# About This Guide

---

This section describes the purpose, audience, organization, and conventions that are used in this iPECS Cloud OMS Reseller Administrator Guide.

---

**NOTE** Your actual display screens may be slightly different than what was displayed in this manual depending on the OS (Operating System) and other factors. All information in this guide is subject to change without prior notice.

---

## Purpose

The iPECS Cloud OMS Reseller Administrator Guide is designed to assist Service Provider administrators with the system administration features of the OMS (Order Management System) system. Detailed instructions for each function and page of the OMS system can be found in this manual.

## Audience

This guide assumes administrators of the Reseller are familiar with the procedures in the iPECS Cloud Web Interface Administration Guide.

## Document Organization

This guide consists of two chapters and an appendix. The title of each chapter (and appendix) is as follows:

- About This Guide
- Chapter 1 Accessing OMS web page
- Chapter 2 OMS Reseller Portal
- Appendix – A

## Document Conventions

This section describes text formatting conventions and important notice formats used in this guide.

## Text formatting

The narrative-text formatting conventions that are used are as follows:

---

Convention	Description
<b>Bold text</b>	It may indicate a button, menu item, or dialogue box option you can click or select.
<i>Italic text</i>	A cross-reference or an important term.
<code>Code text</code>	A command prompt.
*(Asterisk)	Items or fields marked with an asterisk (*) are required.

---

## Important notice

The following icons and notices are used in this guide to convey important cautions and notes.

---

**CAUTION** A caution statement alerts you to situations that may cause damage to hardware, software, or data.

---

**NOTE** A note provides additional explanations, important information, or a reference to the relative information.

---

## References or Related Guide

The following guides supplement the information in this guide and can be found on the Ericsson-LG Enterprise Partner Portal.

# Accessing OMS web page

---

This chapter describes how to access OMS (Order Management System) and how to use it. Using Web Browser the OMS can be accessed and System Data Management, System Monitoring and Maintenance managed through a user-friendly GUI.

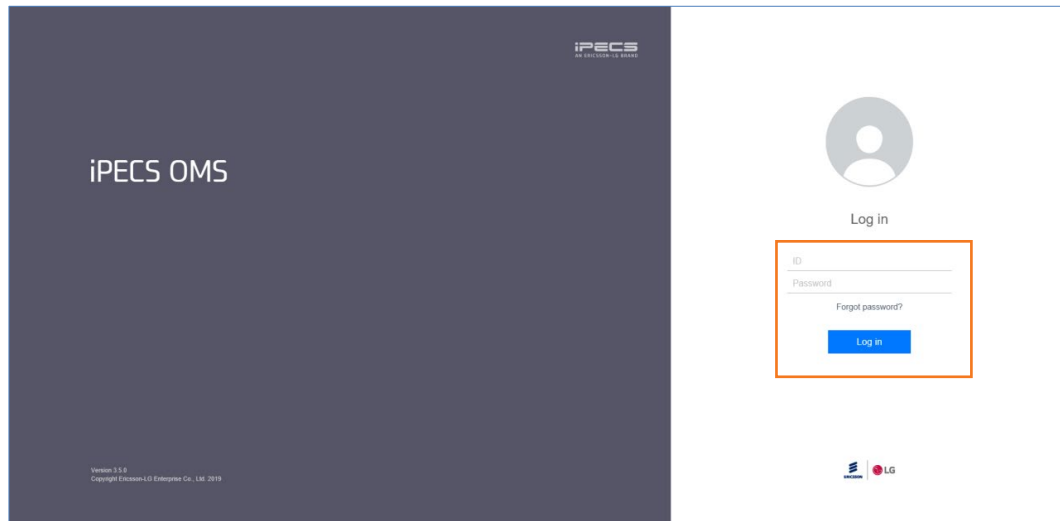

## 1.1 User Access Environment

We highly recommend you to use Chrome for the best results. It works under the minimum specification, but some screens may look different.

- **Web Browser:** Google Chrome (recommend), Microsoft Internet Explorer 10, 11 (at least IE 8 or later version)
- **Screen Resolution:** 1280 x 1024 at least or higher

## 1.2 How to Access

1. Open a browser on the PC.
2. Type the site URL to open your cloud service in a web browser. This Reseller web portal is *http://webserverIP*.

3. Enter the User ID and Password assigned to reseller administrator
  - User ID in E-Mail Style form, such as the example (e.g. abc@example.com).
4. Click the **Log in** button to system login, Reseller Screen will be displayed.

### 1.3

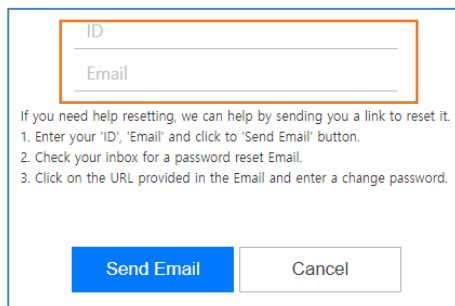

## Request Password Reset

A user can request a password reset through the pre-configured email address related to that account using the **"Forgot Password?"** link.

1. Click **"Forgot Password?"** to receive an email from a password reset request.

2. Enter **'ID'** and **'Email'** address configured in Reseller Account.

3. Click the **Send Email** button, then a **'password reset'** email containing URL is sent.

## 1.4

# Initial Screen

Initial screen when the Reseller first logs in as below.

The screenshot displays the iPECS OMS interface. At the top, the header includes 'iPECS OMS' on the left, a user profile 'SKY Reseller (rss) Reseller' on the right, and an 'EMS Link >' button. Below the header is a navigation bar with 'My Home' and 'Order Final confirm' tabs. A left-hand navigation menu lists various system functions. The main content area, titled 'My Home', features three summary cards:

- Service Summary:** A table showing key metrics.

Category	Status	Count
Customers	In-Service	10 / 15
Demo Customers		0 / 0
User Package	Assigned	173 / 492
Direct Dial No.	Assigned	7 / 63
Device	Assigned	3 / 396
- Order Approval:** A table with columns for Reseller, Customer, and Order Date. A 'More' button is visible.
- Order Final Confirm:** A table with columns for Customer and SP Approve Date. One entry is shown: 'Close 2' with an approve date of '2019-06-24 11:16:47'. A 'More' button is also present.

