing address. Secondary mailing addresses do not print; Primary addresses of secondary households do not print.
- Published to Portal - When marked, the schedule is available on the Portal. If a parent or student chooses to print it, the schedule is formatted without a mailing label.
- Print Options was renamed to Orientation. The options of Portrait and Landscape have not changed.

Logic for the Offense Extract has been updated to the following:

- A Participant (does not need to be a student) exists on a Behavior Event connected to the Incident with Role = O: Offender.
- AND a Behavior Event associated with the Incident has an Event Type with a State Event Mapping Code with a valid 4-digit Standard Code (value = 1) = 1010, 1020, 1030, 1040, 1050, 1097, 1100, 1300, 1400, 1610, 1620, 1630, 1640, 1650, MA02, 1660, MA01, MA03, 1670, 1680, 1697, 1700, 1810, 1820, 1897, 1900, 2000, 2110, 2120, 2300, 2600, 2710, 2720, 2730, 2740, 2797, 2800, 2900, 3010, 3020, 3097, 3110, 3120, 3197, 3210, 3220, 3230, 3240, 3297, 3310, 3320, 3330, 3340, 3350, 3397, 3400, 3510, 3520, 3597, MA05, MA19, 0011, 0012, 0013, 0021, 0023, 0029, 0030, 0040, 0050, MA51, 0090
- OR a Behavior Event associated with the Incident has an Event Type with a State Event Mapping Code = 3700 and Weapon Type selected.
- OR the student has a Behavior Event Type with a with a valid 4-digit Standard Code for the State Event Mapping Code where active = true, value = null) AND Behavior Resolution with a State Resolution Code (Mapping) = 1 through 6 attached to the event.

Logic for elements OT1-OT5 on the Offense Extract has been updated to the following:

- From across all behavior events associated with this incident, report the standard code for the state event mapped code of the first valid Event Type Code. In order, should report the first lowest code for OT1, then second lowest for OT2 and so on until OT5. Valid codes are any Behavior Event that has a value of "1" OR any code with a resolution mapped to state event codes 1-6
- When OT1 = 9000, OT2 - OT5 report as 500 (Only OT1 may report as 9000)
- Report 500 for any OT that does not have a valid standard code event associated
- If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type

Logic for the Discipline Extract has been updated to include the following:

- Behavior Resolution is connected to the student offender with:
 - The Resolution Start Date is between the 1st instructional day of the Incident calendar and the Effective Date, AND the following criteria are true:
 - The Behavior Event is mapped to a State Event Code
 - The Behavior Resolution 'Resolution Type' = 1-7.

Logic for elements SOT1-SOT5 on the Discipline Extract has been updated to account for the updated logic mentioned above.

Behavior logic has been updated to the following:

- From across all Behavior Events associated with this Incident, report the Standard Code for the State Event Mapped Code of the first valid Event Type Code. This Code should report from the lowest Event ID that has a valid Standard state code.
 - If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type.
- For Standard code 9000:
 - When a Behavior Resolution mapped to 1 through 7 is NOT connected to the Behavior

Event mapped to standard code 9000, this Behavior Event must not be considered to report.

- When OT1 = 9000, OT2 - OT5 reports 500 (only OT1 may report as 9000)

The following corrections are included in Rx Packs for July and August 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1933 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.1929 and the date of availability:

- Rx Pack Campus.1929.11 - Tuesday, September 3, 2019
- Rx Pack Campus.1929.10 - Wednesday, August 21, 2019
- Rx Pack Campus.1929.9 - Friday, August 16, 2019
- Rx Pack Campus.1929.8 - Thursday, August 15, 2019
- Rx Pack Campus.1929.7 - Friday, August 9, 2019
- Rx Pack Campus.1929.6 - Thursday, August 1, 2019
- Rx Pack Campus.1929.5 - Wednesday, July 31, 2019
- Rx Pack Campus.1929.4 - Friday, July 26, 2019
- Rx Pack Campus.1929.3 - Tuesday, July 23, 2019
- Rx Pack Campus.1929.2 - Wednesday, July 17, 2019
- Rx Pack Campus.1929.1 - Monday, July 15, 2019

Localization - Arizona

Arizona – Ed-Fi v3.1 Calendars and Calendar Dates Resource Updates (SIS-128685)

The Calendars resource logic has been updated to ensure that any Ed-Fi Calendars records that exist in the ODS for a school are not deleted.

The Calendar Dates resource logic has been updated to ensure that any Ed-Fi Calendar Dates records that exist in the ODS for a school are not deleted.

This issue affects all districts that submit Calendars data for schools that are shared between multiple districts, including Tuition Out calendars. Without this update, Calendars data for Tuition Out schools will be overwritten by other districts, and your district will in-turn overwrite other district's Calendars submissions.

After taking this update, perform a resync for any Calendars and Calendar Dates resources that have not landed successfully at ADE.

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - Admins

- The Campus Portal has been removed and the Mobile Portal app will be retiring June 30, 2019, in favor of the new Campus Parent and Campus Student Portals and mobile apps. See the [FAQ - Campus Student & Campus Parent](#) article for more information.
- In 2018, new [Student Schedule](#) and [Walk-In Scheduler](#) tools were made available in the Student Information > Counseling > General toolset. In Campus.1929 (July 2019), those tools will replace the Student Schedule and Walk-In Scheduler available in Student Information > General. **Please verify the appropriate tool rights to the Counseling toolset (noted in the linked articles) are assigned to the staff who need to access these tools.**

Try the New Look of Campus (SIS-125149) [Enhancement]

Campus has a new look and feel! Starting in Campus.1925, Campus Instruction users can toggle a switch to replace their existing Campus Instruction with a new UI and navigational structure. This new Campus experience still contains all of the same tools as Campus Instruction but includes several improvements such as:

- A powerful and intuitive student search
- A simplified navigational structure and UI
- Access to Student and Behavior tools
- Additional enhancements delivered each release pack

Control Center (SIS-127129) [Enhancement]

Improvements have been made to the Control Center based on teacher feedback, including the following:

- Teachers can now navigate to past and future terms using the arrow keys at the top right.
- Updated section names to display on separate lines if a teacher has more than one section in a period.
- The number of students expected in the class is shown for each period in the attendance column.
- Attendance screen
 - Attendance totals are shown above the attendance buttons.
 - Tightened the visual display to show more students at a time.
 - Moved comments for Absent and Tardy students to a comments button to free up vertical space.
- Assignment list
 - Updated the number representing unscored assignments. If enabled, unscored submissions are indicated first. The second number totals the number of students who do not have scores for the assignment and the third number totals the number of scored students.
 - Added the Due Date below the assignment name.
 - Updated scoring logic to display different scoring screens based on the assignment and device used. If the assignment has submissions enabled, the submission scoring screen is used for scoring. Teachers scoring on a small device like a phone see a more compact scoring screen, whereas those using a larger device like a computer open the scoring editor used elsewhere in Campus Instruction.

Campus Student & Campus Parent - Removal of the Portal (SIS-124048) [Enhancement]

With the release of Campus.1925, the previous Campus Portal has been completely replaced by Campus Student and Campus Parent and is no longer available. Users attempting to log in to the Portal will be redirected to the new applications.

The previous Campus Mobile Portal mobile app will be removed at the end of June in favor of the new Campus Student and Campus Parent apps. Students and Parents can download the new apps from the Apple App Store or Google Play.

See the Campus Student & Parent FAQ article for more information.

The following updates have been made:

- Display Options have been updated to streamline, simplify, and clarify the preferences available.
- All homepages for students and parents have been converted to Campus Student and Campus Parent, respectively.
- Campus Portal has been removed from the Homepage field on user accounts. New user accounts cannot be given a homepage of Campus Portal.
- The User Account Batch Import Tool, Account Security Preferences, and User Account Batch Wizard have also been updated to no longer include an option for a homepage of Campus Portal.
- Added an options to the Settings menu of Campus Student and Campus Parent to select a Language, if more than one language is active for the district.
- Updated to prevent students from logging in to Campus Parent if their parent also had an enrollment.
- Various other bug fixes and improvements.

Student Schedule, Walk-In Scheduler Updates (SIS-124922) [Enhancement]

In preparation for the replacement of Student Schedule and Walk-In Scheduler tools in Student Information later this summer, several cosmetic and browser-related issues have been modified in the new Counseling Student Schedule and Walk-In Scheduler tools.

In addition, new features have been added to the Walk-In Scheduler:

- When hiding terms in the filter bar, a Hidden Sections warning displays if a course has been chosen that is included in a hidden term. The user has the option to override the filters to display the entire grid, or continue scheduling with the filters in place.
- When searching for courses, the Show Teacher option has been replaced with a chevron that expands the list to display sections for each course. Course sections can be selected directly from the list. The chevron also appears on each course in the list, allowing the user to expand and collapse the list on a course by course basis.
- A Quick Add option exists when viewing the Requests panel. This allows the user to enter in memorized course numbers to add the course to the request list.
- An Add Planned Courses option exists when viewing the Requests panel, which adds any

- planned courses to the student's course requests.
- The Update button has been removed when placing a course on the Schedule; instead, courses can now be placed on the Schedule by selecting the highlighted cells.
- When a student drops a course on the last day of the term, the Drop Date displays on the course section, and that course that is scheduled in future terms is removed.

As mentioned above, the Student Schedule and Walk-In Scheduler tools in Student Information General will be replaced later this summer with the new Student Schedule and Walk-In Scheduler tools available in the Student Information > Counseling > General toolset. Please ensure the appropriate tool rights to the Counseling toolset are assigned to the staff who need to access these tools.

Arizona – Ed-Fi Parent in Military Reporting (SIS-126086)

The StudentCharacteristicDescriptor array has been enabled in the Students resource in Ed-Fi v2.0 in order to report Parent in Military data.

To set up a student to report Parent in Military status in the AzEDS 4.0 / FY19 connection will need to tie the student to a relationship that is marked as "Guardian" in the Relationships tab, that guardian record will need to have a Military Connections record saved that overlaps the student's enrollment record within the Ed-Fi configured year, and that Military Connections record will need to have a Status that is mapped within the Ed-Fi Configurations area, under the Students resource, to a code of '08: Parent in Military'.

Any students who have the appropriate setup in Infinite Campus to report a Parent in Military prior to this update will need to have their Students resource resynced after taking this update.

Kentucky – Homeless Program Now Available (SIS-119669) [Enhancement]

The Homeless program is now available within the Program Participation tool. This program allows State and District users the ability to create and manage student homeless records.

Existing Homeless information in student enrollment records was converted to Homeless records using the following logic:

- A Homeless record is created for a student per Primary Enrollment record where any of the following statements are true:
 - The Primary Enrollment has the Homeless checkbox checked
 - The Primary Enrollment has a Living Status that is not null and the Primary Night Time Residence contains the value from the Living Status attribute.
 - A Primary Enrollment has an Unaccompanied Youth field that is not null.
 - When converting a record, If Living Status or Unaccompanied Youth is null, the corresponding field will remain null on the Homeless record.
 - Start Date on Homeless record = Start Date on Enrollment record
 - End Date on Homeless record = 6/30/YYYY where YYYY = the end year of the calendar of the enrollment record
 - District Ownership on Homeless record = Enrollment District
- Overlapping historical records is allowed

The Homeless, Living Status, and Unaccompanied Youth fields on the Enrollment tab will be deprecated. Historical data will remain in the database for historical and Ad hoc reporting purposes.

The Homeless, Living Status, and Unaccompanied Youth fields were also removed from the KY State Reporting Import Wizard.

