Improved Functionality

[A] Security Update to Embedded Web Browsers within OP

➤ *Several*

This release includes a security update to underlying components of embedded web browsers in OP that launch various ePrescribing windows and other integration windows such as those for Anytime Pediatrics, eLabs, and Financial Dashboards. There are no visual or performance changes to the interface and all workflows remain unaffected.

Resolved Issues

Issue: Unit of Measure was not included for COVID vaccines in claim files which resulted in claim rejections.

Resolution: COVID vaccines include the appropriate Unit of Measure in claim files.
