

MODULE VI LEARNING LAB: Learning Objectives

- Participants will complete a Family Case Plan in SACWIS.
- Participants will know how information in SACWIS is organized in the Family Case Plan.
- Participants will include family participation and perspectives in Family Case Plans.
- Participants will document Family Case Plan Concerns based on the risk contributors identified in the assessment of Strengths and Needs.
- Participants will document the behavior change necessary to reduce risk of future maltreatment and enhance child well-being in Family Case Plans.
- Participants will document participant and caseworker activities and corresponding services necessary for behavior change in Family Case Plans.
- Participants will document how Case Services in the Family Case Plan will help the family achieve the desired behavior change.
- Participants will document how the family's progress will be measured and reviewed in Family Case Plans.
- Participants will identify non risk contributors from the Family Assessment that can be used as family strengths in Family Case Plans.