Valid codes are any Behavior Event that has a value of "1" OR any code with a resolution mapped to state event codes 1-6
- When OT1 = 9000, OT2 - OT5 report as 500 (Only OT1 may report as 9000)
- Report 500 for any OT that does not have a valid standard code event associated
- If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type

Logic for the Discipline Extract has been updated to include the following:

- Behavior Resolution is connected to the student offender with:
 - The Resolution Start Date is between the 1st instructional day of the Incident calendar and the Effective Date, AND the following criteria are true:
 - The Behavior Event is mapped to a State Event Code
 - The Behavior Resolution 'Resolution Type' = 1-7.

Logic for elements SOT1-SOT5 on the Discipline Extract has been updated to account for the updated logic mentioned above.

Behavior logic has been updated to the following:

- From across all Behavior Events associated with this Incident, report the Standard Code for the State Event Mapped Code of the first valid Event Type Code. This Code should report from the lowest Event ID that has a valid Standard state code.
 - If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type.
- For Standard code 9000:
 - When a Behavior Resolution mapped to 1 through 7 is NOT connected to the Behavior Event mapped to standard code 9000, this Behavior Event must not be considered to report.
 - When OT1 = 9000, OT2 - OT5 reports 500 (only OT1 may report as 9000)

Massachusetts – Discipline Extract Reporting Null Elements when Behavior Resolution Created at All Schools Level (SIS-127974)

The Discipline Extract was incorrectly reporting null SOT1 values for behavior resolutions mapped to a code of '7' that were created at the district (All Schools) level. This issue has been corrected.

Nebraska – Ed-Fi Student School Associations Resource Update (SIS-127829)

The entryGradeLevelDescriptor has been updated in the Student School Associations resource to report the State Grade Level from the student's enrollment calendar. The Mapping tool will no longer be used to report grade level. The Grade Levels resource preference in the Mapping tool will only be used to report the Course Transcripts gradeTaken field.

Nevada - FRL and 504 Status Updates (SIS-127563)

The FRL column in the Chronic Absenteeism Report and the NV ALP Credit Report was updated to report Y if the student has a FRAM record with an Eligibility of Free or Reduced. Previously, the column was not checking the eligibility status. This issue was fixed.

As part of this case, the 504 Status field on the Chronic Absenteeism Report was also updated to report Y if the student is assigned an active Flag/Program with a code of 84.

Oklahoma – SIF SchoolInfo/Title1Status Only Sending N/A Object (SIS-127783)

The SIF SchoolInfo/Title1Status element was incorrectly reporting 'NA' regardless of the value in the Title 1 field. This issue was corrected and this element will report based on the following logic:

- Report from the most recent School History record with an Effective Date <= the current date:
 - Report "Targeted" when Title 1 field is either of the following:
 - Targeted Assistance Eligible - No Program
 - Targeted Assistance Program
 - Report "SchoolWide" when Title 1 field is any of the following:
 - Schoolwide Eligible - Targeted Assistance
 - Schoolwide Eligible - No Program
 - Schoolwide Program
 - Otherwise, report "NA"

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - Admins

- The Campus Portal and Mobile Portal app will be retiring June 30, 2019, in favor of the new Campus Parent and Campus Student Portals and mobile apps. See the [FAQ - Campus Student & Campus Parent](#) article for more information.
- In 2018, new [Student Schedule](#) and [Walk-In Scheduler](#) tools were made available in the Student Information > Counseling > General toolset. In summer 2019, those tools will replace the Student Schedule and Walk-In Scheduler available in Student Information > General. **Please verify the appropriate tool rights to the Counseling toolset (noted in the linked articles) are assigned to the staff who need to access these tools.**

Technical Information

Users can access Technical Information [here](#).

Academic Programs

Academic Planning - Course Plan Performance (SIS-124471)

Performance has been improved on the Course Plan tab when using complex Compound Requirements.

Article(s): [Course Plan \(Academic Planning\)](#)

Path: [Student Information](#) > [Academic Planning](#) > [Course Plan](#)

Academic Planning - Course Requirement Save Error (SIS-125324)

When entering Course Requirements to an Academic Plan, saving caused a new tab to open and information to not be saved. This has been corrected. The added information saves and a new tab no longer opens.

Article(s): [Enter Course Requirements](#)

Path: [Program Admin](#) > [Programs](#) > [Graduation Programs](#) > [Course Requirements](#)

Academic Planning - Invalid Characters (SIS-126276)

Entering characters like < or > caused an error when saving Compound Requirements. This has been corrected.

Article(s): [Enter Compound Requirements](#)

Path: [Program Admin](#) > [Programs](#) > [Graduation Programs](#) > [Compound Requirements](#)

Ad hoc Reporting

Element Replacement - Special Characters (SIS-126265)

When the target element has special characters (<, >, &, ', ") in the name, the replacement process completes but errors out when attempting to display the success/failure report. This has been corrected.

Article(s): [Element Replacement](#)

Path: [System Administration](#) > [Data Utilities](#) > [Element Replacement](#)

Assessments

All Assessments Showing as Accommodations Eligible (SIS-125940)

All assessments were appearing as eligible within the Test Accommodations tab instead of only those with the Test Accommodations Eligible checkbox marked on the Test Details editor. This issue has been corrected.

Note: Existing Test Accommodations will not be altered or changed due to this correction. This update will simply prevent users from creating new Test Accommodation records using assessments not marked Test Accommodations Eligible.

Article(s): [Test Setup](#)

Path [Student Information](#) > [General](#) > [Test Accommodations](#) > [Assessment](#); [Assessments](#) > [Test Setup](#) > [Test Accommodations Eligible](#)

Attendance

Attendance Reports - DOCX Format (SIS-125410) (SIS-125409) (SIS-125399) (SIS-125276) **[Enhancement]**

Attendance Reports can now be generated in DOCX format.

Article(s): [Student Attendance](#); [Reports \(Attendance\)](#); [Classroom Monitor](#)

Path: [Student Information](#) > [General](#) > [Attendance](#); [Attendance](#) > [Reports](#); [Attendance](#) > [Classroom Monitor](#)

Student Attendance in IE11 (SIS-126190)

When selecting an existing attendance event for a student using Internet Explorer 11, the detail for that event did not display. This has been corrected.

Article(s): [Student Attendance](#)

Path: [Student Information](#) > [General](#) > [Attendance](#)

Batch Queue

Images Failing Render in Reports Submitted to Batch Queue (SIS-115373)

Reports throughout Campus which included images as part of reported data were failing to properly render these images when submitted to the Batch Queue. This issue has been corrected.

Article(s): N/A

Path: No Specific Path

Behavior

Behavior Reports - DOCX Format (SIS-125419) [Enhancement]

The following Behavior reports can now be generated in DOCX format:

- Event Type History (from Behavior Event Types tool)
- Resolution Type History (from Behavior Resolution Types tool)
- Behavior Attendance Audit
- Removal
- Behavior Detail (from the student's Behavior tab)

Article(s): [Student Behavior](#); [Event Types](#); [Resolution Types](#); [Behavior Reports](#)

Path: [Student Information](#) > [General](#) > [Behavior](#); [Behavior](#) > [Reports](#)

Calendars

Period Schedule AM/PM (SIS-116427)

Entering a period end time with a lowercase 'pm' caused an error when the start time was entered with a capital 'PM'. This has been corrected. PM/pm and AM/am are acceptable entries for time fields.

Article(s): [Periods](#)

Path: [System Administration](#) > [Calendar](#) > [Calendar](#) > [Periods](#)

Calendar School Months (SIS-18596)

The School Months Report has been updated to be consistent with the Calendar Days Report shading (yellow shaded days indicates Non-School Days; blue shaded days indicates Non-Instructional Days).

This change does not affect Kentucky districts.

This report is also now available in DOCX format.

Other updates to this report are as follows:

- The first page no longer prints a blank page.
- The row span of Important Days has been increased.

- The column width of Day and Day Total columns has been decreased.

For all states except California, the Reporting Period label has been removed.

For California districts, the heading for Non-Instructional Days is now Non-Instructions/Non-School Days and the Reporting Period label now displays in the correct location.

Article(s): [School Months](#); [California School Months](#)

Path: [System Administration](#) > [Calendar](#) > [Calendar](#) > [School Months](#)

Campus Instruction

Campus Instruction - Report Cards (SIS-122842)

The Report Cards report in Campus Instruction has been updated to properly print custom report cards.

Article(s): [Printing Report Cards](#)

Path: [Campus Instruction](#) > [Reports](#) > [Report Cards](#)

Campus Instruction Reports (SIS-122984) [Enhancement]

The Campus Instruction reports have been updated with a more intuitive and helpful interface. The report list can now be filtered by type of report and teachers can mark their favorite reports for future use.

The report editors have also been updated to clarify options and improve visual style. Selected report options are saved when a teacher generates a report, saving teachers time in setting up the report between uses. Some reports can now be generated for multiple sections at a time. The Blank Spreadsheet report has been updated to allow teachers to enter column headers. Small improvements have also been made to other reports.

Article(s): [Campus Instruction Reports](#)

Path: [Campus Instruction](#) > [Reports](#)

Score Copier Updates (SIS-123168) (SIS-124079)

The Score Copier has been updated to correctly copy scores for assignments scored using Assignment Marks and assignments flagged as Missing.

Article(s): [Copying Scores](#)

Path: [Campus Instruction](#) > [Grade Book](#) > [Settings](#) > [Copy Scores](#)

Assignment Analysis - No Show Students (SIS-124143)

The Assignment Analysis report has been updated to no longer include students whose enrollments are marked as No Show.

Article(s): [Assignment Analysis](#)

Path: [Campus Instruction](#) > [Reports](#) > [Assignment Analysis](#)

Pushing Grading Setup Changes from Course Masters (SIS-125560)

Previously, some users received an error when attempting to push changes from a Course Master to Courses with many sections. This has been corrected.

Article(s): [Push to Courses](#)

Path: [Grading & Standards](#) > [Course Masters](#) > [Push to Course](#)

Score Copier Updates (SIS-125574) [Enhancement]

The Score Copier has been updated to improve clarity and usability. A "New Students" button has been added that filters the student list to only recently added students (based on the Days to Flag Roster Additions preference set at the district). Scores can now be copied from sections in different calendars if both sections have the same teacher or the same Course Name, as well as the same Task/Standard grading alignment. Visual improvements were also made.

Article(s): [Copying Scores](#)

Path: [Campus Instruction](#) > [Grade Book](#) > [Settings](#) > [Score Copier](#)

Portal Usage - Parents of Students with Disabled Accounts (SIS-125587)

A checkbox has been added to the Portal Usage Report called 'Include parent accounts whose students' accounts are disabled.' If this checkbox is marked, parent accounts that meet report requirements are included even if that their students' accounts have been disabled.

Article(s): [Portal Usage Report](#)

Path: [Campus Instruction](#) > [Reports](#) > [Portal Usage](#); [System Administration](#) > [Portal](#) > [Reports](#) > [Portal Usage](#)

'Average Minutes Per Day' Message (SIS-125826)

Previously, a message prompted users viewing an assignment in the Grade Book as a guest to enter the average number of minutes spent on that subject. This message displayed in error since the user did not have access to Campus Learning and was not using the Planner. This has been corrected.

Article(s): [Guest Access to Grade Book](#)

Path: [Scheduling](#) > [Courses](#) > [Section](#) > [Grade Book](#) > [Assignment](#)

Multi-Post Grades (SIS-126031)

The Multi-Post Grades tool has been updated to improve performance. As part of this update, users must now select a Term to post grades, the "All" option is no longer available for terms.

Article(s): [Multi-Post Grades](#)

Path: [Campus Instruction](#) > [Post Grades](#) > [Multi-Post](#)

Grade Book and OneRoster Errors (SIS-126468)

This case addresses the error some teachers received when entering grades in the Grade Book. It also corrects the connection issue some districts experienced with the OneRoster API.

