Enhancements   **Resolved Issues**

NextStep Solutions Enhancements

Forms/Notes	
Accept or Deny Proposed Amendments *Navigation Menu > Maintain Users*	A new Process Permission, **Enable to Accept or Deny a proposed amendment to any form or note (all clients)**, has been added to Maintain Users. When enabled, a user can Accept or Deny a proposed amendment made by any user for any client. Also, the Process Permission, **Enable to Accept or Deny a proposed amendment to form or note**, has been updated to, **Enable to Accept or Deny a proposed amendment to form or note (user caseload)**. When enabled, a user can Accept or Deny a proposed amendment for their user caseload. If the new permission is selected for a user then the permission, **Enable to Accept or Deny a proposed amendment to form or note (user caseload)**, should be deselected.

Resolved Issues

Issue: When an Admission time was set on the Face Sheet, the Admission time was reverting to 12:00 AM once exiting the field. **Resolution**: Admission times on the Face Sheet will work as expected.
Issue: When the application timed out while a user was on the Main Menu, the Navigation Menu was inaccessible once the user attempted to log back in using the pop-up window. **Resolution:** When a user needs to log back into the application using the pop-up window, the Navigation Menu will display as expected.

* Indicates the feature must be requested to be configured by a NextStep representative.
When requesting the feature, refer to the *[bracketed name]*, if listed.