---

**NOTE** Session expires after 120 minutes of inactivity.

---

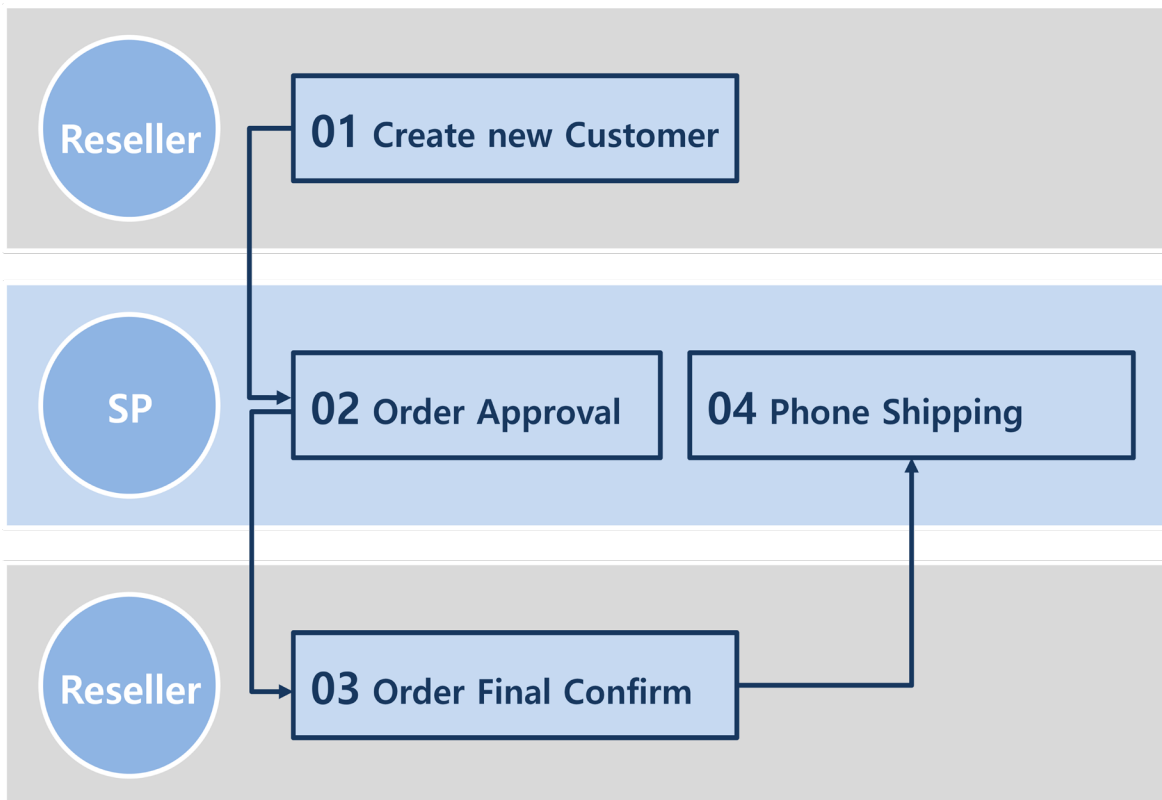

## OMS Reseller Portal

---

This chapter describes the operation on OMS Reseller Portal. Reseller can make orders, manage customers and data.

### 2.1 Order procedure Overview

Order process procedure of Cloud service is as follows. Reseller can be able to create new customer. In this guide, the SP is used as an acronym of **Service Provider**.

## 2.1.1

# Create New Customer

Fill out the customer profile information and place the order via the reseller portal, the order will then be sent through to the SP to process.

## 2.1.2

# Order Approval

SP checks order information received from the reseller, selects an available CM, assigns DDI numbers and cloud resources to a customer and approves the order.

If SP finds out the wrong ordering, SP can reject the order and enter the reject reason. For the rejected order, the reseller can modify it and request it again.

The screenshot displays the iPECS OMS interface for Order Approval. The top navigation bar includes 'My Home', 'Order Final confirm', and 'EMS Link >'. The left sidebar lists various management options, with 'Order Approval' highlighted. The main content area features a search filter for 'Request to SKY Reseller' and a table of orders. The table columns are: Order Date, Reseller, Customer ID, Customer Name, Order No, Order Type, and Order Status. The data rows are as follows:

	Order Date	Reseller	Customer ID	Customer Name	Order No	Order Type	Order Status
1	2019-07-12 16:24:59	SKY Reseller	C100000232	jsh819	500514	New Customer	being process
2	2019-07-12 17:36:11	SKY Reseller	C100000238	idam3	500529	New Customer	Submit Order
3	2019-07-12 17:39:38	SKY Reseller	C100000239	idam4	500530	New Customer	Submit Order
4	2019-07-12 17:45:22	SKY Reseller	C100000240	idam5	500532	New Customer	Submit Order
5	2019-07-12 17:50:40	SKY Reseller	C100000247	idam6	500539	New Customer	Submit Order
6	2019-07-12 17:54:59	SKY Reseller	C100000254	idam7	500546	New Customer	Submit Order
7	2019-07-12 18:00:08	SKY Reseller	C100000255	idam8	500548	New Customer	being process

At the bottom of the table, there is a pagination control showing 'Page 1 of 1' and a view count of 'View 1-7 of 7'. An 'Excel' button is located at the bottom right of the table area.

### 2.1.3

## Order Final Confirm

The reseller then checks the order information approved by SP and confirms the order if there are no changes.

The screenshot shows the iPECS OMS interface. The top navigation bar includes 'My Home', 'Order Final confirm', and 'EMS Link >'. The user is identified as 'SKY Reseller (rss) Reseller'. The main content area is titled 'Order Final confirm' and features a search filter for 'Reseller' set to 'SKY Reseller' with an 'Include child resellers' checkbox and a 'Search' button. Below this is a table of orders:

	Order Date	Reseller	Customer ID	Customer Name	Order No	Order Type
1	2019-07-10 18:41:10	SKY Reseller	C100000205	sky9	500413	New Customer
2	2019-06-27 20:16:46	SKY Reseller	C100000001	jsmn	500226	Change
3	2019-06-24 10:56:04	SKY Reseller	C100000049	Close 2	500120	Customer Close

At the bottom of the table, there is a pagination control showing 'Page 1 of 1' and a 'View 1 - 3 of 3' indicator. An 'Excel' button is also present.

2.1.4

# Device Shipping

After the order has been finally confirmed by the reseller, the SP then checks the model and quantity of device that has been ordered, assigns the MAC address for each device, assigns the device to the customer's site and ships the device to the specified shipping address.

The screenshot displays the iPECS OMS interface for Device Shipping. The left sidebar contains a navigation menu with the following items: Service Environment, Service Plan, DDI Number, Device Management, Device Model, Device Order Group, Device Info., Device/Phone List, Stock Status, **Device Shipping**, Shipping Result, Customers, Order Management, Reseller, Vendor License, Call Status, System Log, Menu, and My Home Setting. The main content area is titled 'Device Shipping' and includes a search bar with filters for 'Request to' (Pragma), 'Order Date', and 'Approve Date'. Below the search bar, a table lists shipping orders with the following data:

Order ID	Order Date	Reseller	Customer ID	Customer Name	Order Type	Order Title
1	2019-07-07 11:26:16	SKY Reseller	C1000000191	skycm7	New Customer	skycm7 New Order
2	2019-07-07 11:11:06	SKY Reseller	C1000000187	skycm6	New Customer	skycm6 New Order
3	2019-07-04 20:58:25	SKY Reseller	C1000000183	skycm5	New Customer	skycm5 New Order
4	2019-07-04 20:58:25	SKY Reseller	C1000000183	skycm5	New Customer	skycm5 New Order
5	2019-06-24 15:01:55	Pragma	C1000000072	YJ Com	New Customer	YJ Com New Order
6	2019-06-21 11:14:23	SKY Reseller	C1000000043	skycm3	New Customer	skycm3 New Order
7	2019-06-19 17:07:49	SKY Reseller	C1000000001	jsmn	New Customer	jsmn New Order
8	2019-06-19 17:07:49	SKY Reseller	C1000000001	jsmn	New Customer	jsmn New Order

The table also includes a 'Total : 2 / 55 (Assigned / Requested)' indicator. At the bottom right, there is a pagination bar showing 'Page 1 of 1' and a total of 8 items, along with an 'Excel' button.

