We are committed to providing new functionality to support you in servicing your clients and to provide opportunities for you to optimize efficiency within your office environment.

This document describes exciting new features and enhancements available in the above release.

A history of Release Notes can be reviewed on the StrataMax Online Help

THE COMPLETE STRATA MANAGEMENT SOLUTION

StrataMax   StrataCash   TRATAPAY

What's New

1.   Meeting Hub Enhancements

1.1   Merge Fields

- Collections of new merge fields have been added for the following categories
    o   Vote Outcomes
    o   Meeting Attendance
    o   Meeting Committee Members
- New sorting and filtering criteria have been added for list merge fields

Please be aware that you will need to edit your Standard Meetings and delete the existing [Template Groups](#) then add the new Template Groups for the minutes.

1.2   Merge Field Editor

- Available merge fields can now be filtered by search text

What's Better

- Minor enhancements have been made to the web API to add budget information
- Periodic Payment details will now be properly shown if the building is receiving SCM Term Deposit statements for the same building
- An error where the wrong font style and size being applied to HTML merge fields in templates has been fixed
- An issue where the NameAndAddressAuto merge field does not retain indentation in meeting hub document generation has been fixed
- Changes to cover letter merge letters documents made via the Meeting Hub Document Distribution screen are backwards compatible with recent Meeting Hub document generation enhancements