Massachusetts – Offense and Discipline Extract Logic Update (SIS-120246)

Logic for the Student Offender Count on the Offense Extract has been updated to include the total number of offenders for an incident regardless of resolutions mapped. Logic is now the following:

- From across all Behavior Events associated with the Incident ID with an Event Type with a valid 4-digit Standard Code for the State Event Mapped Code = 1010, 1020, 1030, 1040, 1050, 1097, 1100, 1300, 1400, 1610, 1620, 1630, 1640, 1650, MA02, 1660, MA01, MA03, 1670, 1680, 1697, 1810, 1820, 1897, 1900, 2000, 2120, 2300, 2600, 2710, 2720, 2730, 2740, 2797, 2800, 2900, 3010, 3020, 3097, 3110, 3120, 3197, 3210, 3220, 3230, 3240, 3297, 3310, 3320, 3330, 3340, 3350, 3397, 3400, 3510, 3520, 3597, 3700, MA05, MA19, report the number of UNIQUE (by personID) Participants with a Relationship To School selection with dictionary Value of student, and a Role = Offender.
- When there are no students that meet the counting criteria, this field must report 0.

Reporting population logic for the Discipline Extract has been updated to the following:

- The report will populate a record for each student with a Role = 'Offender' and a Relationship to School with a dictionary value of 'student' on the Behavior Event which also meets the following criteria:
 - A Participant has a Primary enrollment on the 'Date of Incident' in order to report a record.
 - A Behavior Resolution is connected to the student offender with:
 - The Resolution Start Date is between the 1st instructional day of the Incident calendar and the Effective Date, AND the following criteria are true:
 - The Behavior Resolution 'Resolution Type' = 1-6.
 - The Behavior Event connected to the Resolution has an Event Type with a State Mapping Code with a valid 4-digit Standard Code = 1010, 1020, 1030, 1040, 1050, 1097, 1100, 1300, 1400, 1610, 1620, 1630, 1640, 1650, MA02, 1660, MA01, MA03, 1670, 1680, 1697, 1810, 1820, 1897, 1900, 2000, 2120, 2300, 2600, 2710, 2720, 2730, 2740, 2797, 2800, 2900, 3010, 3020, 3097, 3110, 3120, 3197, 3210, 3220, 3230, 3240, 3297, 3310, 3320, 3330, 3340, 3350, 3397, 3400, 3510, 3520, 3597, MA05, MA19
 - OR a Behavior Event associated with the Incident has an Event Type with a State Event Mapping Code = 3700 and Weapon Type selected.
 - One record will report per resolution with a State Resolution Code Mapping of 1-6.

Tennessee - EIS 080 and 030 Updates (SIS-123079)

The Quality Points fields on the Course (IGCSE and AP/IB/AICE) and Section (Honors Indicator, Local Dual Credit, Statewide Dual Credit, and Dual Enrollment) have been replaced by Advanced Academics fields in both locations.

Updates have also been made to the 080 and 030 extracts:

080

The 080 Extract has been updated so that final grades for standards now report, in addition to grading tasks. To report, a course must have only one standard marked as State Reported and Final Grade or marked as State Reported and with one active Term Mask. Records report if a student receives a Score for an applicable Grading Task or Standard. This update also applies to summer school calendars.

Logic for reporting based on Quality Points fields has been replaced by the Advanced Coursework fields: if a value is selected for Advanced Coursework on both the Course and Section, a record does not report. Courses with tasks/standards that do not meet reporting requirements are not included. Warning records are generated in these instances.

Affected extract fields have been updated to report scores for Standards as well as Grading Tasks. The Quality Points (Rigor) field has been updated to report based on the Advanced Academic fields. See the 080 article linked below for guidance on using the Advanced Academics fields.

030

Exclusion logic has been updated based on the change to the Advanced Academics fields. Records are not reported and included in the warning report if an Advanced Academics value is selected on both the Course and Section or if Advanced Academics is SDC, DE, or DC on either. Affected fields have been updated to report based on the Advances Academics fields.

The following updates/corrections were made for the TREx Withdrawal:

- The Withdrawal Date has been updated to report a student's most recent withdrawal date based on their enrollment record and the criteria selected on the extract editor.
- The form was failing to properly report six and nine week grades. Logic has been updated to report as follows:
 - In order to determine the In-Progress status of grades, logic will consider the following:
 - Determine which Term the Effective Date falls into.
 - Find all Course/Sections the student is enrolled in during that Term.
 - Find all terms tied to the Course/Section.
 - Report from the Grading Task based on the following:
 - Only consider Terms that contain the effective date or prior that are tied to the section.
 - If a Grading Task contains CG or F and contains a score, report this score.
 - If the Grading Task does not contain CG or F and score exists, then look for a Grading Task with name starting with 'Six' or 'Nin' that contains a score and report this score.
 - If neither scenario elicits more than one applicable grading task, report the more recently entered score.
 - If none of the bullet points above apply, report all Course/Sections with a grade of 'Incomplete'.

Kansas - KCAN Extract, Migrant Reporting (SIS-126339)

The KCAN Extract has been modified to allow for better reporting of Migrant students. The following changes have been made:

- The **Course Status** field reports a value of 80 if the student is considered a Migrant and that Migrant status continues through the summer or a new status of Migrant is created for the summer session. The Program must overlap the June 1 through September 3 dates in order to qualify.
- The **KCC Identifier** field reports as Migrant Student when the Course Status field reports a value of 80 and the Migrant Student field reports a value of 1.
- The **Course Section** field reports a value of Migrant Student when the KCC Identifier field reports a value of Migrant Student.
- The **Local Course ID** reports a value of Migrant Student when the KCC Identifier field reports a value of Migrant Student.
- The **Graduation Year** field reports the NCLB Cohort Year if the student's Diploma Date field is blank.
- The **Single Parent** field reports No if the student is CTE but not a Single Parent.
- A new **Record Type** field has been added to the Report Editor to indicate what records are included in the extract.
 - **Certificates and Course Outcomes** - all records report
 - **Certificates Only** - only reports records where the KCC Identifier field reports a value of Certificate
 - **Course Outcomes Only** - only reports records where the KCC Identifier field does NOT report a value of Certificate.
- CTE Certificates only reports when the Date Earned falls within the dates of the reporting calendar.

Massachusetts – State Behavior Event Update (SIS-127492)

State Behavior Event code 1700 and 2110 were updated to a value of 1.

Logic for the Offense Extract has been updated to the following:

- A Participant (does not need to be a student) exists on a Behavior Event connected to the Incident with Role = O: Offender.
- AND a Behavior Event associated with the Incident has an Event Type with a State Event Mapping Code with a valid 4-digit Standard Code (value = 1) = 1010, 1020, 1030, 1040, 1050, 1097, 1100, 1300, 1400, 1610, 1620, 1630, 1640, 1650, MA02, 1660, MA01, MA03, 1670, 1680, 1697, 1700, 1810, 1820, 1897, 1900, 2000, 2110, 2120, 2300, 2600, 2710, 2720, 2730, 2740, 2797, 2800, 2900, 3010, 3020, 3097, 3110, 3120, 3197, 3210, 3220, 3230, 3240, 3297, 3310, 3320, 3330, 3340, 3350, 3397, 3400, 3510, 3520, 3597, MA05, MA19, 0011, 0012, 0013, 0021, 0023, 0029, 0030, 0040, 0050, MA51, 0090
- OR a Behavior Event associated with the Incident has an Event Type with a State Event Mapping Code = 3700 and Weapon Type selected.
- OR the student has a Behavior Event Type with a with a valid 4-digit Standard Code for the State Event Mapping Code where active = true, value = null) AND Behavior Resolution with a State Resolution Code (Mapping) = 1 through 6 attached to the event.

Logic for elements OT1-OT5 on the Offense Extract has been updated to the following:

- From across all behavior events associated with this incident, report the standard code for the state event mapped code of the first valid Event Type Code. In order, should report the first lowest code for OT1, then second lowest for OT2 and so on until OT5. Valid codes are any Behavior Event that has a value of "1" OR any code with a resolution mapped to state event codes 1-6
- When OT1 = 9000, OT2 - OT5 report as 500 (Only OT1 may report as 9000)
- Report 500 for any OT that does not have a valid standard code event associated
- If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type

Logic for the Discipline Extract has been updated to include the following:

- Behavior Resolution is connected to the student offender with:
 - The Resolution Start Date is between the 1st instructional day of the Incident calendar and the Effective Date, AND the following criteria are true:
 - The Behavior Event is mapped to a State Event Code
 - The Behavior Resolution 'Resolution Type' = 1-7.

Logic for elements SOT1-SOT5 on the Discipline Extract has been updated to account for the updated logic mentioned above.

Behavior logic has been updated to the following:

- From across all Behavior Events associated with this Incident, report the Standard Code for the State Event Mapped Code of the first valid Event Type Code. This Code should report from the lowest Event ID that has a valid Standard state code.
 - If the student has a Behavior Event associated with an Event Type with State Event Mapping Code = 3700, report the 4-digit Standard Code selected for Weapon Type.
- For Standard code 9000:
 - When a Behavior Resolution mapped to 1 through 7 is NOT connected to the Behavior Event mapped to standard code 9000, this Behavior Event must not be considered to report.
 - When OT1 = 9000, OT2 - OT5 reports 500 (only OT1 may report as 9000)

Kentucky – Homeless Program Now Available (SIS-119669) [Enhancement]

The Homeless program is now available within the Program Participation tool. This program allows State and District users the ability to create and manage student homeless records.

Existing Homeless information in student enrollment records was converted to Homeless records using the following logic:

- A Homeless record is created for a student per Primary Enrollment record where any of the following statements are true:
 - The Primary Enrollment has the Homeless checkbox checked
 - The Primary Enrollment has a Living Status that is not null and the Primary Night Time Residence contains the value from the Living Status attribute.
 - A Primary Enrollment has an Unaccompanied Youth field that is not null.
 - When converting a record, If Living Status or Unaccompanied Youth is null, the corresponding field will remain null on the Homeless record.
 - Start Date on Homeless record = Start Date on Enrollment record
 - End Date on Homeless record = 6/30/YYYY where YYYY = the end year of the calendar of the enrollment record
 - District Ownership on Homeless record = Enrollment District
- Overlapping historical records is allowed

The Homeless, Living Status, and Unaccompanied Youth fields on the Enrollment tab will be deprecated. Historical data will remain in the database for historical and Ad hoc reporting purposes.

The Homeless, Living Status, and Unaccompanied Youth fields were also removed from the KY State Reporting Import Wizard.

Moving forward, all users should be entering and maintaining Homeless-related data in the new Homeless program.

Localization - Arizona

Arizona – Ed-Fi Parent in Military Reporting (SIS-126086)

The StudentCharacteristicDescriptor array has been enabled in the Students resource in Ed-Fi v2.0 in order to report Parent in Military data.

To set up a student to report Parent in Military status in the AzEDS 4.0 / FY19 connection will need to tie the student to a relationship that is marked as "Guardian" in the Relationships tab, that guardian record will need to have a Military Connections record saved that overlaps the student's enrollment record within the EdFi configured year, and that Military Connections record will need to have a Status that is mapped within the Ed-Fi Configurations area, under the Students resource, to a code of '08: Parent in Military'.

Any students who have the appropriate setup in Infinite Campus to report a Parent in Military prior to this update will need to have their Students resource resynced after taking this update.

Localization - Kansas

Kansas - KIAS Extract (SIS-126148)

The following modifications have been made to the KIAS Extract:

- Bullying (field 9: Days of Other) calculates detention resolutions based on duration units selected then reports proportional to the student's scheduled day.
- Resolution code logic reports from the mapped state resolution code.
- Expulsion state resolution codes of 560 and 565 are included in this report.
- Weapon codes logic has been updated to report firearm and explosives codes only.