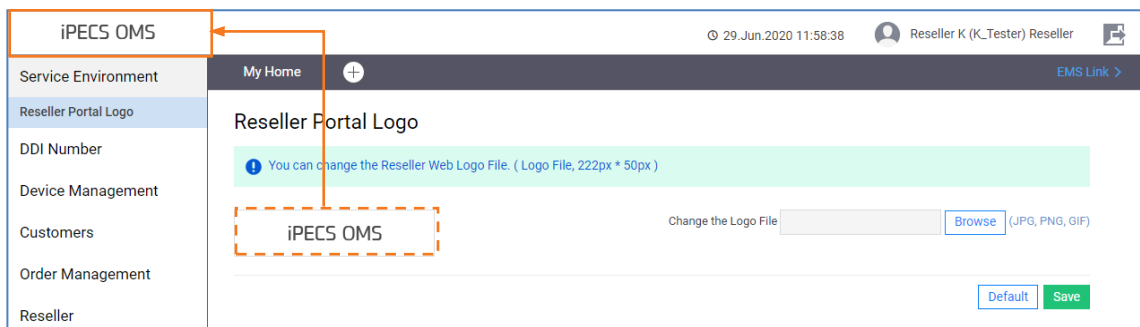

## 2.2 Service Environment

This section describes the functions to manage the initial configuration of the OMS service. Reseller consists of a menu that manages Reseller logo images, etc. These settings are rarely changed once they are initially set.

### 2.2.1 Reseller Portal Logo

This menu is used to set the OMS Reseller Web Portal logo. The logo file size has to width:222px height:50px and file format have to JPG, PNG, or GIF.

1. Click the **Browse** button and find a logo file to upload a logo file.
2. Click the **Save** button to apply, and then the popup will open.

3. Click the **OK** button to confirm.
4. Click the **Default** button to set as the default.

## 2.3

# DDI Number

This section describes how to configure system data related to DDI Number.

### 2.3.1

## Number Status

This menu allows you to view a list of DDI numbers held by child resellers, including yourself, and information about the numbers assigned to Customer.

#### 2.3.1.1

### DDI Details

Look up the list of DDI numbers held by the child reseller, including himself, and the status of the DDI number list assigned to the customers of the child reseller including him.

Direct Dial Call Number	Area Code	Number	Number Type	Customer Assign	Assigned Customer	Site Name	Use Status	Number Porting	Comment
1 08010001003	080	10001003	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
2 08010001004	080	10001004	Normal Type	Used	cust_1	cust_11	Activation	Original Number	
3 08010001005	080	10001005	Normal Type	Used	cust_1	cust_11	Activation	Original Number	
4 08010001011	080	10001011	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
5 08010001012	080	10001012	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
6 08010001021	080	10001021	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
7 08010001022	080	10001022	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
8 08010001031	080	10001031	Normal Type	Used	cust_1	cust_1	Activation	Original Number	
9 08010001032	080	10001032	Normal Type	Used	cust_1	cust_11	Activation	Original Number	
10 08010001033	080	10001033	Normal Type	Used	cust_1	cust_11	Activation	Original Number	

### View the state information in the grid

Grid column name	Description
Direct Dial Call Number	Displays the Direct Dial Call Number.
Area Code	Displays the area code of the Direct Dial Call Number.
Number	Displays the numbers except the area code for Direct Dial Call Number.
Number Type	Displays the type of the number you set. Displays the corresponding value among the values set in the Number Type menu.
Customer Assign	Displays assignment status to Customer. <ul style="list-style-type: none"><li>• <b>Used:</b> Status used by Customer</li><li>• <b>Unused:</b> State not yet assigned to Customer</li><li>• <b>Reserved:</b> State in which Customer is reserved for use</li></ul>
Assigned Customer	Displays the name of the Customer to which the number is assigned.
Site Name	Displays the name of the Customer's site to which the number is assigned or reserved.
Use Status	Displays for number status.

Grid column name	Description
	<ul style="list-style-type: none"> <li>▪ <b>Creation:</b> Created Number</li> <li>▪ <b>Order Activation:</b> Order in progress</li> <li>▪ <b>Activation:</b> Number available</li> <li>▪ <b>Using:</b> Customer is using the number</li> <li>▪ <b>Returned:</b> Used and returned</li> </ul>
Number Porting	Indicates whether the number is created through Number Porting. <ul style="list-style-type: none"> <li>▪ <b>Original Number:</b> Number created by OMS</li> <li>▪ <b>Ported Number:</b> Number created by Ported</li> </ul>
Comment	Informational phrase or more description
Assigned Reseller	Displays the name of the Reseller to which the number is assigned.
Owner	The partner that created the number
Last Updated	Date the data was last modified

### 2.3.1.2 Number Status Summary

Provides aggregate inquiry function by dividing total allocated quantity, used quantity, and reserved quantity for each customer who has been assigned DDI number.

The screenshot shows the 'Number Status Summary' page in the iPECS OMS interface. The page includes a search bar with 'Owner' set to 'SKY Reseller' and 'Include Child' checked. Below the search bar, there are tabs for 'Details of DDI' and 'Number Status Summary'. The main content is a table with the following data:

	Owner	Customer	Assigned Qty.	Use Qty.
1	SKY Reseller	jsmn	2	0
2		sky2	3	0
3		Second JS	5	0
4		Reseller Kwak	18	0
5		skycom3	7	0
6		skycom4	21	0
7		skycom5	0	0
8		skycom6	0	0
9		skycom7	0	0
10		sky9	0	0

At the bottom of the table, there is a pagination control showing 'Page 1 of 2' and a total of '10' items. An 'Excel' button is located at the bottom right of the table area.

#### View the state information in the grid

Grid column name	Description
Owner	Displays the name of the Reseller to which the number is assigned.
Customer	Displays the name of the Customer to which the number is assigned.
Assigned Qty.	Displays the quantity of numbers assigned to Customer.
Used Qty.	Displays the quantity of numbers that Customer is using.
Reserved Qty.	Displays the quantity of numbers that Customer has reserved for use.
Not Assigned Qty.	Displays the quantity of numbers that the Owner has that are not assigned to the Customer.
Total Qty.	Displays the sum of the numbers assigned or reserved or not assigned for customer.

## 2.3.2 Number Porting

The requested SP or reseller performs Accept or Reject processing what number porting information requested in the order from a reseller.

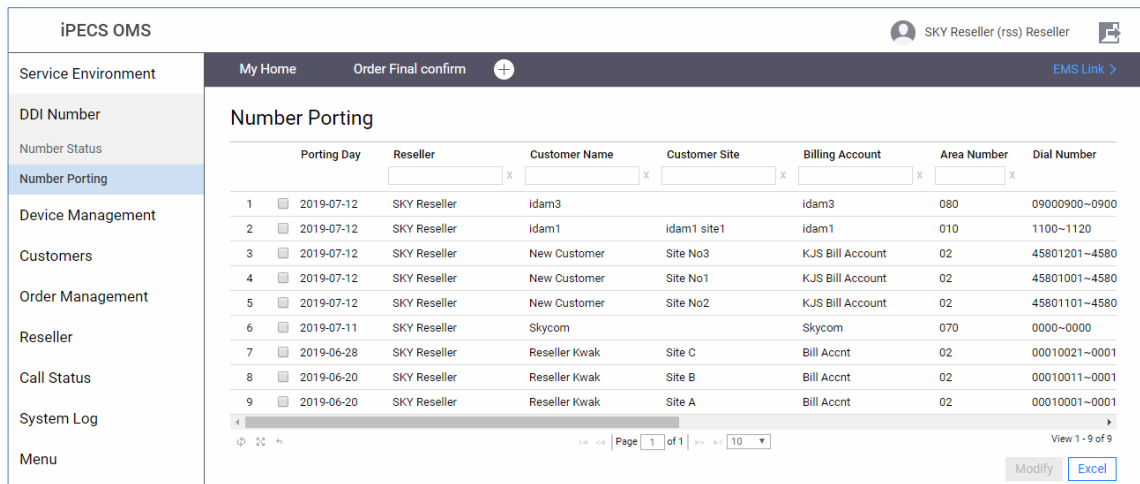

Accept processing is possible only after the order has been Final Confirm.

