Office Practicum Release Notes

Version 20.16 Build .23
(OP 20.16.23)

Release Availability

💻 **On-Premise**: July 14, 2022, following the standard availability announcement

☁ **Cloud**: Cloud Practices will receive email communication regarding the availability of this release. To see which version of OP your Practice is currently running, navigate to **Help tab > About**, and refer to the **Build number** field.

Release Contents

Before submitting a case highlighting release issues, we recommend reviewing the **Support Trends** to see if your issue has already been reported. If it has, there is no need to create another case.

All content is subject to change.

Issue Resolution with Medical Implication

The minimum age for HepB dose #2 has been updated to 4 weeks when a combo is given. Now, when a patient has two valid HepB immunizations and a combination vaccine is given as the third HepB, dose #2 remains valid.
