

NextStep Solutions Version 10.6.2 Release Notes  
*All content is subject to change.*

**Release Date: December 6, 2022**

### Resolved Issues

#### **Client Portal**

- For added security, all current client portal users will be required to change their password.
- Client Portal users will no longer receive the message 'Password Does Not Match' when signing documents.

#### **eMAR**

- When reviewing a medication or treatment, the review screen is now titled Review.
- When reviewing a treatment, the name of the treatment will be displayed above the Reviewer Instructions box in the review screen.
- Despite having all current passes passed, some eMAR clients were still appearing in green. Clients with no current passes will now appear in gray, as expected and moved to the Already Passed section.