At the time of Accept processing, the number list in which the number porting request is registered is generated as DDI number, and provisioning processing is going to EMS.

Sub status value can be set separately for progress management after Accept.

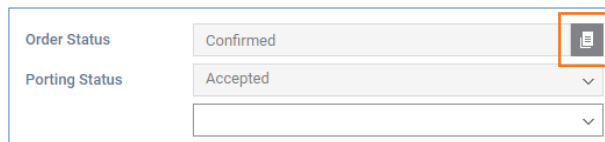

It is possible to register/manage the comment on the request contents when Accept/Reject of the authorized user.

- The **Modify** button is enabled when the approval processing SP/reseller of the selected data is the same as the partner of the logged in user.
- In the Modify mode the **Cancel, Accept, Reject, Porting Cancel, Save** button's Visible/Invisible status depends on the selected data's status.
- Click  button to show **Number Porting Info.** popup shows.

	Porting Day	Reseller	Customer Name	Customer Site	Billing Account	Area Number	Dial Number

1. Click the **Modify** button and the selected data's status is 'REQ' the modification page appears.

Order Status	Confirmed	
Porting Status	Accepted	▼
		▼

2. In the text box enter information for based on the following.

Grid column name	Description
Porting Date	The day that reseller want to number porting.
Approver's Comments	The number porting result comment.

3. To save number porting, click the **Save** button.

4. To exit without saving, click the **Cancel** button.

### To Modify a requested number porting

1. Click the **Modify** button and the selected data's status is **REQ** the modification page appears.

The screenshot shows a web form for modifying a number porting request. The form includes the following fields:

- Order Status: Confirmed
- Porting Status: Porting Requested
- Porting Day: 2019-07-09
- Accept/Reject Date: (empty)
- Reseller: Datakom
- Customer: C100000032, Power C2
- Customer Site: Branch Office
- Billing Account: 1000007, Sales Part
- Area Number & Dial Number: 050, 90010~90019
- Porting Qty: 10
- Comment of Request: (text area)
- Comment of Result: (text area)

At the bottom right of the form, there are four buttons: Cancel, Accept, Reject, and Porting Cancel. A red box highlights the 'Modify' button in the top right corner of the form area.

2. In the text box enter information for based on the following.

Item	Description
Porting Day	The day that reseller want to number porting.
Comment of Result	The number porting result comment.

3. Click each button to:

- accept number porting, click **Accpet** button.
- reject number porting, click **Reject** button.
- exit without saving, click **Cancel** button.
- cancel number porting, click **Porting Cancel** button.

## 2.4 Device Management

This section describes how to manage information about devices and phones, and how to view information about shipping.

### 2.4.1 Device/Phone List

Check the list of devices owned by the child reseller, including himself, and the status of the device list assigned to the customers of the child reseller.

The screenshot shows the 'Device/Phone List' page in the iPECS OMS system. The page header includes 'iPECS OMS' and 'SKY Reseller (rss) Reseller'. The left sidebar contains navigation links. The main content area features a search bar with 'Owner \* SKY Reseller' and a checked 'Include Child' option. Below the search bar is a table with the following data:

	Device Order Group	Device Model	Owner Type	Serial No.	MAC Address	Customer Assign	Assign
1	SIP	ACT-50	Un-shipped	A3093	1222222	Assigned	SKY F
2	SIP	ACT-50	Un-shipped	A3094	999900000000	Assigned	SKY F
3	LIP	LIP-1010i	SP Shipped	A4095	AA1010A11110	Assigned	SKY F
4	LIP	LIP-1010i	SP Shipped	A4096	AA1010A11111	Assigned	SKY F
5	LIP	LIP-1010i	SP Shipped	A4097	AA1010A11112	Assigned	SKY F
6	LIP	LIP-1020i	SP Shipped	A4100	AA1010A11122	Assigned	SKY F
7	LIP	LIP-1020i	SP Shipped	A4098	AA1010A11120	Assigned	SKY F
8	LIP	LIP-1020i	SP Shipped	A4099	AA1010A11121	Assigned	SKY F
9	SIP	LIP-8002S	SP Shipped	2053	AB0000000023	Assigned	SKY F
10	SIP	LIP-8002S	SP Shipped	1000	ABC123400000	Assigned	SKY F

The table also includes a pagination bar at the bottom showing 'Page 1 of 9' and a 'View 1 - 10 of 86' indicator. An 'Excel' button is located at the bottom right of the table area.

#### View the state information in the grid

Grid column name	Description

6. Enter information based on the following.

Item	Description
Administrator ID	Please enter the customer's EMS system login account ID.
Administrator Password	Please enter password for the Administrator ID.
Confirm Password	Enter the Administrator Password one more time to prevent errors in entering the password.
Administrator Name	Please enter the name of the user who will use the Administrator ID.
Administrator E-mail	Please enter the e-mail address of the user who will use the Administrator ID

<b>Item</b>	<b>Description</b>
Contact Name	Please enter the name of the person who can be contacted by Customer Company.
Contact E-mail	Please enter the e-mail address of the person who can be contacted by Customer company.
Contact Direct Dial Call Number	Please enter the Direct Dial Call Number of the person who can be contacted by Customer Company.
Contact Extension	Please enter the extension number of the person who can be contacted by Customer Company.
Mobile Number	Please enter the Mobile Number of the person who can be contacted by Customer Company.
Remark	Please enter the special information of Customer, etc.

### 2.5.1.2 Service Plan & Customer Site – step 2

Basic information of orders such as service plan, customer's site information, order title to be used by the customer is registered.

1. The top fixed item of the customer information registered in customer info. is displayed and enter the order information.

Customer Company Name: Skycom  
PO Number:

**Order Title**

Order No. / Title: 500435 Skycom New Order  
Service Plan: Standard Plan  
Activation Date: 2019-07-11  
Agreement Period: -- NONE --  
Order Note:

2. Enter your customer site information.

**Customer Site**

Site Name \*   
Address 1 \*   
Address 2   
City \*   
Country   
Post Code \*   
Main Site \*  TRUE  FALSE

Main Site	Site Name	Address	City	Country	Post Code
No records to view					

- You can register up to 20 sites and you can not use the same site name.
- There must be one main site and you can not register more than one main site.
- If there is an order history with the customer site selected for deletion, it can not be deleted.

### 2.5.1.3 Number Ordering – step 3

Provides the ability to register the customer's DDI or Number Porting order history.

