InteliChart Release Notes
Version 3.5.21

InteliChart Version 3.5.21

On Friday, **November 18, 2022**, your InteliChart Patient Portal environment will be upgraded to version 3.5.21. The portal will be unavailable between 9:00 pm EDT to 9:00 am EDT the following morning. Please be aware, the InteliChart Patient Portal may be unavailable intermittently during the weekend to complete validation of the portal upgrade and additional work.
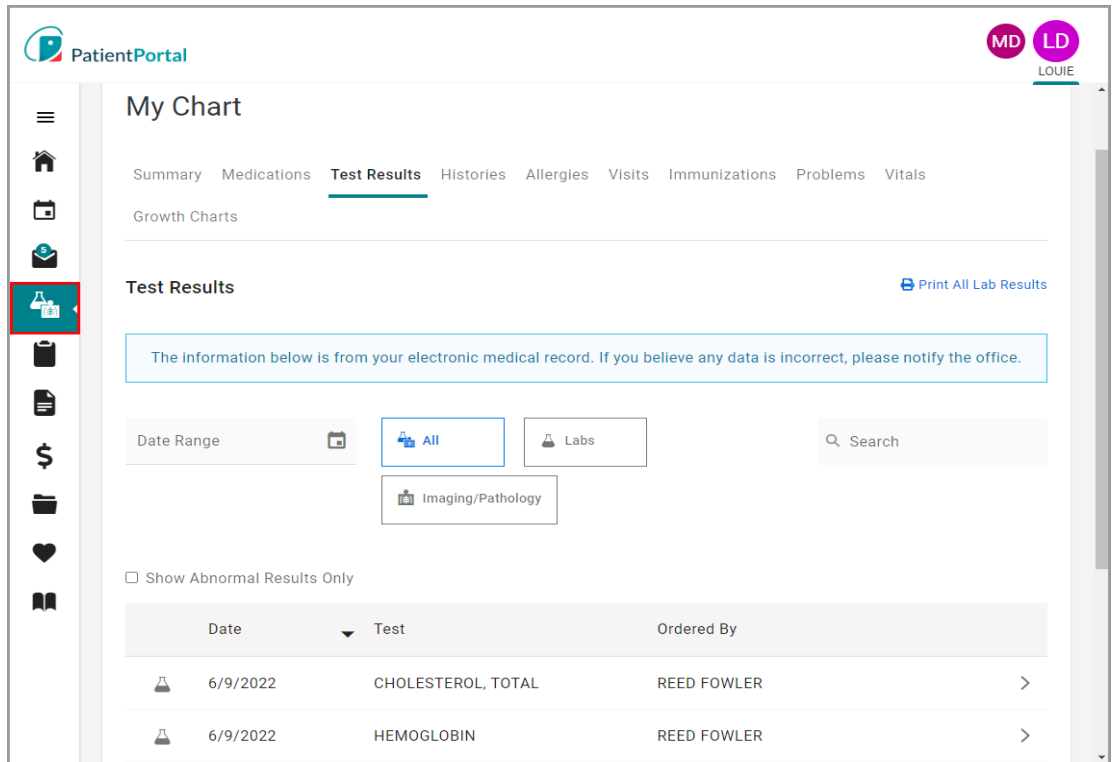

Enhancements: Patient Portal

Test Results
Patient Account > Main Navigation Panel > Test Results button or My Chart > Test Results

The Navigation panel was updated with a new image to access the Test results section of the Patient. Within the test results section, you will find the following updates:

- The Imaging Results button is now labeled **Imaging/Pathology**.
- The Lab Results button is now labeled **Labs**.