Localization - Texas

Texas – TSDS Staff Association Updates (SIS-127126)

Reporting population logic for Submission 3 of the TSDS Staff Association Interchange has been updated to remove the requirement of a course/section needing 090 data in order to report.

Logic for Staff > TX-PKTeacherRequirement has been updated to the following:

- If a staff member has a Credential = Other with dates that fall within the reporting window and that contains a code in the Value field, report the Value code.
- If no Value code exists, do not report.
- If multiple applicable Credential records exist with dates which fall within the reporting window, only report the value from the most recent record.

Nebraska – Ed-Fi Student School Attendance Event Resource Update (SIS-121244)

The attendanceDuration element in the Student School Attendance Event resource has been updated so that if a day is marked as less than a whole day, the student's max absence for that day can not exceed that days time percentage.

To avoid a large amount of data unnecessarily resyncing, Campus recommends districts add a day event first and then resync the attendance on the effected day. If a day event has already been added, any new or updated attendance will calculate with the new formula.

Path: System Administration > Ed-Fi

Localization - Massachusetts

Massachusetts – Discipline Extract Updates (SIS-124560)

The following updates were made to the Discipline Extract:

- The ERDX column has been renamed ARREST. Logic has been updated to report a value of Y if a Behavior Resolution is mapped to a state code of 7 or on the Behavior Resolution an Arrest = 1: Yes.
- The following columns now report a null value:
 - NAE
 - APPEAL
 - AEX
- Logic for the DM and ARREST columns have been updated to meet state requirements and include the new State Resolution Code value.

The following Ed Services Provided Codes were added:

- 9: Student refused the offer of education services
- 10: Student did not respond to the offer of education services
- 11: Student moved or transferred

State Resolution Code '7: School-related arrest with no school imposed suspension or removal' has been added.

Weapon code types have been added to the State Behavior Event for mapping. Existing codes have not been removed from the weapon type itself, but district can now set up State Behavior Event codes either way and it will report correctly.

Special Ed Updates (SIS-125227)

Updates to the Student Information and Enrollment Status editors for all states were made in order to align the information retrieved when creating or refreshing the editor.

For Plans outside of Minnesota and Kentucky, only current and future primary enrollments are initially considered. N: Special Ed Services enrollments are considered ONLY if a P: Primary enrollment does not exist. A current enrollment is defined as the Enrollment where the Start Date of the plan falls within the Start and End Date of the Enrollment. If the Enrollment record does not have an End Date, the calendar

End Date is used. Future Enrollments are considered when no current enrollment exists or either the entire plan, or End Date of the plan, falls within the Enrollment Start and End Date. If there is more than one Enrollment that meets the criteria, Enrollment will be further sorted by latest End Date and latest Created Date. Evaluations follow the same logic as plans. However, since most do not have an End Date, when there is no current Enrollment, a future Enrollment will be pulled whether or not it overlaps with the Evaluation.

For Plans in Minnesota and Kentucky, only current and future Enrollments are considered. Active Courses vs. Dropped Courses - Inconsistency in Date Logic (SIS-122433)

Date logic has been modified for the display of active courses vs. dropped courses in Student Schedule Reports and Responsive Course Offerings.

An Active Course is defined as a course that is not yet dropped, which has one of three impacts, depending on the context of the course:

- If the course met in a previous term, "active" means the roster placement for the student either has a blank (null) end date or the end date is the last date of the term.
- If the course meets in the current term, "active" means the roster placement for the student either has a blank (null) end date or the end date is greater than or equal to the current date.
- If the course meets in a future term, "active" has no real meaning, as all future courses are considered active regardless of the start or end date.

Options have been added to schedule report formats to display or not display Responsive Courses on printed schedules (Responsive Courses do not automatically display). Responsive courses follow the same logic for Active vs Dropped as outlined above.

A new System Preference is available for Georgia districts, called Enforce Enrollment Attendance Zone. This preference uses the school and calendar selected in the student's enrollment for validation, not the School and Calendar selected in the Campus toolbar.

When the preference is set to Yes, an error displays if the user saves a student enrollment and the student enrollment does not reside within the school boundaries associated with the student's household address(es).

Two new Enrollment fields have been added that are used with this preference:

- Variance Date - Date determined for tracking students residing in another state

Illinois - Student Monthly Attendance, 504 Report (SIS-125373)

The following modifications have been made to the Student Monthly Attendance Extract:

- Field 9 is now the School Year, and reports the calendar end year for the selected calendar.
- Field 10 is now Month of Attendance and reports the number associated with the month (01 - January, 02 - February, etc.).
- Field 11 is now Year of Attendance and reports the year associated with the selected month in the school year (October 2018 reports 2018, January 2019 reports 2019, etc.).
- The RCDTS code reports a leading zero of the two-digit region number begins with a zero, so the total length of the RCDTS code is 15.

Code Updates

- Home Primary Language field now includes 187: Chuukeseor Trukese.
- EIS Position Code now includes 310: Paraprofessional (Proctor).
- Code 10: Proctor has been removed from the State Teacher Role. Any teacher assigned this code now has a code of 310: Paraprofessional (Proctor).
- IPEDS codes have been added for Aurora University (143118), University of St. Francis (148584) and University of Wisconsin Oshkosh (240365).

The following modifications have been made to the 504 Extract:

- An underscore has been added to the header of the 504 extract. It now begins with 504_Plan.
- The RCDTS code reports a leading zero of the two-digit region number begins with a zero, so the total length of the RCDTS code is 15.

Maine – Core Career Tech Programs Tool Now Available (SIS-95015) [Enhancement]

The core Career Tech Programs tool is now available. This tool tracks and displays a student's progress towards completion of a Career Tech Program, including specific course requirements for the career track and any assessments or certificates need in order to complete the program.

The Academic Planning tool has also been updated to include the Career Tech Programs module. This addition allows users to add and track CTE programs for a student.

The following updates were made to the CTE Report:

- A new field called 'Use Core CTE' has been added. When checked, only data from the core CTE modules are reported (Program Admin > Programs > Career Tech Programs, Student Information > Academic Planning > Programs > Career Tech Education Programs). If left unchecked, CTE data is reported from the Maine-specific CTE tab (Student Information > General > CTE).
- Reporting population logic has been updated to include the following:
 - If Use Core CTE = true, report from Core CTE locations
 - Student must have a Program Participation CTE record active at least one day in the Calendar selected in the extract editor
 - Only report if Program Participation CTE Start Date is less than or equal to the extract editor Effective Date
 - Only report if associated CTE Program Admin State Reported = true
- Logic for the following elements has been updated to account for the new core CTE tool and CTE Academic Planning module:
 - School ID
 - Year Code
 - CTE Code
 - Start Date
 - End Date
 - Exit Status
 - Early College LD
 - Displaced Homemaker
 - Single Parent

Nevada - DF17 and DF40 Update for Attendance Totals (SIS-119970)

The DF17 Average Daily Attendance (ADA) Report and the DF40 CTE Attendance Report were updated to count attendance that occurs any time during the reporting period. Previously, when a student enrolled in the district, changed grades, left (dropped) their enrollment, then re-enrolled prior to the 100th day, the reports were not counting all days present during the first 100 days. This issue was corrected.

Texas – Miscellaneous UI and State Reporting Logic Updates (SIS-124520)

The following updates were made:

- The Section 504 field has been hidden and locked.
- School Type option '6: In Construction' was added.
- The Title field on the District Assignment tab has been updated to list field values in Code: Name format.

The TSDS Extract Editor was updated as follows:

- The Organization field has been removed. This field was only available when Submission 1 – Fall and the Education Organization interchange were selected.
 - Now when a user selects this combination, the current Local Education Agency version is run.
- The Education Service Center version of the report has been removed.

Logic for the TSDS Student Program Interchange has been updated as follows:

- TX-TitlePartAIndicator
 - Submission 1 Only: If the student's enrollment is/was in a School marked as 6: Title I Schoolwide in System Administration > Resources > School > School History > Title 1, then report 6 (regardless of what value is in Enrollment).
 - If no school-wide record exists and the student has a Title 1 record that is active on the Snapshot Date with a code of 7, 9, or A, report this value.
 - If the code is 0 or 8, a value of 0 is reported.
 - If multiple active records exist on the Snapshot Date, report the record with the most recent save/edit date.
- StudentTitlePartAProgramAssociationExtension
 - Submission 1 Only: Using the logic described for Title1PartAIndicator above, students reporting a TX-TitlePartAIndicator with a value equal to 0, 6, 7, 9, or A will report full complex type. All others will not report the entire complex type.
- StudentSpecialEdProgramAssociationExtension > TX-PreschlPrgmChildDisabilities
 - Submission 1 Only: Report 1 if the students age is 3, 4 or 5 AND student is enrolled in grade PK AND student has an ACTIVE AND LOCKED IEP as of the Effective Date, otherwise, report 0.
- StudentProgramExtension > TX-CareerAndTechnologyEd
 - Submission 1 Only: This field is required for all students reporting in Submission 1. If the student does not report a 1 or 2, they will report as 0.

Academic Programs

Academic Planning Compound Requirements, Student Progress Display (SIS-125010)

When a Compound Requirement entry for a Graduation Program only had a Career Tech Requirement entry but did not include a course or test, the student's Progress tab was not allowing the expansion of the Compound Requirement section. This has been corrected.

Ad hoc Reporting

Scheduling - New Ad hoc View for Use with Complex Calendar Structures (SIS-120568)

A new view has been added that can be used to return student schedules in calendars that have multiple term schedules and multiple period schedules.

This new view, called Full Section Schedule, is located in the Learner > Schedule > Course/Section area and is available in the Data Viewer and Filter Designer when creating Student Filter Types.

Article: [Schedule \(Counseling\)](#)

Path: Ad hoc Reporting > Filter Designer > Query Wizard

Ad Hoc Today Filter Added (SIS-124688) **[Enhancement]**

A "Today" filter option has been added to the Ad Hoc Query Wizard.

Ad hoc Reporting - Grades, Term GPA Summary Sub-reports (SIS-125132)

The Term GPA Summary and Grade Detail sub-reports were not displaying data when included in a letter. This has been corrected.

Attendance

Attendance Wizard - Tardy with NULL Present Minutes (SIS-114047)

When a student was checked out in a period with an Attendance code of Tardy and there were no (NULL) Present Minutes, the Check Out did not save. This has been corrected. A Check Out in the passing time between periods when the earlier period has a Tardy and NULL Present Minutes also saves as expected.

When a student is checked out from a period where there is an attendance code of Tardy and the present minutes are saved as NULL, the calculation of present minutes uses the time from the Check Out to the end of the period, minus lunch minutes, if applicable to the period.

- If Present Minutes are entered for the period, the calculation of new Present Minutes uses the saved value. The total minutes from the Check Out to the end of the period, minus lunch minutes, is subtracted from the existing Present Minutes.
- If the resulting number of Present Minutes results in a negative number, the Check Out code and timestamp are saved but the Present Minutes report as zero. The Check Out code and timestamp are also applied to all subsequent periods.

This does NOT affect Kentucky Attendance.

Attendance Letters (SIS-125201)

Users were unable to reprint previously printed letters. This has been corrected.

Additionally, after taking the Campus.1909 Release Pack, Attendance Letters that were generated with the Allow Letter Requalification option did not record the qualifying date in the Attendance Letter History table. For students who requalified for a letter multiple times, the most recent letter for those students who qualified during that time may not generate with the most recent dates. Generating these letters again will begin to address these records.

Pushed Grade Calculation Options (SIS-124146)

Previously, if a user accessed the Grade Calc Options after a course was created via calendar roll forward but before grading setup was rolled, grading setup could not be pushed from the course master or rolled from the previous calendar. This has been corrected.

