And now, the fun can really begin – creating your Custom Vid menu!

THE SKY IS THE LIMIT

The best part about Custom Vids is that you get full control of what your fans can request. From the duration and price to special acts and added objects, you can completely **tailor your offerings** to best suit what content you want to make.

SCRIPT - Let fans get creative and write you a detailed description of their fantasy, providing you an original script to follow during your Custom Vid.

PACKAGES - You can offer multiple different packages based on the duration (in minutes) and price – the cost-per-minute will be automatically calculated for you on the service.

RESOLUTION - While all Custom Vids are available at Standard resolution for no extra cost, you have the option to offer the final vid at higher resolutions for different prices.

EXTRAS - Tailor your Custom Vids menu to the fullest. Whether it's a special act or a specific object, the choices are completely up to you! You decide the price for each extra and can even choose to offer certain options for free.

EXCLUSIVITY - Set a price to make the Custom Vid exclusive for the buyer's eyes only! Otherwise, you can publish the vid to your MV Profile for other Members to purchase as well.

TIMING - You can offer to deliver your Custom Vids in a faster timeframe for a higher price. If ever you anticipate any delays in creating a Custom Vid, be sure to notify your fans. You're only human, and life can sometimes get in the way – just be sure to keep your customers informed!

SPREAD THE WORD FAR AND WIDE

Let your fanbase know you offer Custom Vids on MV by **spreading the word on your social networks!** You can share details about the kind of content you're making and, if they aren't exclusive, you can highlight Custom Vids you have already made on your MV Profile and social feeds.

Not only will this **catch your audience's attention**, but it will also start revving up their imaginations.

YOUR MENU. YOUR RULES.

Remember, **the rules are yours to make**. Just because it's a Custom Vid, it does not mean that you have to do anything you're uncomfortable with. So, feel free to decline certain requests and fantasies if they don't align with your own interests.

**IT MIGHT BE A COLLABORATION,
BUT **YOU'RE IN FULL CONTROL.****

COLLABORATING WITH YOUR AUDIENCE

Every Member who visits your MV Profile could be a potential customer. While it's important to **be clear about what you're willing to include** in your Custom Vids and what you're simply not interested in, don't shy away from starting a conversation with your audience through the **MV Messenger** or your Inbox!

Ask them what they're looking for – some Members might want you to create content in a specific category that you hadn't previously considered but don't mind trying out!

THE ONLY DIFFERENCE IS THE DIRECTOR

Aside from any makeup, outfits, or props that you and your buyers have agreed to use in their Custom Vid, nothing is particularly different compared to the content you might create on your own. Don't feel pressured to invest in any new equipment, whether it's for production or performance!

There's a reason your fans want to buy your Custom Vids – they like what you do and how you do it!

HOW DO I UPLOAD A CUSTOM VID?

- 1 Upload the vid as you normally would.
- 2 When it has processed and is ready to be edited click the <Launch> option.
- 3 Click on <Yes> under Custom Vid Order. This opens a menu with all your pending Custom Vid orders.
- 4 Locate the **username of the Member** who ordered the vid and select them.
- 5 By default, the Custom Vid will not be published to your page and will only be available for the buyer. If you want to publish it publicly, select <Launch right away!> under the Available on MV section.
- 6 When you're ready to send it, click <Save> at the bottom.

The Custom Vid will be sent to the Member directly, published on your page if you've indicated so, and the funds will be released from our system into your earnings!

WHAT ARE YOU WAITING FOR?

Just like every other service on MV, Custom Vids offer you the **flexibility** to go as far as you want. They can easily connect you and your audience in an intimate and dynamic way, and they also make generating income super **simple and easy**!

And the best part of all? You're the one in complete control.