1. Register DDI order quantity by customer's site and billing account.

Customer Company Name: Skycom

PO Number:

Order No. / Title: 500435 Skycom New Order

Service Plan: Standard Plan

Activation Date: 2019-07-11

**Direct Dial Call Number Order**

Site	Billing Account	Order(EA)	Note
skycom	Skycom	d (EA)	<input type="text"/>

2. Registers the basic information necessary for Number Porting and the DDI band information desired to be numbered.

**Number Porting**

Site Name \*: skycom

Billing Account \*: Skycom

Number Type \*: Normal Type

Direct Call Number \*: 070 0000 - 0000

Comment:

Site	Billing Account	Number Type	Direct Call Number	Qty.	Comment
skycom	Skycom	Normal Type	070 0000-0000	1	<input type="text"/>

3. Customers can use the existing used numbers. If the customer requires number porting the reseller is able to specify a required porting date, as well as the number or range of numbers that are required for porting

4. Click  button. Enter information for based on the following.

Number Porting Info.

**Contact Details**

Contact Name \*:

5. If you have preset Carrier Site Link, the following screen will be displayed and you will be connected directly when you click **Link** button.

Carrier Site Link

Naver

### 2.5.1.4 Number Assign – step 4

You can assign Direct Dial Call Numbers in your inventory to meet the number of Direct Dial Call Numbers to assign to Customer, create new Direct Dial Call Numbers, and assign them to Customer.

1. If the login reseller has DDI setting right, the screen is displayed.

Site	Billing Account	Order(EA)	Assigned(EA)	Assigned Number
skycom	Skycom	2	0	

Available  Stock  New Number

Number Type: [ ] Number: [ ] Comment: [ ]

Page 1 of 1 | 100

Site Name: skycom Billing Account: Skycom [Add] [Next]

2. DDI information can be selected from the list of DDI numbers that are held or can be newly registered.
3. If the **Stock** radio button is selected, the list of DDI numbers being held is queried.

Available  Stock  New Number

Number Type: [ ] Number: [ ] Comment: [ ]

Page 1 of 1 | 100

Site Name: skycom Billing Account: Skycom [Add] [Next]

4. Select the number you wish to assign and select the site and billing account below and click the **Add** button to see the number assigned to the **Number Assign** grid at the top.
5. You can assign a new DDI number by selecting the **New Number** radio button.

**Available**  Stock  New Number

Number Type \*

Number \*

Comment

Site Name \*

Billing Account \*

6. After entering the information of the DDI number to assign, click the **Add** button and you will see that the corresponding number is assigned to the **Number Assign**'grid.

### 2.5.1.5 Order Item – step 5

For each billing account added in step1, you will see the items available in the service plan you selected in step 2.

#### View the state information in the grid

Grid column name	Description
Item Group	The group of items to be ordered by the customer is displayed.
Order Item	Displays the name of the item to be ordered by the customer.
Qty.	Please enter the number of items to order.
Trial	Please set the Trial period for the order item.
Priod	Please set the unit of the Trial period of the order item. (day, month)
List Price	The basic unit price of the order item is displayed.
Customer Price	Please enter the cost you will receive from the customer individually.
Comment	Informational phrase or more description

- After selecting the desired order, you can set the number, the Trial period, and the cost of each customer.

### 2.5.1.6 Trunk Channel – step 6

Tab for setting up the Trunk Channel to assign to Customer. You can specify the number of SIP Trunk Channels, TDM Trunk Channels.

The screenshot shows a web form for configuring a Trunk Channel. At the top, there are several input fields: 'Customer Company Name' (Skycom), 'PO Number' (empty), 'Order No. / Title' (500435 and Skycom New Order), 'Service Plan' (Standard Plan), and 'Activation Date' (2019-07-11). Below this, there are two sections: 'Trunk Channel -SIP' and 'Trunk Channel -TDM'. Each section has a green warning banner that says 'You can order max channel 1000'. Under 'Trunk Channel -SIP', there is a 'SIP Trunk Max' field with a value of 0 and the unit 'Channel'. Similarly, under 'Trunk Channel -TDM', there is a 'TDM Trunk Max' field with a value of 0 and the unit 'Channel'. A green 'Next' button is located at the bottom right of the form.

- You can assign SIP Trunk Channels, TDM Trunk Channels, not to exceed the Max Channels above.

### 2.5.1.7 Device Ordering – step 7

Select the device model to be allocated for each billing account and enter the order quantity.

Customer Company Name:

PO Number:

Order No. / Title:

Service Plan:  v

Activation Date:

**Device Order**

- When you click the Cancel button at each stage, the order you are currently creating is removed, and you can also view the order history.
- You can not modify or cancel the order history after the Submit Order.
- If the login user has the right to use the DID when the user is a reseller who has the Approval Order authorization, and if the DID setting is completed, the user can proceed to one step through Final Confirm. In this case, you can select additional CM information.

### 2.5.1.11 SIP Trunk Service Customer

This section describes how to register a SIP Trunk Service customer. The process of ordering Create New Customer is basically the same. Please refer to section 2.5.1.1 for information on entering information in the Customer Info tab.

1. SIP Trunk Service customers select SIP Trunk Service Plan as the Service Plan type in the Service Plan & Customer Site step.

Create New Customer

Customer Info > **Service Plan & Customer Site** > Number Ordering > Number Assign > Trunk Channel > Submit Order

Customer Company Name: SIP Trunk Service Customer

**Order Title**

Order No. / Title: 502724 SIP Trunk Service Customer New Order

Activation Date \*: 14.Oct.2020

Service Plan \*: SIP Trunk Service Plan

Agreement Period: --- NONE ---

Order Note

2. Enter your customer site information.

Customer Site

Site Name \*:

Address 1 \*:

Address 2:

City \*:

Country:

Post Code \*:

Main Site \*:  TRUE  FALSE

Main Site	Site Name	Address	City	Country	Post Code
No records to view					

- Refer to Section 2.5.1.2 for how to register the site. For SIP Trunk Service customers, only one site is registered.
3. Refer to Sections 2.5.1.3 and 2.5.1.4 for how to register Number Ordering and Number Assign step.

- For SIP Trunk Service customers, order On-Premise PBX-SIP Trunk Channel and SIPTrunk Channel as shown below.

- Refer to Section 2.5.1.10 for the Submit Order step..

### 2.5.1.12 Attach File when ordering

This section explains how to attach files when ordering. The file attachment function is provided by the service plan's option setting.

- If you need to attach a file on the order, go to the Attach File step and the screen below will appear.

2. First, click the **Browse** button to select a file to upload. Select a file and click the **Add** button to finish uploading the file and the uploaded file will be displayed in the grid list.

The screenshot shows a form titled "Attach File" with the following fields: "File \*" (with a "Browse" button), "File Type \*" (set to "Image"), "File Name \*" (empty), and "Comment" (empty). Below the form is a table with one row of data. The "Browse" and "Add" buttons are highlighted with orange boxes.

File Type	File Name	File Size	Comment
Image	Attach File TEST Customer.docx	4 MB	<a href="#">↓</a>

- You can only upload files up to 10MB in total.

3. Click the **Download Image** button to download the uploaded file. To delete a file, select the file from the grid list and click the **Delete Image** button.

The screenshot shows a table with one row of data. The download icon in the "Comment" column is highlighted with an orange box. At the bottom left, there is a circular refresh icon. At the bottom center, there is a pagination control showing "Page 1 of 1" and a dropdown menu set to "10". At the bottom right, it says "View 1 - 1 of 1".