Article(s): Grade Calc Options (Course)

Path: Scheduling > Courses > Grade Calc Options

Guest Access to Grade Book - Campus Learning (SIS-124484)

Assignment tools included in the Campus Learning premium offering are now available when accessing the Grade Book as a guest. These tools include advanced assignment options, submissions, and discussions. These options only display if the section is in school or district that has an active Campus Learning license.

Campus Parent/Student - Contact Preferences, Course Registration, Assessment, School Choice (SIS-124404) [Enhancement]

The following modifications have been made to **Course Registration** in Campus Student/Campus Parent:

- When adding a course, only one scroll bar displays.

The following modifications have been made to **School Choice** in Campus Student/Campus Parent:

- Applications are listed in School alphabetical order, unless there is a preferred rank associated with those applications, in which case the applications are listed in rank order.

The following modifications have been made to **Assessments** in Campus Student/Campus Parent:

- The list of Assessments for a student has been reformatted for ease of use.
- Users can now correctly print Course Registration information on an Apple and Android mobile device.

The following modifications have been made to **Contact Preferences** in Campus Student/Campus Parent:

- A parent viewing contact information for their household received an error message when attempting to save changes when their student was in multiple households. This has been corrected.
- When adding a value to a field that previously had no value, an email was not sent alerting the user to the change. When updating an existing value, an email was sent, but the original field was not included in the email. Both of these issues have been corrected.
- Emails sent to users when they modified information now use consistent verbiage in relation to the

- Campus Student and Campus Parent.
- When an email is available for a Campus Student/Campus Parent user, an email is sent when changes are made to other areas on the Contact Preferences.
- Updates made from one primary or secondary email address trigger confirmation emails to be sent to the updated primary or secondary email addresses.
- Teacher contact preferences for phone are not enabled.
- Race requirements set on System Preferences are now enforced in Campus Student/Campus Parent.
- The field "Is the student Hispanic/Latino?" displays as required when the System Preference is set to anything but No One.
- Race/Ethnicity and Race/Ethnicity Subcategories (if available) now include the phrase "Select all that apply."

Federal Programs

Federal Programs Publishing Tool Relocated and Foster Care Tool Rights Update (SIS-115166)

The Federal Programs Publishing Tool has been relocated to live under Program Admin in the index. Existing tool rights and user groups with rights to the Federal Programs Publishing Tool have been converted to apply to this new location. The tool has also been updated to allow for the publishing of Migrant records (Migrant functionality will be activated by state, not all states have this enabled). Users must have proper sub-right tool rights for Migrant under the Federal Program Publishing tool in order to publish records.

The relocation of the Federal Programs Publishing Tool affects State Edition users who have Foster Care turned on. Users are now required to have publishing sub-rights for Foster Care (located as a subright of the Foster Care Program tab) before they are allowed to publish Foster Care records from the Federal Programs Publishing tool. Users who have Foster Care Publish sub-rights will also be able to publish records from the Foster Care tab.

Massachusetts – SIF Updated to Receive SASID Values from State (SIS-119964)

The SIF ZIAgent has been updated to now receive inbound messages from the State with new SASID values for StudentPersonal/StateProvinceID for students who had sent StudentPersonal records with the word 'Request' for StateProvinceID.

Also, SASIDs received from the State via SIF will now populate the Student State ID field on the Identities tab.

SASIDs will be synced to districts daily during an overnight job.

In order for this functionality to work properly, please put in a ticket to have your ZIAgent updated.

Massachusetts – Various SIF Logic Updates and SIF ZIAgent Preferences Tool Created (SIS-121626)

A new SIF ZIAgent Preferences tool is now available. This tool allows districts to define the School Year and State Reporting Date, which are vital in properly reporting various SIF data to the State.

Also, the SIF Publish Tool has been renamed the SIF ZIAgent Publish Tool and the SIF Message Audits tool has been renamed SIF ZIAgent Message Audits.

In conjunction with the new SIF ZIAgent Preferences tool, logic for the following SIF extended elements has been updated to consider the new State Reporting Date field (found in the SIF ZIAgent Preferences tool) when reporting data:

- StudentPersonal/LEPStudentsInTheirFirstYearInUSSchools
- StudentSchoolEnrollment/ELLProgramStatus
- StudentSectionEnrollment/CourseEnrollmentStatus
- StudentSectionMarks/MarkList

Logic for the SIF StudentSectionEnrollment object has been updated to require a student have an enrollment End Date that is not null and an End Status code of 04 or 10 in order to be considered "Graduating".

Massachusetts – SIF ZIAgent Record Updater Tool Added (SIS-122248)

A new SIF ZIAgent Record Updater tool has been added to Campus. This tool provides districts with the ability to send an update of SIF objects from Campus to the State for a specific student/staff member or group of students or staff.

When a student is selected, the following SIF objects are resent for the student: DisciplineIncident, StudentPersonal, StudentSchoolEnrollment, StudentSectionEnrollment, StudentSectionMarks.

When a staff member is selected, the following SIF objects are resent: EmploymentRecord, StaffAssignment, Staff Evaluation, StaffPersonal, StaffSectionAssignment.

Also, the Batch Queue Viewer has been added to the SIF Message Audits tool. This viewer allows you to see and access a historical list of generated audits.

Academic Programs

Career and Technical Programs within Graduation Program Requirements (SIS-122882) [Enhancement]

A new editor has been added to Graduation Programs called Career Tech Requirements. Users can require Career Tech Program completion as part of the Graduation Program Requirements.

Career Tech Programs can also be included in Compound Requirements, where a student could complete a course or take an assessment, and now also complete a Career Tech Program.

The Career Tech Programs assigned to a Graduation Program or as part of a Compound Requirement display on the student's Progress tab.

Display Options - Academic Progress HTML Field (SIS-123696)

The Academic Progress HTML field is not an option in Campus Student/Campus Parent. Because of this, it has been removed as an option in Portal Display Options.

Academic Plan Status Report (SIS-123878)

The Academic Plan Status Report returned an error when a student did not have an enrollment record with a primary service type. This has been corrected.

The report only evaluates students with a Primary enrollment in the specified calendar.

Assessment

Assessment Publishing and Syncing Logic Update (SIS-120305)

The following logic used for publishing Test Structures and Test Score data from State Edition to District Edition has been updated:

- Publish Test Structure:
 - Only display tests that meet the following when a school year is selected in the Campus toolbar:
 - Test Year is set to the same school year in the toolbar
 - Test Year is blank

- Publish Test Scores
 - Only display tests that meet the following when a school year is selected in the Campus toolbar:
 - Test Year is set to the same school year in the toolbar
 - Test Year is blank
 - All test score data will be synced from State Edition to District Edition (parent, child, grandchild, etc), not just the parent test score record.
 - Logic will look at the selected school year in the Year field
 - If the assessment has years set and it matches the selected school year, send all test score records.
 - If the assessment has no year, verify the test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year. If any child(ren) test are missing a date, look at the parent test to verify the date.
 - If the test score record(s) does not have a date, look if the assessment has an end year that matches the selected school year. If it has no assessment end year, do not send the test score data.
 - When the correct testScore records have been identified, look at the student enrollment that matches the school year and then look at all of the student enrollments for that year and future years. Logic will then gather the districtID's from each enrolled district. When publishing the testScore record, logic will publish to each of the districts the student was enrolled at.
 - Assessment scores being published to the District Edition will do an insert of data if they do not already exist.
 - Assessment scores that have been synced from State Edition to District Edition and then deleted from the State Edition and then test scores published to the District Edition, test scores for the deleted tests are removed from the District Edition.

Logic for syncing assessments from the District Edition to the State Edition has been updated to the following:

- Logic will determine what test scores will sync based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
 - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.
 - If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
 - If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
 - Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If test score data that has already been synced from District Edition to State Edition and the test score record(s) get deleted in the District Edition, they will be deleted from State Edition as well.

Logic for batch syncing assessments from District Edition to State Edition has been updated as follows:

- Logic for determining what test scores are synced is based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
 - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.

- If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
- If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
- Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If assessments that have been synced from District Edition to State Edition get deleted in the District Edition, a new batch sync is run and test scores deleted in District Edition are removed from State Edition.
- Logic only look five levels deep on test structures.

Logic for Records Transfer has been updated so that when a district uses the Assessment Import Wizard, the DIS message sent to the State Edition does not overwrite existing records for tests that are State or National, locked or unlocked.

Records Transfer – Assessment Import Failing to Import All Data Causing Sync to State to Null Fields Containing Data (SIS-122258)

The Records Transfer tool was incorrectly importing only data for fields existing in the Assessment Import UI and not all of the additional information that exists in the XML message sent from the releasing district. Importing the record as generating a DIS event sync message back to the State Edition and thus, updating and overwriting data existing at the State with this missing (null) data. This issue has been corrected. All fields from the releasing district's XML file will be imported and if a test is either a state or national test and is locked, a DIS event message will not be sent. If the state or national test is not locked, a DIS event message will be sent but the State Edition testScore.districtID and testScore.schoolID values will not be updated.

Attendance

Duplicate Letters Being Sent to the same Household (SIS-122742)

Any letters generated through the available letter wizards were printing duplicate letters for the same address when the letters included Campus Fields for Mailing Addresses (mailingAddress.street, etc.) and the student had multiple mailing addresses. This has been corrected.

Positive Attendance Import Wizard Now Available (SIS-122821) [Enhancement]

The Positive Attendance Import Wizard is now available for all Campus customers (except for Kentucky

users). The Positive Attendance Import Wizard allows you to import positive attendance records from a separate Learning Management System (LMS) or from other external sources (Excel file, etc). This wizard can be used daily, weekly, monthly, or even on an irregular schedule.

Note: This tool only imports positive attendance data. It does not update existing positive attendance records within Campus. If positive attendance records need to be update, please use the 'Positive Attendance' type within the Attendance Wizard tool.

Behavior

Behavior Incident Completion without Participant (SIS-123370) [Enhancement]

New Behavior Preferences have been added that allow behavior incidents to be marked complete without a participant being associated with it.

When the **Require participant before behavior incident can be set to complete** is set to No (default setting), behavior incidents can be set to complete without a participant being assigned. When set to Yes, a participant is needed to mark the incident complete.

When the **Require participant before behavior referral can be submitted** is set to No (default setting), referrals without a participant being assigned can be submitted. When set to Yes, a participant is needed to submit the referral.

Calendar

State Edition Incorrectly Displaying No Calendars When All Districts/All Calendars is Selected (SIS-124099)

State Editions of Campus were incorrectly displaying No Calendars next to the School dropdown list when All Calendars was selected and a value of All Districts was selected after a district was selected in the District dropdown list and then the user switched back to a value of All Districts. This issue has been corrected.

Campus Student & Campus Parent Updates (SIS-123615) [Enhancement]

The User Account Batch Wizard has been updated to include an option for updating student and parent home pages. When 'Update Home Page' is selected as the Change Type, student and parent home pages will be updated from the Portal to the new Campus Student and Campus Parent portals. Users are assigned a home page of Campus Student if they have an enrollment, including emancipated students with a guardian relationship to themselves and students who are also parents. Users are assigned a home page of Campus Parent if they have a Relationship to a student with Guardian or Portal marked, including former students who are now parents. This conversion affects all portal accounts, not just active ones.

Additionally, the following updates have been made to Campus Student and Campus Parent:

- Preparation work for translations, which will be available in a future release of Campus Student and Campus Parent.
- When a user clicks a notification from the bell icon, they are routed to the related screen, such as assignments or grades.
- Issue fixed in which exempt absences were counted differently than they were in the previous Portal.

- Notifications are no longer sent for assignments in which the student is marked as exempt.
- Notifications are no longer sent for food service balances if the preference is set to off.
- 'Multiple Scores' no longer displays for unscored assignments that have multiple alignments.
- Assignment flags and comments have been added to the grade detail screen.
- Updated text on the assignment screen indicating where users can enter their email addresses.

