PIN Generation

Here's a great resource that your practice team can use when assisting families: [generate a PIN in OP](#).

Enabling Live-scheduling for Flu Clinic Appointments

You can use the live-scheduling functionality on the portal to provide flu clinic appointments. To do so you will need to make setup changes in both OP and the IntelliChart Practice Portal. Click [here](#) to access all set up resources. If you're especially concerned with high-volume and want to be able to accommodate several patients at one time, pay special attention to the **Duration** setting located in the "**Create an Appointment Type for Flu Clinic**" section of [Flu Clinic: OP Setup](#).