File Type	File Name	File Size	Comment
Image	Attach File TEST Customer.docx	4 MB	<a href="#">↓</a>

4. Refer to Section 2.5.1.10 for the Submit Order step.

## 2.5.2

# Modify Existing Customer

This menu is used to modify existing customer information. You can also request a new order for your existing customer from this menu.

- Customers can use the existing used numbers. If the customer requires number porting the reseller is able to specify a required porting date, as well as the number or range of numbers that are required for porting
- Click  button. Enter information for based on the following.

Number Porting Info.

**Contact Details**

Contact Name \*

- If you have preset **Carrier Site Link**, the following screen will be displayed and you will be connected directly when you click **Link** button.

### 2.5.2.2.3 Number Assign – step 3

You can assign Direct Dial Call Numbers in your inventory to meet the number of Direct Dial Call Numbers to assign to Customer, create new Direct Dial Call Numbers, and assign them to Customer

Number Assign							
Site	Billing Account	Now(EA)	Add Order(EA)	Return Order(EA)	To Be(EA)	Assigned(EA)	Assigned Number
Busan Office	Thrid	0	1	0	1	0	

View 1 - 1 of 1

- DDI information can be selected from the list of DDI numbers that are held or can be newly registered.

#### View the state information in the grid

Grid column name	Description
Site	Displays site information to assign a number to.
Billing Account	Displays the account information responsible for site-specific settlement.
Now(EA)	Displays the currently contracted number quantity.
Add Order(EA)	Displays the quantity to which you want to add numbers.
Return Order(EA)	Displays the site-specific quantity of the number to return.
To Be(EA)	Displays the result quantity by adding the contract quantity, additional quantity, and return quantity.
Assigned(EA)	Displays the quantity assigned a number.
Assigned Number	Displays the assigned number.

1. If the **Stock** radio button is selected, the list of DDI numbers being held is queried.

Available  Stock  New Number

Number Type: [Dropdown] x Number: [Input] x Comment: [Input]

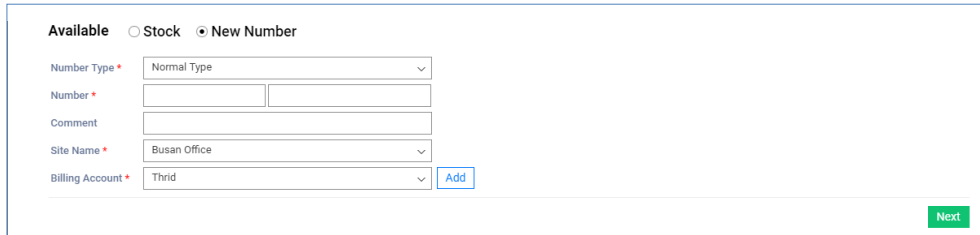

Page 1 of 1

Site Name \* [Busan Office] Billing Account \* [Thrid] [Add]

[Next]

- Select the number you wish to assign and select the site and billing account below and click the **Add** button to see the number assigned to the **Number Assign** grid at the top.

2. You can assign a new DDI number by selecting the **New Number** radio button.

The screenshot shows a form titled "Available" with two radio buttons: "Stock" and "New Number". The "New Number" radio button is selected. Below the radio buttons are several input fields: "Number Type" (a dropdown menu showing "Normal Type"), "Number" (a text input field), "Comment" (a text input field), "Site Name" (a dropdown menu showing "Busan Office"), and "Billing Account" (a dropdown menu showing "Thrid"). To the right of the "Billing Account" dropdown is a blue "Add" button. At the bottom right of the form is a green "Next" button.

- After entering the information of the DDI number to assign, click the **Add** button and you will see that the corresponding number is assigned to the **Number Assign** grid.

### 2.5.2.2.4 Order Item - step4

The current allocation quantity for each existing order item is inquired, and the additional reduction quantity for each item can be entered.

**Change Current Order Items**

## 2.5.3

# Customer Info.

Resellers can manage or view overall information about customers, such as account information, site information, service information, and order/alarm history of customers being managed.

The screenshot shows the 'Customer Info.' page in the iPECS OMS system. The page features a search bar at the top with filters for 'Option' (set to 'ALL'), 'Include child resellers' (checked), and 'Additional Option' (set to 'ALL'). Below the search bar is a table with the following columns: Reseller, Customer ID, Customer Name, User License(EA), Admin ID, Admin Name, and Service Start. The table lists 10 customers, all managed by 'SKY Reseller'. The data is as follows:

	Reseller	Customer ID	Customer Name	User License(EA)	Admin ID	Admin Name	Service Start
1	SKY Reseller	C100000059	1	0	sdfas@11kjsdoijfa.com	11212	
2	SKY Reseller	C100000049	Close 2	1	close2	Admin	2019-06-21
3	SKY Reseller	C100000047	Close Customer	0	close2@close2.com	Close name	2019-06-21
4	SKY Reseller	C100000001	jsmn	2	admin@jss.com	admin	2019-06-19
5	SKY Reseller	C100000035	Reseller Kwak	80	kjs	Kwak	2019-06-21
6	SKY Reseller	C100000019	Second JS	3	admin	sejs	2019-06-20
7	SKY Reseller	C100000002	sky2	310	admin@sky2.com	jaehu chae	2019-07-02
8	SKY Reseller	C100000205	sky9	15	admin@sky9.com	jaehu	2019-07-10
9	SKY Reseller	C1000000211	Skycom	0	skycom@skycom.com	skycom	
10	SKY Reseller	C100000043	skycom3	31	admin@sky3.com	jaehu chae	2019-07-02

The page also includes a sidebar with navigation options: Service Environment, DDI Number, Device Management, Customers (Create New Customer, Modify Existing Customer, Customer Info., Customer List, Customer List, Daily Customer Status, Customer Service Status, Trial expired Order Items), Order Management, Reseller, Call Status, System Log, Menu, My Home Setting, and My Information. The bottom of the page shows pagination information: 'Page 1 of 2' and 'View 1 - 10 of 15'.

### View the state information in the grid

Grid column name	Description
Reseller	Displays the partner responsible for the customer.
Customer ID	Unique code for management the customer
Customer Name	The name used by customer in the system
User License(EA)	Displays the quantity of items for which the Item Group is a User License.

  - Test
- Call Fraud:**
  - Per User Call Fraud Default: 299 GBP/Day
  - Allowable Limit Per User Call Fraud: 300 GBP/Day (Maximum :300)

Buttons: Modify, Cancel, Save

Among the basic information of customers, items such as Company Name, Language, Customer Type, Contact Name, Contact E-mail, excluding Customer ID and Domain, can be modified, and call usage can be limited by changing the Fraud Prevention value.

## To modify the Basic Info tab

1. If you want to change data, click the Item.
2. Click the **Modify** button and the basic info modification page appears.

