

## REST Professional Version 17 General Release Notes

### Version 17.0.04 – General Release

Domain web advertising	An issue with some residential listings not uploading via Domain web advertising feeds has been resolved.
------------------------	---

### Version 17.0.03 – General Release

Bank Reconciliation Adjustments	When the system's regional date format was configured with the short data format of <i>dd/mm/yy</i> , modifying Bank Reconciliation Adjustments could result in transaction dates not displaying in the adjustments grid. This issue has been resolved.
Tenant Download	When Tenant Download is configured with the bank symbol NABC, transactions with the new code of 399 will be processed successfully and receipts will be allocated based on the information contained in the file. Please note: transaction code 399 has been implemented to work for bank symbol NABC only, and does not impact other NAB bank symbols.
REI Forms Live QLD (Realworks)	The following RTA forms have been made available via REI Forms QLD (Realworks) integration in REST Professional: <ul style="list-style-type: none"> <li>– Change of rental property (Form RTA03)</li> <li>– Change of property manager/owner (Form RTA05)</li> <li>– Change of bond contributors (Form RTA06)</li> <li>– Rooming Accommodation Condition report (Form RTAR1)</li> <li>– Rooming Accommodation Entry notice (Form RTAR9)</li> <li>– Rooming Accommodation Notice to remedy breach (Form RTAR11)</li> <li>– Rooming Accommodation Notice to leave (Form RTAR12)</li> <li>– Rooming Accommodation Notice of Intention to leave (Form RTAR13)</li> <li>– Rooming Accommodation agreement (Form RTAR18)</li> </ul>
REI Forms Live NSW	The <i>Notice of Access/Inspection/Entry</i> form has been made available via REI Forms NSW integration in REST Professional.
Web Advertising	When uploading properties via Domain Web Advertising, the property class saved in REST Professional (e.g. Residential, Commercial) will be included in the XML file under the new Property Type tag of <i>Channel</i> .

**Version 17.0.02 – Beta Release**

Web Advertising	<ul style="list-style-type: none"> <li>– Properties uploaded via Domain Web Advertising will only display decimal places if the rent amount is not a whole number.</li> </ul> <p>For example:</p> <p>\$400 p/week will display as \$400 p/week \$400.55 p/w will display as \$400.55 p/week</p> <ul style="list-style-type: none"> <li>– Advertised properties saved in REST Professional with no Open date will now be uploaded correctly via REIWA Web Advertising.</li> <li>– When uploading properties via REIWA Web Advertising, the <i>Full Name</i> field was previously used in the advertisement. A change has been made to use the <i>First Name</i> and <i>Last Name</i> if saved in REST Professional, and only use the Full Name if the First Name and Last Name is not populated.</li> </ul>
Water Usage Invoicing	An issue when using the <i>F12</i> keyboard shortcut to save a Water Usage invoice and opting to allocate Tenant Invoice Credit when prompted has been resolved.
Audit Report	The <i>Chq Date</i> column in the Audit report has been changed to display as <i>Paid Date</i> .
REST Help menu	The Management Spreadsheet Sample has been removed from the <i>REST Help &gt; What's New</i> menu.
Reversing Transactions	When reversing ABA and BPay files, using the <i>Back</i> button will now clear the reference number if already entered, and prompt the user to enter the reference number again to ensure the value is cleared and the correct file is reversed.

**Version 17.0.01 – Rockend Internal Release**
