CALLING IN DESKTOP

The screenshot displays the Movius Multiline desktop application interface. On the left is a dark sidebar with navigation icons for Calls, Messages, Contacts, Settings, and Support. The main area is divided into three sections: a 'Calls' list on the left, a contact profile for 'Gary Christensen' in the center, and a 'Calls History' table on the right. A dialer is visible on the far right. Red callout boxes with numbers 1 through 3C are placed over various UI elements to indicate their functions.
