

Release Notes – Version 5.6.61

StrataMax has been dedicated to meeting the needs of Strata Managers for over 30 years through the continual enhancement of our software suite. We are committed to providing new functionality to support you in servicing your clients and to provide opportunities for you to optimize efficiency within your office environment.

This document describes exciting new features and enhancements available in the above release.

A history of Release Notes can be reviewed on the [StrataMax Online Help](#)

THE COMPLETE STRATA MANAGEMENT SOLUTION

What's New.....3

1. Roll – Office Bearer Identification.....3

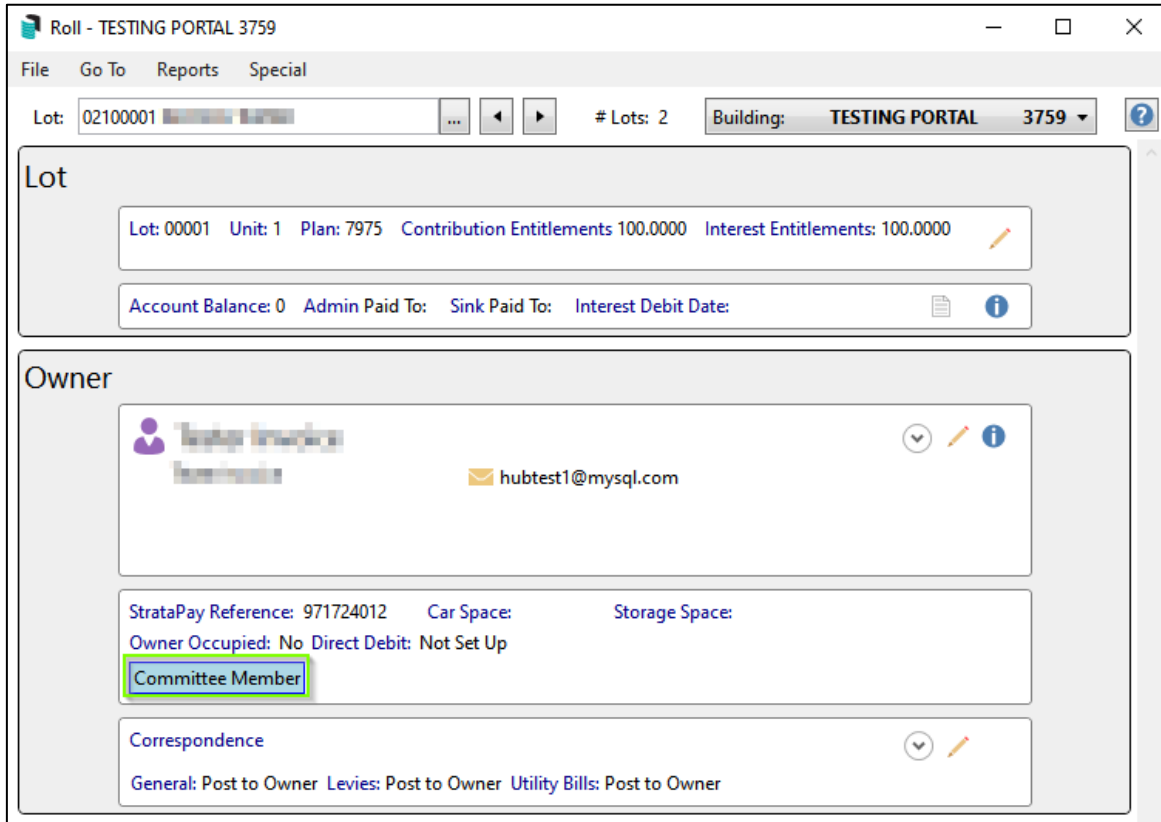

2. StrataCash Hub.....4

What's Better5

What's New

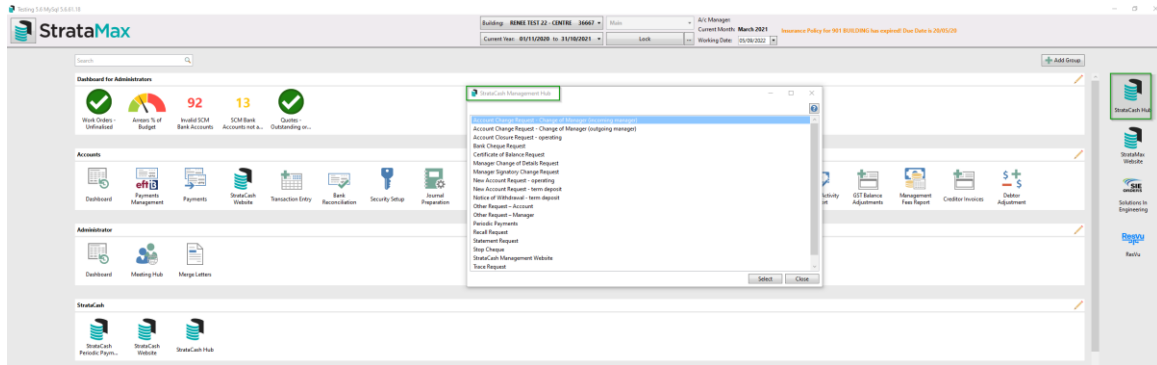

1. Roll – Office Bearer Identification

Committee Members will now be identified in the Owner Details screen if they have been added to Office Bearers from the Roll. "Committee Member" will be displayed regardless of the position held.

2. StrataCash Hub

StrataCash Hub has been enabled for all clients with this update and is a direct replacement of the old StrataCash menu. This new enhancement will streamline access and requests to the StrataCash team. The icon may be location on your StrataMax desktop or found using StrataMax search.

What's Better

- Deposit Slip – error resolved when producing a deposit slip for a second debtor ledger card with reference numbers
- When deleting a current owner from the roll the system will now show the last current owner from history instead of the original owner in historical view mode
- Roll - Query Legal Action - If there is more than one record for a lot in legal action the system was crashing when the lot was selected. This has been resolved. The system does prevent accounts being added more than once.
- Arial Professional STL3 Financials reports corrected when sent to excel
- Status Reports - Creditor Payments were outputting Invoice Amounts rather than Payment Amount when part payments were being processed.
- Bank Rec Report has had data handling improvements
- Bank Rec – issue when reversing a payment from a prior financial year has now been resolved
- STG Statement import will no longer crash if BPAY EnergyAustralia is present in the file
- Enhancements have been made to receipt saving to improve the performance and speed.
