## Release Contents

### [Issue Resolution](#)

[2](#)

Before submitting a case highlighting release issues, we recommend reviewing the [Post-Release Support Trend Updates](#) to see if your issue has already been reported. If it has, there is no need to create another case.

*All content is subject to change.*

### Issue Resolution

**Issue:** When selecting the Validate button for various insurances a “List index out of bounds” error was displayed.

**Resolution:** Selecting the Validate button for insurances no longer generates a “List index out of bounds” error. The information will populate OP as expected.

**Issue:** When creating a new patient record in OP, not all are moving to the IntelliChart Patient Portal.

**Resolution:** When a new patient record is created in OP, that patient record will move to the IntelliChart Patient Portal.
