Wha	ıt's New	3
1.	Process Bank Statements – St George	3
Wha	ıt's Better	4

## What's New

## 1. Process Bank Statements - St George

Enhancements have been made to import St George (STG) banking once banking files are downloaded daily using 'Process Bank Statements' icon as shown below:

The Process Bank Statements module is designed to give the users a central point to view and action daily banking for all buildings and all banks.

## What's Better

- Meeting Hub Document Generation Unicode quotation marks in conditional statements (IF...THEN...ELSE) will no longer truncate the output.
- Meeting Hub Document Generation Specific error message will now show when MS Word generates the error "Fields are nested too deeply".
- Enhancements have been made to Utility bills/ New Style Template to output in line with legacy templates.
- StrataMax Web API new endpoint for levy summary which will report all levies including unstruck and ungenerated levies by building.
- ResVu Alternative ResVu link if API key exists
- When Deleting a user from Security with an Import Pin, the Import Pin will now be removed from UserAccountInfo
- Enhancements have been made to allow Non-SCM banks to import banking in Process Bank Statements even if statement data has been received for all accounts already
- Utility Bills Issues have been resolved where the 'Total this Bill' was being truncated if the total was over \$1000.00
- Changes have been made to prevent the same bank account from being entered on two buildings
- Bank Account setup is no longer available in subgroups