Report Card Preference Options and Print Modifications (SIS-47528) (SIS-122190) [Enhancement]

The following modifications have been made to Report Card Preferences and Report Card print display:

Standards Based Report Card Options

- Report on Terms options are now available.
- The Standards Display Options have been modified. Instead of Display All Scores, users can now select Grades for Selected Terms, and then choose which terms to include in the report. The other two options are Best Grade Only (previously was Display Best Score Only) and Most Recent Grade Only (previously was Display Most Recent Score Only).
- When printing the Standards Based Report Card, the list of standards now includes the course and section in which the student was graded if that standard is scored in more than one course.
- When creating a new report card or editing an existing report card, the Attendance Summary section needs to be selected. Previously, this option was automatically selected.

Conventional Report Card Options

- The Report on Terms radio buttons have been changed to checkboxes, allowing selection of multiple terms. The option to exclude previous terms has been removed.

Standards Based and Conventional Report Card Options

- When only one term is selected for Attendance Summary printing, no total column of attendances is listed on the printed report card. A total column only displays when more than one term is selected. This also applies to Attendance Messenger.
- The label for Attendance Summary on the printed report card now prints as Attendance Summary by Term.
- A new Tasks to Display section has been added that includes the option to print All Standards and Tasks (graded and ungraded grading tasks and standards) or Graded Standards and Tasks Only (only prints grading tasks and standards that have scores).
- When printing a report card for only In-Progress Grades, only the calculated in-progress grade displays, even when a posted score has been entered for the selected task in that term.

Also note that when a report is rolled forward into a new or another calendar, the Term Schedule Name, the Schedule Structure Name and the number of Terms must match between the calendars in order for terms to be selected on the new report.

Kentucky – 2019 Safe Schools Report Updates (SIS-122886)

The following updates were made to the Safe Schools Report:

- Logic for the Homeless Status element has been updated to report Y when a student has been indicated as homeless on the enrollment that was activate as of the date in which the incident takes place.
- Logic for the Resolution Length element has been updated to the following:
 - Calculate the resolution length for resolutions tied to a state code only based on start and end dates as compared to school days in calendar then calculate time based on start and end time (to the 10th of a day).
- Logic for Warning 1 has been updated to not trigger if the resolution time period overlaps a manually shortened day in the calendar.
 - If a day in the enrolled calendar has a Start Time or End Time populated for a date that overlaps the resolution, the warning will not be triggered.
- Logic for Warning 3 has been updated to ignore resolutions that are not state-mapped or resolutions without a resolution state code.
- The Sub Report element has been updated to report an abbreviated description value.
- When an event is tied to multiple Harassment, Drug, or Weapons Types, the following elements will list each description separated by a semicolon.
 - Harassment Type
 - Drug Type
 - Weapon Type

The following corrections are included in Rx Packs for February, March, and April 2019. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.1913 pack unless otherwise noted.

Campus Learning

OneRoster - Syncing LineItems (SIS-125121)

Previously, lineitem syncs failed due to a race condition, preventing future syncs for that sourcedID. This has been corrected.

Path: No Specific Path

Security

Security Updates (SIS-125019) (SIS-125018) (SIS-125017) (SIS-124656)

Various updates were made to enhance Campus security.

Messenger

Bulk Messages Failing to Process for Some Mailgun Users (SIS-125094)

A timeout issue with the HTTP Client was preventing bulk messages from processing for some users who use Mailgun as their email delivery service. This issue has been corrected.

Path: System Administration > Messenger > Messenger Preferences > Email Settings

Localization - Michigan

Michigan - General Collection and Student Record Maintenance Updates (SIS-125001)

The SpecialEducation component of the General Collection and SRM extracts has been updated to correctly report amended IEPs.

Localization - California

California Immunization Corrections (SIS-124964)

The Hepatitis B, Varicella, Measles, and Mumps immunization requirements active start and end dates were set to dates in 2018. These dates have been corrected to 2019.

Path: System Administration > Health > Vaccines

Localization - Massachusetts

Massachusetts – Various SIF Logic Updates and SIF ZIAgent Preferences Tool Created (SIS-121626)

A new SIF ZIAgent Preferences tool is now available. This tool allows districts to define the School Year and State Reporting Date, which are vital in properly reporting various SIF data to the State.

Also, the SIF Publish Tool has been renamed the SIF ZIAgent Publish Tool and the SIF Message Audits tool has been renamed SIF ZIAgent Message Audits.

In conjunction with the new SIF ZIAgent Preferences tool, logic for the following SIF extended elements has been updated to consider the new State Reporting Date field (found in the SIF ZIAgent Preferences tool) when reporting data:

- StudentPersonal/LEPStudentsInTheirFirstYearInUSSchools
- StudentSchoolEnrollment/ELLProgramStatus
- StudentSectionEnrollment/CourseEnrollmentStatus
- StudentSectionMarks/MarkList

Logic for the SIF StudentSectionEnrollment object has been updated to require a student have an enrollment End Date that is not null and an End Status code of 04 or 10 in order to be considered "Graduating".

Path: System Administration > Data Utilities > SIF > SIF ZIAgent Publish Tool, SIF ZIAgent Message Audits, SIF ZIAgent Preferences

Localization - Vermont

Vermont - FTE Percentage Corrected in POS and POS Role Reports (SIS-124689)

The following columns were corrected to report 2 decimal places. Previously, they were reporting 3.

- POSFTE (11_POS)
- RolePercent (11a_POS_RoleTable)

Logic on the 14a_StuSectionEnrollment was updated for the COURSEENROLLSTATUS column. Now, if a student received a Final Grade for a course, 03 Completed will report. If the Course Section has ended and no grade is posted, 04 Incomplete will report.

The 0_Staff Match collection was updated to not report staff when Exclude is selected on their District Assignment.

Campus Learning - Discussions (SIS-121497) [Enhancement]

Extensive updates have been made to the Discussions tool to improve and expand this option.

- Teachers can now create discussions in the context of an assignment and easily score student responses.
- Creating discussions has been simplified to remove complex moderator options.

- The existing Discussions tool displays both discussions aligned to an assignment and non-assignment discussions.
- Students can view and respond to discussions through the Campus Student app.
- Questionable content can be flagged by students or teachers and resolved by teachers or admins.
- The System Administration version of the tool has been simplified to allow admins to review existing discussions and resolve flags if needed.

Discussions is part of the Campus Learning premium offering.

Returning Edit Rights to a Google File (SIS-123627) [Enhancement]

The option to return edit rights to a student for a submitted Google Drive file has been moved to the Submissions list in the submission scoring screen. From here, teachers have the option of modifying the type of access the student has to their submitted assignment file, either View or Edit. Changing edit rights does not affect the state of the assignment, it simply modifies the student's access rights through Google. Teachers can use this option to give students access to their files to make updates prior to final grading. This option only displays for assignments that have Google Drive enabled.

Additionally, the Student Comments and Teacher Feedback fields that were previously on the old scoring view for submissions have also been moved to this Submission list as well. These comment fields are available for students to ask questions about the assignment to which teachers can respond, prior to the assignment being submitted. This feedback is different from assignment comments.

DIS/SIF

SIF Updated to Send Change and Delete Messages for Staff/Students when Add Person and Combine Person Tools are Used (SIS-114204)

SIF functionality has been updated to properly send change and delete messages for staff and students when the Add Person and Combine Person tools are used. Updates are as follows:

- When a District Assignment record is added for a staff member for the first time, a SIF StaffPersonal and StaffAssignment ADD event is provided.
- When a District Assignment record is updated for a staff member or an additional District Assignment record is added, a SIF StaffPersonal CHANGE event is provided.
- When the last District Assignment record is deleted for a staff member, a SIF StaffPersonal DELETE event is provided.
- When two students are combined using the Combine Person tool, a DELETE event is sent for all objects related to the discarded (merged record) person's Staff or Student (or both) RefId:
 - For students:
 - StudentPersonal
 - StudentSchoolEnrollment

- StudentSectionEnrollment
- StudentContact
- StudentSectionMarks
- StudentContactRelationship
- StudentDailyAttendance (Delete only)
- StudentPeriodAttendance
- StudentActivityParticipation
- StudentParticipation
- StudentScoreSet
- For staff:
 - StaffPersonal
 - StaffAssignment
- When the Combine Person tool is used to combine two person records, the primary, non-discarded person will generate a CHANGE event for the following SIF objects, which depend upon whether the person is a student or staff member (or both):
 - For students:
 - StudentPersonal
 - StudentSchoolEnrollment
 - StudentSectionEnrollment
 - StudentContact
 - StudentContactRelationship
 - StudentPeriodAttendance
 - For staff:
 - StaffPersonal
 - StaffAssignment

SIF CalendarDate Logic Updated to Properly Send Add/Delete Events (SIS-117298)

Logic for the CalendarDate object has been updated to the following:

- The object will populate a record for each day where:
 - The data exists in the database.
 - A modification to any field on the Day Detail editor has been made and saved to the database.
 - The object will report 1 instance per unique day across all schedule structures assigned to the calendar.
- The following elements within the object were updated as follows:
 - StartDate
 - Logic reports the first CalendarDate date (the first day that exists in the database).
 - EndDate
 - Logic reports the last CalendarDate date (the last day that exists in the database).
 - FirstInstructionDate
 - Logic reports the earliest day in the calendar where Instruction = Checked.
 - LastInstructionDate
 - Logic reports the latest day in the calendar where Instruction = Checked.
 - CalendarSummary SIF_Events
 - When a day is added to the database, or any modification (change or delete) is made to a day, the CalendarSummary object must report a change event and update the StartDate or EndDate as necessary.

SIF StudentDailyAttendance Logic Update (SIS-121483)

Logic for the SIF StudentDailyAttendance object has been updated to include the following:

- When a student's enrollment End Date is entered, a delete event is provided for each period on and between 1 day after the student's enrollment End Date AND the calendar End Date for each day WHERE the student had any period attendance Code OR Status entered on their Attendance tab.
- Delete events are now sent when attendance no longer exists in the Campus database.
 - If Enrollment End Date is populated and a new Start Date is entered, previous Attendance is deleted

Ed-Fi

Ed-Fi - New Ed-Fi Configuration Tool (SIS-119291) [Enhancement]

In preparation for the Ed-Fi 3.1 version for the 2019-20 school year and for future improvements to the Campus Ed-Fi tools, the Ed-Fi Preferences and Ed-Fi Config tabs have been combined into one Ed-Fi Configuration tool.

In order for data to flow from Campus to Ed-Fi, code mapping was completed in the Campus Attribute Dictionaries in a column called 'Ed-Fi Code' that allowed for Campus/State code values to be translated into what Ed-Fi would accept. Fields like Ed-Fi Term Type and Grading Periods were also added to areas of the product to accomplish the same thing. Our goal with the new Configuration tool is to provide users more visibility into what is being mapped and also give users more control on how the data is sent.

This project is ongoing and you will continue to see changes to the Ed-Fi Tools over the next few months. Please review the documentation in the Campus Community for complete details of what has changed.

Massachusetts – EPIMS Work Assignment FTE Logic Updates (SIS-122225)

The FTE Percent field on the District Employment tab has been renamed to 'FTE Percent (whole number 0-100).

