# OAKLEY® AUTHENTIC PRESCRIPTION

## SPORT SPECIFIC GUIDE

### WHAT IS THIS GUIDE?

This guide has been designed to provide clear information on suggested styles and lenses which are suited to prescription, for the sports most associated with our brand.

The guide contains information on suggested frame styles, lens tints, lens technologies and suggested pricing for various sports.

This information will allow you to provide your customer with the best product recommendation for their specific sporting needs, whether it be off the shelf or in prescription.

### CONTENTS

E-SPORT - PAGE 2

ROAD CYCLING - PAGE 3

MOUNTAIN AND TRAIL - PAGE 5

GOLF - PAGE 6

FISHING - PAGE 8

PADELAND TENNIS - PAGE 10

## PRIZM™ LENSES

**Difficulty with eye fatigue or struggling with the lack of in game contrast?** With our PRIZM™ Lens Technology, Stealth AR and Oakley Authentic Prescription Plutonite® lenses you'll see more detail by boosting contrast and elevating the right colours whilst you game. By filtering 40% of blue light in the 380-500nm range, this lens helps protect against natural and artificial light that causes eye fatigue.

## ENHANCED CONTRAST

By **reducing** screen and background glare, blue light and **increasing** on screen contrast, **Prizm™ Gaming** provides clearer and more comfortable vision whilst concentrating on your gaming device.

## OUR GAMING PICKS

These frames, with **enhanced lens coverage**, allow every millimeter of your peripheral view to be fully optimized when combined with PRIZM™ Gaming. These durable yet lightweight designs take performance to the next level and bring lightweight style for extended gaming sessions.

**NXTLVL** OX8028-0158  
+6.00 / -8.00 CYL 6

**WHEELHOUSE** OX8166-0254  
+6.00 / -8.00 CYL 6

**METALINK** OX8153-0155  
+3.50 / -6.00 CYL 6

**STRAIGHTLINK™** OO9331-05  
+4.00 / -6.00 CYL 3

## HD POLARIZED LENSES

Oakley proprietary technology designed to filter out 99% of reflected glare without the haze and optical distortion that typically comes with conventionally manufactured polarized lenses.

Both lenses are manufactured at the same time to perfectly align and center the axis of polarization. This prevents any unwanted glare from sneaking through any part of the lens.

On and around water, this helps to relax your eyes, and allow to see things clearly on and just below the surface.

**Check MyLuxottica®** for more lens options, frames and frame specific power ranges.

**Please contact us** if you have any questions about Oakley® Authentic Prescription.
