

Trice

Two Factor Authentication

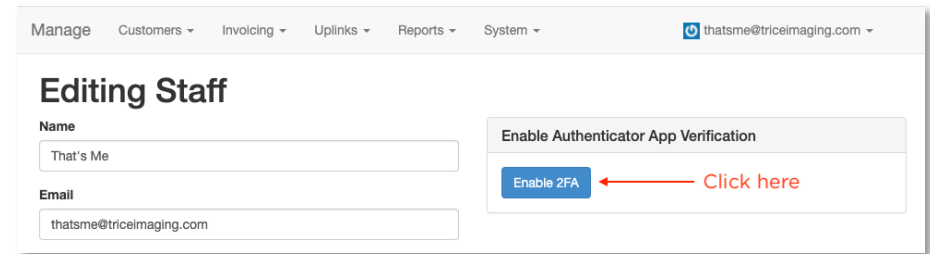

1. What is two factor authentication?
 - Short video explanation:
<https://www.youtube.com/watch?v=0mvCeNsTa1g>
2. Turn on 2FA in new-manage
3. Configure the Authy app on your phone
4. Test it out

2. Turn on 2FA in your new-manage user preferences

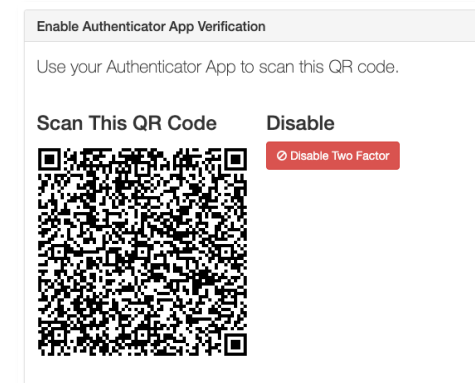

- Within new-manage, click on the menu in the upper right and select “Your profile” in the drop down

- In your profile page click on the "Enable 2FA" button

- 2FA is now enabled, **KEEP THIS PAGE OPEN FOR THE NEXT STEPS!**
- Time to move over to your phone to configure the authentication app

Using Authy

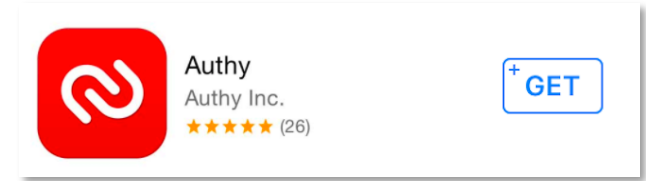

3. Configuring 2FA using Authy

Download the Authy app on your phone

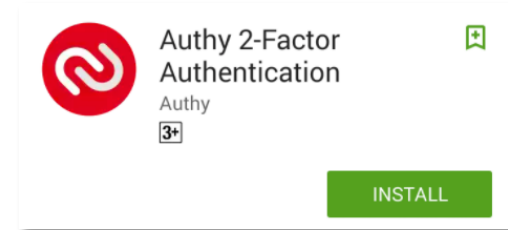

For iOS

<https://itunes.apple.com/us/app/authy/id494168017>

For Android

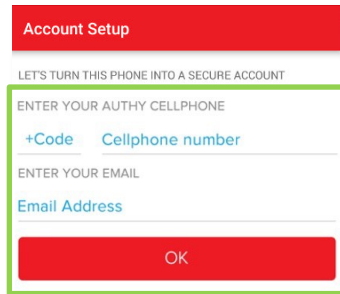

<https://play.google.com/store/apps/details?id=com.authy.authy>

3. Configuring 2FA using Authy

Input your phone number and email to create an Authy account and send a verification code via SMS

More info: <https://authy.com/learn-more/>

Account Setup

LET'S TURN THIS PHONE INTO A SECURE ACCOUNT

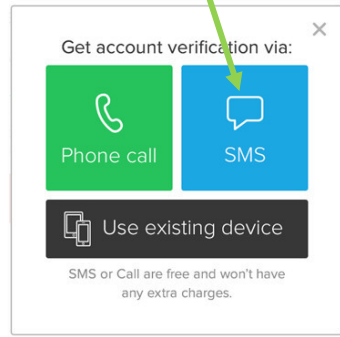

ENTER YOUR AUTHY CELLPHONE

+Code Cellphone number

ENTER YOUR EMAIL

Email Address

OK

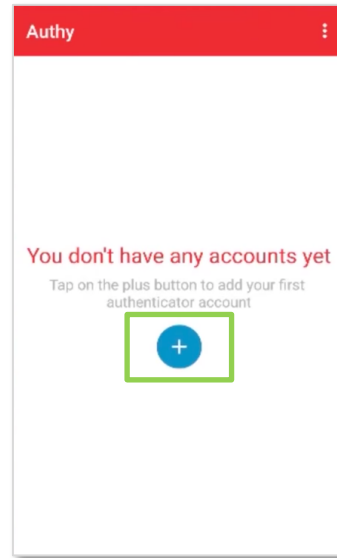

Get account verification via: ✕

Phone call SMS

Use existing device

SMS or Call are free and won't have any extra charges.

After activating your Authy account with the registration code, tap the plus symbol

Authy

You don't have any accounts yet

Tap on the plus button to add your first authenticator account

+

Tap the "Scan QR Code" button and use the camera to scan the QR code on your computer screen, proceed to step 4

[Authy Guide](#)

Cancel Add Account

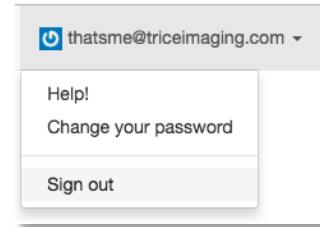

Scan the QR Code on the website where you are enabling 2FA.

Scan QR Code

No QR code? [Enter key manually.](#)

4. Test it out

- Go back to your computer and sign out of new-manage
- Sign into new-manage as usual

Sign In