Logic for the Full Time Equivalent field on the EPIMS Work Assignment extract has been updated to the following:

- When a staff is reporting one record on the extract and is not assigned to a section, the FTE is reported as follows (non-HR districts only):
 - (District Assignment FTE *District Employment FTE)

- Example:
 - Staff has a single WA record.
 - District Assignment FTE = 0.01
 - District Employment FTE = 1
 - Expected Result: $0.01 / 1 = 0.01$
- When (Census > People > District Employment > FTE Percent = "1"), logic considers it as 1 for calculation purposes and not 100 (non-HR districts only).
- When (Census > People > District Assignments > FTE of Assignment = "0.01"), logic considers it to be "0.01" for calculation purposes (non-HR districts only).
- When the Job Classification field has a value of 2305, 2306, 2307, or 2308, and the Term Status field has a value of 02, the Full Time Equivalent field must be divided by the number of section records belonging to the same district assignment, (where Course Term = 01) plus the number of sections with a Term Status = 02 (HR and non-HR districts).
 - Example:
 - District Employment FTE = 100
 - District Assignment FTE = 1.0
 - There is one section record that has WA07 = 2305, 2306, 2307, or 2308, AND WA17 = 02
 - There are 3 section records that have WA16 = 01
 - Expected FTE result: $(100/1.0) / (3 + 1) = 0.25$
- When a Work Assignment record has a Term Status = 01:
 - The Full Time Equivalent calculation is divided by only sections that belong to the same district assignment (Job Classification and Teacher Paraprofessional Assignment match) that also have a Term Status = 01.

Pennsylvania - PIMS Discipline Reporting Updates (SIS-118188)

The following updates have been made to Behavior codes:

- New State Behavior Event Codes have been added:
 - 53 - Possessions/Use/Sale - Vaping
 - 54 - Cyber Bullying
- New Adjudication Codes have been added to Behavior Resolution:
 - 7 - Withdrawal/Dismissal of Charges

- 8 - Found Not Guilty
- New Injury code has been added - 5: Resulting in Death.
- On the Behavior Resolution screen, when the Arrest Code is YW or YN, the Adjudication Code is required.

The following updates have been made to the PIMS Incident Victim Template:

- When the Behavior Role is Victim and the State Event Code for the victim is 17: Fighting, a victim record is not sent.
- Logic has been updated for Field 9, Injury Severity Code:
 - Reports 1 when the Injury is Null or 1: No Injury.
 - Reports 3 when the Injury is 2: Minor Injury or 3: Major Injury.
 - Reports 4 when the Injury is 4: Serious Bodily Injury.
 - Reports 5 when the Injury is 5: Resulting in Death.

The following updates have been made to the PIMS Incident Offender Infraction Template:

- Logic has been updated for Field 4, Infraction Code:
 - Reports A when the Event State Code is Academic Incident.
 - Reports C when the Event State Code is Conduct Incident.
- Logic for Field 6, Weapon Count, reports a value of 1 when the Event State Code is 39-46, and the Weapon Count text box is blank.

The following updates have been made to the PIMS Incident Offender Template:

- Field 9, Name of LLE Contacted, reports 'Local Police' if the LLE Office textbox is blank and when the Law Enforcement Involved field is Codes 2-6 (field 8 reports Y).
- Field 16 is now Primary Disability Code. When Field 5, Offender Type, is 2, the Primary Disability reports from the active enrollment or the most recent enrollment on the date of the incident. If Field 5 is not 2, Primary Disability does not report.
- Fields 17 and 18 are now filler fields and do not report.
- Field 19 is now Offender District of Residence. When Field 5, Offender Type, is 1, 2 or 3, the Resident District reports from the active enrollment or the most recent enrollment on the date of the incident. If Field 5 is not 1, 2, or 3, Offender District of Resident does not report.

The following updates have been made to the Incident Template:

- Field 8, Incident Time Frame, reports 2 when the Incident Place Code is 1: On School Property/Grounds (field 7) and the Incident Time Frame Code field is blank. If Incident Time Frame is not blank, the selected Time Frame code reports.

Pennsylvania Special Ed Updates (SIS-120352)

Several updates have been made to the Pennsylvania Special Ed module. Updates to the Evaluation include:

- New print formats for the ESR and ESR Re-Evaluation are now available for 2019 (PA ESR (SA) 2019 and PA ESR Re-Evaluation (SA) 2019).
- The footer of the printed version of both of the print formats have been updated with "July 2018."
- Validation has been added to the Team Member editor to only print the team members's name when the Involved checkbox is marked.

Updates to the IEP include:

- A new print format, PA IEP 2019, is now available.
- The footer of the printed version of both of the print formats have been updated with "July 2018."
- The Date next to the Procedural Safeguards Notice signature area has also been removed from the printed version.
- Additional verbiage has been added to the Team Meeting printed section so the note now reads, "As determined by the LEA as needed for transition services and other community services."
- The Transition Goals and Services now sort in the following order: Postsecondary Education and Training Goal, Employment Goal, and Independent Living Goal. These three tables always print, even if no data is entered in the editor.
- Verbiage on the State Assessments editor has been updated. The Reading and Writing sections have also been removed from this editor.
- The Plan Goals, Program Modifications and Specially Designed Instruction (SDI), Related Services, Supports for School Personnel, and Educational Placement editors's verbiage has also been updated on the print and UI.

The Copy function on the GIEP has been updated so the Services portion updates to account for the services free text fields.

The following Custom Forms updated have been made:

- The Procedural Safeguards Notice custom form was updated to a blank form.

Vermont - SLDS Extract Logic Updates (SIS-122550)

The following changes were made for SLDS reporting.

- A new checkbox called "Tuition Student" was added to the State Reporting Fields section on the Enrollments tab. Students who have this checkbox marked, are included on the 2_TS_Stu_ADMByEnrollingOrg extract and the 0_Student Identity extract on the Tuition Student Official (05) Submission. These students are excluded from all SLDS reports except for the 0_Student_Match and 1_TS_OrgLevel.
- Logic for the ENROGID field on the 2_TS_Stu_ADMByEnrollingOrg extract was updated to report from Enrollments > State Reporting Fields > New Place of Enrollment.
- Logic for the POSFTE field on the 11_POS extract was updated to report from District Assignments > Employment Assignment Information > FTE of Assignment. If the staff person has multiple assignments at one location, the FTE of Assignments are added together. 100% now reports as "1".
- Logic for the 11a_POS_RoleTable extract was updated. The EmpOrgid for all staff members that

have the Title "109: SPED Ungraded Teachers" or "112: SPED Paraprofessionals now report the ADMINID (State District Number) for the EmpOrgid and not the Organization ID. 100% now reports in the Role Percent field as "1."

- Logic for the following fields on the 4_PS_Enroll extract were updated.
 - NTRESNO now reports the Homeless Code if selected.
 - NSLELG now reports the Free/Reduced Code if selected.
- Logic for the following reports was updated to not include staff members if their District Assignment is marked as Exclude: 0_Staff_Identity, 11_POS, and 11a_POS_RoleTable.
- The 17_CIRS_Offenders report was updated to report the student's State ID Number in the off_IDNUM field.
- If a report has no student/school data reporting, the column headers for the report are still reported.
- Logic for the 1_TS_OrgLevel report was updated to only include students that have a funding source = 01: Operating School District (State Reporting Fields > Funding Source).

Assessment

Records Transfer – Assessment Import Failing to Import All Data Causing Sync to State to Null Fields Containing Data (SIS-122258)

The Records Transfer tool was incorrectly importing only data for fields existing in the Assessment Import UI and not all of the additional information that exists in the XML message sent from the releasing district. Importing the record as generating a DIS event sync message back to the State Edition and thus, updating and overwriting data existing at the State with this missing (null) data. This issue has been corrected. All fields from the releasing district's XML file will be imported and if a test is either a state or national test and is locked, a DIS event message will not be sent. If the state or national test is not locked, a DIS event message will be sent but the State Edition testScore.districtID and testScore.schoolID values will not be updated.

Assessment Publishing and Syncing Logic Update (SIS-120305)

The following logic used for publishing Test Structures and Test Score data from State Edition to District Edition has been updated:

- Publish Test Structure:
 - Only display tests that meet the following when a school year is selected in the Campus toolbar:
 - Test Year is set to the same school year in the toolbar
 - Test Year is blank
- Publish Test Scores
 - Only display tests that meet the following when a school year is selected in the Campus toolbar:
 - Test Year is set to the same school year in the toolbar
 - Test Year is blank
 - All test score data will be synced from State Edition to District Edition (parent, child, grandchild, etc), not just the parent test score record.
 - Logic will look at the selected school year in the Year field
 - If the assessment has years set and it matches the selected school year, send all test score records.
 - If the assessment has no year, verify the test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year. If any child(ren) test are missing a date, look at the parent test to verify the date.
 - If the test score record(s) does not have a date, look if the assessment has an end year that matches the selected school year. If it has no assessment end year, do not send the test score data.
 - When the correct testScore records have been identified, look at the student enrollment that matches the school year and then look at all of the student enrollments for that year and future years. Logic will then gather the districtID's from each enrolled district. When publishing the testScore record, logic will publish to each of the districts the student was enrolled at.
 - Assessment scores being published to the District Edition will do an insert of data if they do not already exist.
 - Assessment scores that have been synced from State Edition to District Edition and then deleted from the State Edition and then test scores published to the District Edition, test

scores for the deleted tests are removed from the District Edition.

Logic for syncing assessments from the District Edition to the State Edition has been updated to the following:

- Logic will determine what test scores will sync based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
 - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.
 - If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
 - If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
 - Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If test score data that has already been synced from District Edition to State Edition and the test score record(s) get deleted in the District Edition, they will be deleted from State Edition as well.

Logic for batch syncing assessments from District Edition to State Edition has been updated as follows:

- Logic for determining what test scores are synced is based on the selected school year and active DIS zone year.
- All test score data will be synced from District Edition to State Edition (parent, child, grandchild, etc), not just the parent record.
- Logic will look at the selected school year in the Year field and assessments that are defined as a State or National test that have been published down from the State Edition:
 - Logic will verify that test score data has a date range of 7/1/XX – 6/31/XX that matches the selected school year.
 - If the test score record(s) do not have a date, logic will look to see if the assessment has an end year that matches the selected school year.
 - If the assessment end year is blank and the parent test score record does not have a date, the test score record(s) will not synced to State Edition.
 - Assessment scores for the selected school year will be synced to State Edition and will do an insert of data if they do not already exist.
- If assessments that have been synced from District Edition to State Edition get deleted in the District Edition, a new batch sync is run and test scores deleted in District Edition are removed from State Edition.
- Logic only look five levels deep on test structures.

Logic for Records Transfer has been updated so that when a district uses the Assessment Import Wizard, the DIS message sent to the State Edition does not overwrite existing records for tests that are State or National, locked or unlocked.

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

Questions or concerns regarding an update should be directed to Campus Support.

Check out the list of [New and Updated Documentation](#) for this release.

For additional information platform support, see the [Supported Platforms](#) article.

To Do - This Release

- The [Mailing Labels Report](#) has been significantly enhanced, with options to generate labels for Guardians, Teachers, Staff and District Staff, in addition to generating labels for students. Personnel responsible for generating mailing labels should consult the Product Documentation available on the Knowledge Base for detailed information and guidance. ([SIS-119737](#))
- A new [Teacher Schedule Report](#) has been added to Campus Instruction. Give teachers tool rights to this report to allow them to generate printable versions of their own schedules. ([SIS-122983](#))
- The Academic Progress Planner HTML field is NOT available in Campus Student/Campus Parent. Because of this, it is being removed from the [Portal Display Options](#) in a future release. If you have text in this field that displays on the existing Parent Portal, please consider moving this text elsewhere.

Academic Programs

Course Plan Display in a Program without Credit Requirements (SIS-118006)

When a student is assigned a Graduation or CTE Program that does not have any Credit Requirements, the Course Plan in Campus Student does not load, and the Course Plan tool does not load for the counselor. This has been corrected.

A note has been added to the Course Plan in Campus Student and the Course Plan tool associated with the program indicating the selected Graduation or CTE Program does not have any credit requirements. To correct this, the counselor needs to update the Credit Requirements tool associated with the Academic Plan.

