What's New.....3

1. NSW Strata Hub – Enhancements3

 1.1 *New NCC Building Class value – 'Not Set'*.....3

 1.2 *Copy value to other buildings option*.....3

What's Better.....4

What's New

1. NSW Strata Hub – Enhancements

New enhancements have been added to Building Information used for NSW Strata Hub.

1.1 New NCC Building Class value – 'Not Set'

We have added a new value, 'Not Set', to the NCC Building Class in Building Information. This will be set as default for any new clients updating to the new building information version along with any new buildings that are loaded into StrataMax.

1.2 Copy value to other buildings option

Copy Value to other buildings is now available for NCC Building class, to allow users to copy the value selected to other buildings.

What's Better

- NSW Strata Hub – The system will correctly validate when an Emergency Contact Email Address is not entered.
- Status Report – The Bank Statement Report will now report correctly for each building when multiple buildings are selected
- Roll Nominee – Ranking Validation was not excluding Retired Nominees. Retired Nominee ranking will no longer be included in the validation
- Enhancements to old VB reports which show StrataPay numbers as user ids are in the database and access is managed by the database now.