The screenshot shows the 'Customer Info' modification page in the iPECS OMS system. The page is divided into a left sidebar with navigation options and a main content area. The main content area has a top navigation bar with 'Basic Info', 'Administrator', 'Site Info', 'Billing Account', 'Service Info', 'Service Usage', 'Order History', and 'Phone Setting Info'. The 'Basic Info' tab is selected, showing a form with the following fields:

- Customer ID: C100000035
- Customer Company Name: Reseller Kwak
- Domain: kjs.com
- Language: English
- Customer Type: Normal
- Reseller: SKY Reseller (with a 'Change Reseller' button)
- Customer CLI: 0200010100
- Contact Info: Contact Name (Contact), Contact E-mail (kjs@skycom.ne.kr), Contact Direct Dial Call Number (000), Contact Extension (111), Mobile Number (222)
- Remark: Remark 1, Remark 2, Remark 3, Remark 4
- Additional Info: PO Number, Test
- Call Fraud: Per User Call Fraud Default (299 GBP/Day), Allowable Limit Per User Call Fraud (300 GBP/Day (Maximum 300))

At the bottom right of the form, there are 'Modify', 'Cancel', and 'Save' buttons.

3. Enter information based on the following.

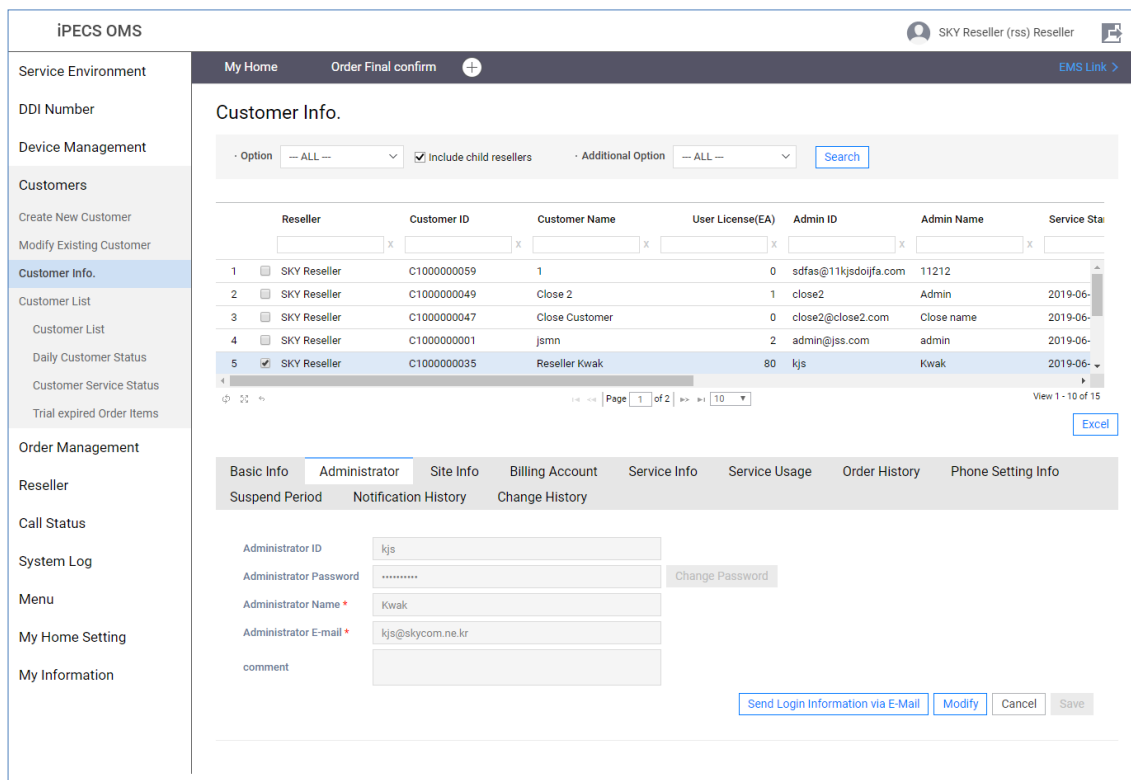

Item	Description
Customer Company Name	Enter the customer's company name.
Language	Select the language used by the customer from the languages listed
Customer Type	Customer's service type is displayed. <ul style="list-style-type: none"> <li>• <b>Normal</b>: Basic type of service</li> <li>• <b>Demo</b>: It is the type to limited the function and is not charged for usage</li> </ul>
Reseller	Displays the partner responsible for the customer, and can be changed by clicking the Change Reseller button.

<b>Item</b>	<b>Description</b>
Customer CLI	Enter the caller ID.
Contact Name	Enter the name of the contact person.
Contact E-mail	Enter an email address to use as a contact.
Contact Direct Dial Call Number	Enter the DDI number to use as a contact.
Contact Extension	Enter the extension number to use as a contact.
Mobile Number	Enter the mobile number to use as a contact.
Remark	Enter up to 5 additional descriptions of customer information.
Additional Info	Manage information about customer additions pre-set by SP The detailed item settings are managed by each customer
Default Outgoing Call Limit (Per User)	Default user-specific overuse limit
Custom Outgoing Call Limit (Per User)	User-Specific Overuse Limit

4. To save the change, click the **Save** button.
5. To exit without saving, click the **Cancel** button.

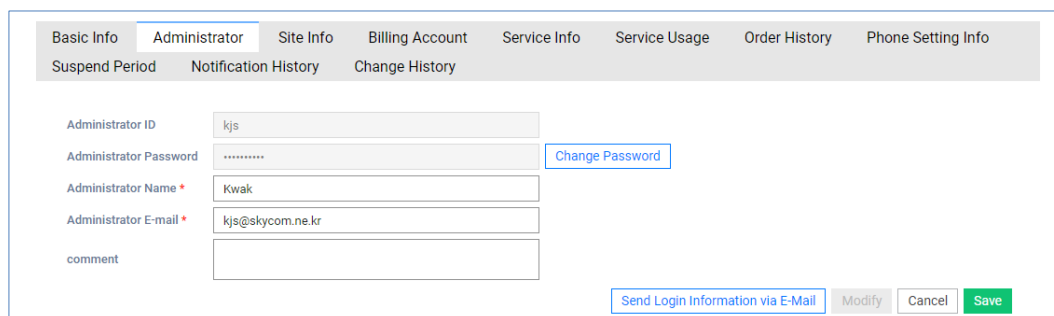

### 2.5.3.2 Administrator

You can manage access account information for the customer manager, change password, and send login information by email.

#### To modify the Administrator tab

1. If you want to change data, click the Item.
2. Click the **Modify** button and the administrator modification page appears.

3. Enter information based on the following.

Item	Description
Administrator Name	Enter the user name for the Customer account.
Administrator E-mail	Enter the customer's email address to receive system alarms.
Comment	Informational phrase or more description

4. To save the change, click the **Save** button.
5. To exit without saving, click the **Cancel** button.

**To send Test Email**

1. Change the administrator e-mail.
2. If you want to send a test email, click **Send Login Information via E-Mail** button.

### 2.5.3.3 Site Info

By default, customer site information is added by the ordering process. This tab provides the ability to view the complete list of sites for customers and to modify the information as needed

The screenshot shows the 'Site Info' tab in a web application. At the top, there are navigation tabs: Basic Info, Administrator, Site Info (selected), Billing Account, Service Info, Service Usage, Order History, and Phone Setting Info. Below these are sub-tabs: Suspend Period, Notification History, and Change History. The main content area displays a table of sites with columns for Main Site, Site Name, Address, City, and Co. The table has 4 rows. Below the table is a pagination bar showing 'Page 1 of 1' and 'View 1 - 4 of 4'. To the right of the table are 'Modify' and 'Cancel' buttons. Below the table is a form for editing a site. The form fields are: Site Name (Main), Main Site (radio buttons for TRUE and FALSE, with TRUE selected), Address (12), City (21), Country (empty), and Post Code (122). At the bottom right of the form are 'Cancel' and 'Save' buttons.