Course Planning Rules (SIS-122325) [Enhancement]

Two new Planning Rules are now available.

- Course Rotation allows courses to be planned in specific years based on the entered interval and starting school year. For example, a course that is only available every third year has an interval of three. Parents and students are unable to plan these courses in off years.
- Grade Level allows a course to be marked for specific grade levels and restricts planning of that course by parents or students to those grade levels.

Counselors do have the ability to override these rules as they do with the existing planning rules.

Assessment

Percentile Value of Parent Test Incorrectly Overwriting Percentile of Child Tests (SIS-123085)

Initiating a save on a parent or corresponding child test was incorrectly causing the Percentile value on child tests to be overwritten with the Percentile value existing on the parent test . If the parent test had a null Percentile value, existing Percentile values on child tests were being set to null. This issue has been corrected.

Campus Student & Parent Updates (SIS-122127) [Enhancement]

The following updates have been made to Campus Student and Campus Parent:

- Updated login page of web applications. NOTE: This change applies to all login pages, including those for staff.
- Updated Attendance to include the attendance Description and Present codes if applicable.
- Updated the display of the Message Center.
- If students have multiple enrollments, tools have been updated to display active enrollments first.
- A banner has been added to the Today screen that includes student picture, number, calendar name, and grade level.
- Added the Access Log to the User Account area, with an enhanced design to improve clarity.
- Various other bug fixes and cosmetic changes.

Additionally, a new tool was added to System Administration called Login Page Preferences, which is used to configure the text and options that display on all login pages, including those for parents, students, and staff. From this tool, schools can enable New User account creation for parents.

Census

Census Mailing Labels for Guardians, Teachers, Staff (SIS-119737) [Enhancement]

The Mailing Label Report can now be generated for Guardians, Teachers, Staff and District Staff, in addition to generating labels for students.

- **Guardian** labels print the name(s) of the guardian who has a guardian relationship with the student and the mailing checkbox marked on the household address and on the relationship.
- **Teacher** labels print the name of the teacher who has an active District Assignment record and the Teacher checkbox marked, or if using Campus HR, an active Work Assignment and a role of Teacher selected. Teachers must be in a household that has an address marked as mailing (for Campus HR, the address must be marked as HR Mailing).
- **Staff** labels print the name of the staff person who has an active District Assignment record, or if using Campus HR, an active Work Assignment. Staff must be in a household that has an address marked as mailing (for Campus HR, the address must be marked as HR Mailing).
- **District Staff** labels print the name of the district staff person who has an active District Employment and no District Assignment record, or if using Campus HR, an active Work Assignment. Staff must be in a household that has an address marked as mailing (for Campus HR,

the address must be marked as HR Mailing).

Existing functionality for generating student labels has not changed. Student labels can be generated by selecting a Grade level or a Course/Section. The only difference between student labels and guardian labels is the ability to print the salutation on the student label (To the Parent/Guardian of: option).

In addition to the added report options, the following modifications have been made:

- The option to **Print Labels for Student or Household** has been removed, since labels can now be printed for guardians.
- Users can now select a **Starting Position** for the Row and Column to begin printing.
- The Enrollment Effective Date field is now **Effective Date** and is available for all report types.

DIS/SIF

SIF StudentSchoolEnrollment/Homeroom Element Logic Update (SIS-89014)

Logic for the StudentSchoolEnrollment/Homeroom element has been updated to include the following:

- The homeroom RoomInfo RefId must reference the RoomInfo associated with the latest section the student is enrolled in as of the current date.
 - When the student has more than 1 homeroom section they are enrolled in during the same term or day, the RoomInfo Refid from the section with the student's latest section enrollment Start Date is reported.
 - When the student is enrolled into more than 1 homeroom section during the same term or day and more than 1 section enrollment has the same Start Date, the section with the latest End Date (or null End Date) is reported. The null End Date takes priority.
 - When more than 1 homeroom section has the same latest End Date, the section with the highest section ID is reported.
 - When the current days is greater than the homeroom section's term date range, the latest homeroom the student was last enrolled in is reported.
 - These changes apply to both SIF events and SIF batch.

Infinite Campus Application Service (ICAS) Update 1.0.4 (SIS-122255)

Infinite Campus Application Service (ICAS) package 1.0.4 is now available. Included in this package is the following updates to critical system applications and services:

- Apache Tomcat - 8.5.32
- Oracle Java – JDK 1.8.0_181
- Apache Log4j2 – 2.11.1
- Microsoft JDBC Driver – 7.0.0 jre8
- Apache Jvisual – 1.4.1
- LogStash Gelf Appender – 1.11.2
- NI02 Connector for HTTPS
- URLEncoder to default to UTF-8
- Max Memory increased to a default of 8GB

Campus Cloud, Cloud Choice, and In-District customers will have the ICAS package installed automatically during the update to Campus.1901.x.

Self-hosted customers will need to install the ICAS package before or after updating to Campus.1901.x. For more information on how to install the ICAS package, please see the instructions posted to the Self Hosted forum.

Due to dependencies, districts MUST update to Campus.1841.1 or greater prior to taking Campus.1901 and the newest ICAS package. This applies to ALL environments on a given server: Production, Sandbox, or Staging.

Transcript

Transcript Report Preferences and eTranscript Updates (SIS-96189) [Enhancement]

Transcripts

The following modifications have been made to Report Preferences for Transcripts:

- Additional options for including In-Progress Courses on the Transcript have been added. Options can also be marked to not include In-Progress Courses from previous years (Exclude Previous Years) and to include In-Progress Courses that exist for any future term in the current year (Include Future Courses).
- If a previous course number or course name is changed, and transcripts were posted using the Transcript Post tool, the course displays correctly. If a transcript record was manually entered for a student with the previous course number or course name, that course may show as in progress. This happens because there is no section ID to attach to the record. To eliminate this from happening, mark the Exclude Prior Years for In-Progress Courses.
- One-time grading tasks are included in the In-Progress credit total.
- In-Progress logic follows standard date logic, which is that a course is considered in progress until midnight of the entered end date. If a student drops a course or is no longer enrolled on Tuesday the 12th, the student is still active in that course until midnight of the 12th.

eTranscript

- On the PESC XML Layout, future In-Progress Courses previously sent as InProgress. This now sends as NotYetReported.
- The Electronic Release History log has been increased to 4000 characters, and the window on the eTranscript Batch that indicates an error has also increased.

Montana – Days Absent Logic Modifications Made to EOY Attendance Totals and Enrollment Tab (SIS-118616) [Enhancement]

The following updates were made to the EOY Attendance Totals Import/Export:

- The ESA Days Absent field will no longer allow for values higher than 200 days.
- The error message stating the ESSA Days Absent field can be at most 4 characters has been revised to state 3 characters.

Also, the ESSA - #Days Absent field on the Enrollments tab has been updated to allow for a null value.

Along with this update, a conversion script will be run to clear EOY Attendance Totals on all enrollment records tied to calendars where the Start Year of the school year is greater than or equal to 2018. The script will use the following logic:

- All values will be cleared for the ADA - #Days Present, ADA- #Days Enrolled, and ESSA - #Days Absent fields.
- The script WILL NOT clear EOY Attendance Totals for any enrollment records tied to calendars which have a start year of 2017 or earlier.

Oklahoma – SIF StudentDailyAttendance Object Updated to Populate Correct Attendance CodeInfoRefId (SIS-112695)

Logic for the SIF StudentDailyAttendance object (Oklahoma and Core users) has been updated to include the following:

- When a student has any attendance code(s) assigned to a day that are not included on the zone's Attendance Code Allowed List, and when the StudentDailyAttendance record is reported for the student and day:
 - The AttendanceCodeInfoRefId reported must consistently be for an attendance code on the Attendance Code Allowed List.
 - The AttendanceCodeInfoRefId reported must be the same RefId reported when there are no attendance codes in the Attendance Code Allowed List.

- The AttendanceCodeInfoRefId reported will consider all absent attendance codes assigned to the day (Status = A, Excuse NOT = X), where:
 - When the sum of all periods with an absent attendance code qualifies the student's day to be a full day absence, the full-day absence version of the RefId for the AttendanceCodeInfoRefId will be reported.
 - When the sum of all periods with an absent attendance code qualifies the student's day to be a half day absence, the half-day absence version of the RefId for the AttendanceCodeInfoRefId will be reported.
- When the StudentDailyAttendance SIF Delete event is triggered, the AttendanceCodeInfoRefId is not tied directly to an AttendanceCodeInfo (It will not match).
- StudentDailyAttendance reports only for Absent/Not Exempt attendance codes.
- When the period for the student has Code = Blank and Status = Absent:
 - If the student qualifies to report half day (0.5) absent:
 - StudentDailyAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 0.5 in the calendar.
 - When the calendar does not have an Absent attendance code with Excuse = Unknown, report the RefId for the attendance code in the calendar with Status = Absent and Excuse= Unexcused that has AbsenceValue = 0.5.
 - When neither an Absent/Unknown nor Absent/Unexcused attendance code exists in the calendar, do not report the absence.
 - If the student qualifies to report full day (1.0) absent:
 - StudentDailyAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 1.0 in the calendar.
 - When the calendar does not have an Absent attendance code with Excuse = Unknown, report the RefId for the attendance code in the calendar with Status = Absent and Excuse= Unexcused that has AbsenceValue = 1.0.
 - When neither an Absent/Unknown nor Absent/Unexcused attendance code exists in the calendar, do not report the absence.
- When the period for the student has Code = Blank and Status NOT = Absent, the period must not count toward the student's absence minutes.

Logic for the StudentPeriodAttendance object has been updated (Oklahoma only) to include the following:

- When the period for the student has Code = Blank and Status = Absent:
 - StudentPeriodAttendance/AttendanceCodeInfoRefId must match the RefId for the Absent/Unknown AttendanceCodeInfo object with AbsenceValue = 1.0 if exists in the calendar.
 - Otherwise, the RefId for the Absent/Unexcused attendance Code with AbsenceValue = 1.0 if exists in the calendar.
 - If neither attendance codes exist in the calendar, do not report.
 - StudentPeriodAttendance reports only for Absent/Not Exempt attendance codes.

Pennsylvania - PIMS Staff Extracts Reporting Updates (SIS-121454)

The following reporting updates have been made for Pennsylvania:

- A new Alternate School Number field has been added to the School Editor. When populated, the entered school number is used for reporting purposes, instead of the number entered into the State School Number field. (System Administration > School > Resources)
- New Assignment Codes for staff have been added (Census > People > District Assignment):
 - 8416 - Science, Staff Coach
 - 9220 - Special Ed, Staff Coach
- School district 8442: West Green JSHS is now available for selection for Resident School (Student Information > General > Enrollments > State Reporting Fields).

The following modifications have been made to all PIMS Staff Reports:

- When the Exclude checkbox is marked on the District Assignment record, the staff person is not included in any reports.
- For the October Reporting Period, staff are not reported when the District Employment Qualification Status is populated. The Staff ID reports from the Demographics tab. *This change applies to all staff reports except Staff Student Subtest.*
- For the June Reporting Period, all current reportable staff are included, even when the District Qualification Status is populated.
 - When populated, the Staff ID reports from the License Number field(SS + license number) on the District Employment record. If this is null, this reports from the Staff State ID field (SS + staff state ID number).
 - When District Employment Qualification Status is not populated, Staff IF reports from the Staff State ID field. *This change applies to all staff reports except Staff Student Subtest*
- Staff ID on the Staff Student Subtest and Staff Student Course Extracts reports from the State Staff ID field for all reporting periods.

The following modifications have been made to the PIMS Staff Template and Staff Snapshot Template:

- Field 3, SSN, is now a filler field for all reporting periods.
