# Army Partnership Program

## G-9 Mission

The DCS, G-9 administers the II PEG, leads the Army's Quality of Life effort, implements, integrates, supervises and assesses execution of policies, resources, plans, and programs for the Installation Enterprise to enable ready, prompt, and sustained land dominance by Army forces.

## G-9 Vision

Professional experts championing Installation Enterprise Readiness and delivering unmatched Quality of Life to our People.

**Ivan G. Bolden**  
**Chief, Army Partnerships Office**  
**Chair, Joint Services Partnership Committee**

CUI

# Next Generation Partnerships

## Execute the Mission

Investing in Future Capabilities  
Modernization & Readiness  
Improve conditions for Soldiers & Families

## Think outside the box

Creative ways to partner with our installations to address challenges  
Create Partnerships with Academia/HBCUs

## Installations of the Future

Implement smart solutions that leverage evolving industry  
DCIP  
Defense Manufacturing

## Focus on Operation and Maintenance Needs

Energy, Water, Facility, and Infrastructure, Climate Change

# Next Generation Partnerships

## Types of “Next Generation Partnerships” Include:

- Addressing Energy Resilience Challenges
- More “enterprise-wide” IGSAs to include more R-IGSAs
- Partnering for 5G as a service
- The use of Other Transactional Authorities (OTA)
- Addressing climate impacts and exploring ways to work outside of the fence line to stretch limited resources (EV charging stations, upgrades to infrastructure, shoreline restoration etc.)
- Water Resiliency
- Exploring Child Care Options
- More University Partnerships/HBCUs
- Focus on taking care of people

CUI

# Final Thoughts

## How to increase and improve the IGSA process:

- UP TO 20-Year Legislation for IGSA's will help your community
- Ability to create larger scale IGSA partnerships
- Ability to amortize over a longer period of time
- Reduces the tax burden on the community

**MUST BE A CONSTANT DRUMBEAT**
