

BE THERE With Recover Care at Home's Family Room Online Care Portal

We understand how stressful it can be to have a loved one that needs help living independently. Additionally, during this time, we know the need to social distance makes those stressors more apparent.

At Recover Care at Home we want to alleviate some of those stresses by giving you real-time transparency to the care process by helping to ease some of the logistical burdens with our online Family Room portal.

With the Family Room (available to you at no extra cost), you will be able to access records of care online from any device with internet access. Additionally, you and other family members can use a shared calendar to coordinate between yourselves and track visits scheduled by your caregivers, as well as to track invoices.

How does this work?

Once you receive an emailed invitation giving you access to our online Family Room portal, you will be able to do the following:

- a. Keep live track of caregiver status updates
- b. Coordinate and schedule events with other family members
- c. View your invoices online

As mentioned above, these services come at no extra cost to you. They are a part of our mission to provide the best possible care to your loved one and to empower you with the ability to care for them as well.

Keep track of status updates in real time, listen to caregiver comments, and know that your loved one is in good hands

Coordinate events with family members

Access your invoices online
