

Developing Action Steps

What Steps will the family take to achieve what the family and caseworker want to see happen? Identify the individuals who will complete these action steps. (Services to address the needs/concerns)

Clearly describe the services and action steps the family will need to complete to achieve this goal. Include steps the caseworker/agency will take to assist them. Provide an explanation of how the service and/or action step will help the family and reduce risk contributors identified in this concern.