| **Home Page Updates** *Main Navigation Panel > Home Window*	The Patient Portal will now display an action Item and card to alert parents/patients that they have documents to review. The card will include the full patient's name and avatar.
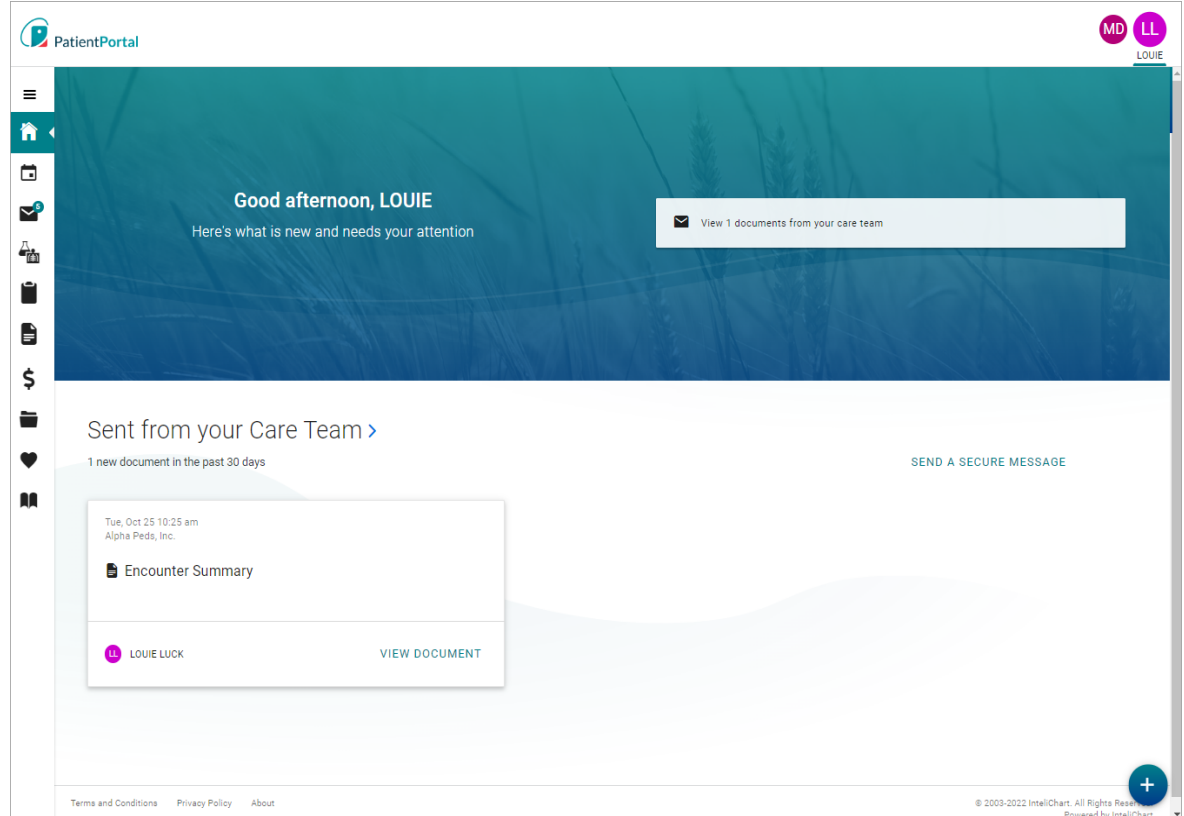

Enhancements: Practice Portal

Test Results Tab *Portal Management > Code Management > Test Results*	The Lab Test tab has been renamed **Test Results**.

Chart Summary: Documents *Patient Administration > Patient Chart > Chart Summary > Documents*	Practice staff can now view and search for documents that were shared to a patient's portal. Once a document is selected to view, it will be downloaded. **Note:** This excludes documents with higher visibility.
NPI *(Optional) Portal Management > General Settings*	NPI fields have been added to the Practice Portal for compliance with 21st Century Act and USCDI VS1. This field pertains to the Medical Group/Organization and is not for Individual NPI numbers.

Enhancements: OP Notify

Opt-Out Message *Patient Notify > Events > Text*	To add clarity, the default OPT-OUT text message verbiage has been updated to: "MSG&data rates may apply. Reply Stop to opt-out of text alerts." **Note:** For anyone who Opted-out of receiving text messages, they must text ***UNSTOP*** to the same phone number the practice used to send these text messages. If the patient/parent is unable to do so, the practice must contact OP support on behalf of their client.
