

Biodiversity Musical Chairs Rules

Life Science (Lower Middle)
Unit 4

Biodiversity Musical Chairs Rules

1. In order to survive in each round, you must find a chair with the energy source that allows your organism to survive.
2. When the music starts, walk around the chairs/ecosystem as normal.
3. When the music stops, you must find the chair that has your organism's energy source and sit in it. Only one organism/player can sit in one chair at a time.
4. If you no longer have an energy source/chair available or there are not enough resources/chairs with your energy source, you are eliminated from the game/ecosystem.
