Practicum
This pamphlet will help you, the OP user, become more familiar with the purpose and benefit of **eLearning**.

OP's Instructional Design Team is well versed in learner experience and design and wants to provide you with the most current, relevant, and convenient experience possible.

With this knowledge and understanding, you can feel not only good but great about investing in your digital learning experience, but you'll feel more secure than ever that OP is there where you need us.

OP ELEARNING

THE ELEARNING CORNER

OP

WHAT IS ELEARNING?

ABOUT ELEARNING - AND THE DESIGNERS

eLearning, by definition, is defined as "learning conducted via electronic media, typically on the internet." (oup.com)

OP eLearning is developed with our **users** in mind (you) - busy clinical professionals who value every minute of their day. It is developed to compliment the foundational knowledge you have received (or will receive) in a traditional instructor led experience.

From keeping your schedule clear to allowing you to learn more about your user experience with OP, the benefits of eLearning are clear and many. The Instructional Design Team is here to help guide you through the content they develop and, most importantly, help you understand why eLearning is used and what it can do for your bottom line.

OP™

WHO IS ELEARNING FOR?

NEW HIRES

Quickly on-board new hires in OP with role-based, interactive eLearning, practice activities, and assessments.

TAKING ON A NEW ROLE?

Develop your knowledge of OP by taking courses that walk you through the workflow of your new role. Practice applying your knowledge in an environment that mimics OP, but won't interfere with your system!

REFRESH YOUR KNOWLEDGE

Curious about a new feature in OP that you've never used? Want to learn more about how to take better care of your patients using OP? eLearning can be taken on your own time so you can hone your skills without interrupting your workflow.

WHAT'S IN
IT FOR YOU?

THE BENEFITS OF ELEARNING

01 SELF-PACED

The learning is Self-Paced, meaning that at any point you are able to pause, break away, and re-engage as you need to. In a busy practice, this alone can prove invaluable.

02 VIRTUAL/REMOTE

OP eLearning can be taken Virtually/Remotely, meaning that anywhere you have a PC and your login, you can learn, saving your staff travel time and expenses.

03 ASYNCHRONOUS

You can not only take it anywhere, but you can take it anytime as eLearning is Asynchronous in its delivery. Day, evening, or night - It's there for you!

04 EFFECTIVE

Since OP eLearning is predominantly simulation-based, it proves More Effective as a learning vehicle, as you will be learning workflows by performing workflows via hands-on instruction.

05 SAVE TIME AND REVENUE

By keeping busy clinical professionals in the practice, doing what they do best, appointments can be kept and patients seen, eLearning provides Saved Time and Revenue.

OP™

WHAT DO YOUR COLLEAGUES HAVE TO SAY ABOUT ELEARNING?

PROVIDER

95.8% Recommend

"(I like)...how the e-learning forced you to participate - and then you were immediately tested afterwards. This technique really helps commit the learning to memory"

NURSE

94.2% Recommend

"I liked how I was able to learn at my own pace. I also liked going back to review some lessons when I didn't quite understand the concepts."

BILLER

94.6% Recommend

"This has been the most comprehensive training program I have participated in many years. Learning at my pace, being able to go back and review material beats going into a training room with the trainer."

FRONT DESK

95.4% Recommend

"The step by steps, being able to see things demonstrated visually really helped me learn better."

INTERESTED IN LEARNING MORE?

LET'S WORK TOGETHER

To see if an elearning subscription would be beneficial in your situation, please contact your Account Manager for more details!

For more information about the eLearning content and the other Training options OP offers, please visit the OP Training Options page in the Help Center (link below!)