	Main Site	Site Name	Address	City	Co
1	TRUE	Main	12 12	21	
2	FALSE	Sub1	12 12	21	
3	FALSE	Sub2	12 12	21	
4	FALSE	Sub3	12 12	21	

#### To modify the Site Info

1. If you want to change data, click the Item.
2. Click the **Modify** button and the site info modification page appears.

The screenshot shows the 'Site Info' modification form. It has the same navigation tabs as the previous screenshot. The form fields are: Site Name (Main), Main Site (radio buttons for TRUE and FALSE, with TRUE selected), Address (12), City (21), Country (empty), and Post Code (122). At the bottom right of the form are 'Cancel' and 'Save' buttons.

3. Enter information based on the following.

Item	Description
Site Name	Enter the name of the site where customers are served.
Main Site	It indicates whether the customer is the main site and cannot be modified
Address	Enter the site's physical address.

<b>Item</b>	<b>Description</b>
City	The name of the city to which the address belongs.
Country	Administrative region of the city.
Post Code	The postal code that matches the Address.

4. To save the change, click the **Save** button.
5. To exit without saving, click the **Cancel** button.

## 2.5.3.4 Billing Account

Manage billing information for customers to receive bills for settlement.

The screenshot displays the iPECS OMS interface. The left sidebar lists various navigation options. The main content area is titled 'Customer Info.' and features a search bar with filters for 'Option' (set to 'ALL') and 'Include child resellers' (checked). Below the search bar is a table with the following data:

	Reseller	Customer ID	Customer Name	User License(EA)	Admin ID	Admin Name	Service Start
5	<input checked="" type="checkbox"/> SKY Reseller	C100000035	Reseller Kwak	80	kjs	Kwak	2019-06-21
6	<input type="checkbox"/> SKY Reseller	C100000019	Second JS	3	admin	sejs	2019-06-20
7	<input type="checkbox"/> SKY Reseller	C100000002	sky2	310	admin@sky2.com	jaehu chae	2019-07-02
8	<input type="checkbox"/> SKY Reseller	C100000205	sky9	15	admin@sky9.com	jaehu	2019-07-10
9	<input type="checkbox"/> SKY Reseller	C100000011	skycos	0	skycos@skycos.com	skycos	

Below the table, there are tabs for 'Basic Info', 'Administrator', 'Site Info', 'Billing Account', 'Service Info', 'Service Usage', 'Order History', and 'Phone Setting Info'. The 'Billing Account' tab is selected, showing a form with the following fields:

- Billing Account ID: 1000009
- Billing Account Name: Bill Acct
- Invoice Date / Payment Date: (empty)
- Billing Address: Addr
- City: (empty)
- Country: (empty)
- Post Code: (empty)

Buttons for 'Add', 'Modify', 'Cancel', and 'Delete' are visible at the bottom right of the form.

### To modify the Billing Account

1. If you want to change data, click the Item.
2. Click the **Modify** button and the site info modification page appears.

The screenshot shows the 'Billing Account' modification page. The form contains the following fields:

- Billing Account ID: 1000009
- Billing Account Name: Bill Acct
- Invoice Date / Payment Date: (empty)
- Billing Address: Addr
- City: (empty)
- Country: (empty)
- Post Code: (empty)

Buttons for 'Cancel' and 'Save' are located at the bottom right of the form.

3. Enter information based on the following.

Item	Description
Billing Account Name	Enter the recipient's name to receive the bill.
Invoice Date/Payment Date	Enter the settlement date information.

<b>Item</b>	<b>Description</b>
Billing Address	Enter the address to receive the bill.
City	The name of the city to which the address belongs.
Country	Administrative region of the city.
Post Code	The postal code that matches the Address.

4. To save the change, click the **Save** button.
5. To exit without saving, click the **Cancel** button.

### 2.5.3.5 Service Info

You can check the basic information of the customer and the number/equipment that the customer is using, and also check the service in use.

The screenshot displays the 'Customer Info' section of the iPECS OMS interface. It features a search bar at the top with filters for 'Option' (set to 'ALL'), 'Include child resellers' (checked), and 'Additional Option' (set to 'ALL'). Below this is a table listing customer records. The table has columns for Reseller, Customer ID, Customer Name, User License(EA), Admin ID, Admin Name, and Service Start Date. The first row is selected, showing details for 'SKY Reseller' with Customer ID 'C100000035' and Customer Name 'Reseller Kwak'. Below the table, there are tabs for 'Basic Info', 'Administrator', 'Site Info', 'Billing Account', 'Service Info', 'Service Usage', 'Order History', and 'Phone Setting Info'. The 'Service Info' tab is active, showing a form with fields for Customer (C100000035 Reseller Kwak), Customer Type (Normal), Service Plan (Standard Plan), Service Period (2019-06-20 ~ 9999-12-31), Service Start Date (2019-06-21), Service Status (Activated), Last Payment Date, Reseller (SKY Reseller), and Reference Date.

Information and quantity can be inquired about the service item, number, and device that the customer is currently using.

#### View the state information in the grid

Grid column name	Description
Customer	Displays the customer's ID and company name.
Customer Type	Normal, Demo, etc. are displayed as customer types.
Service Plan	The service plan that the customer is using is displayed.
Service Period	Displays the service opening date to the expiration date.
Service Start Date	Indicates the start of the service.
Service Status	Displays the customer's service status.
Last Payment Date	Displays the latest payment date.
Reseller	Displays the partner responsible for the customer.
Reference Date	The service status corresponding to the entered base date is displayed on the Service Item, Direct Dial Call Numbers, and Device.

### 2.5.3.5.1 Service Item

Customer can inquire the information of the service item in use and check the usage status of the service item.

Service Item							
Item Group	Item Name	Billing Account	Qty	Act. Date	Term. Date	Billing Start

## View the state information in the grid

Grid column name	Description
Reseller	The reseller selected in the search condition is displayed. If Include Child is selected, the child reseller is included and displayed.
Item Group	Displays the group of items provided by the customer.
Item Name	Displays the name of the item provided by the customer.
Cloud License	Displays the cloud license being used by reseller's customer.
Qty.	Displays the quantity of items.

## Per Cloud License

This menu shows the total number of allocated cloud licenses for each order item.

The screenshot shows the iPECS OMS interface. The left sidebar contains a navigation menu with the following items: Service Environment, DDI Number, Device Management, Customers (with sub-items: Create New Customer, Modify Existing Customer, Customer Info., Customer List, Daily Customer Status, Customer Service Status, Trial expired Order Items), Order Management, Reseller, Call Status, and System Log. The 'Customer Service Status' option is highlighted.

The main content area is titled 'Customer Service Status'. It includes a search filter with the following options:
 

- Reseller: SKY Reseller (dropdown), Include Child (checked)
- Option: View Details (radio), View Summary (selected)
- Base Date: 2019-07-11 (calendar icon), per Customer (radio), per Reseller (radio), per Cloud License (selected)

 A 'Search' button is located to the right of the filter options.

Below the filter is a table with the following data:

Cloud License	Item Group	Item Name	Qty.
ACD Call center seat License	ACD	ACD Call center seat	35
	[Sub-total]		35
ACD Call center supervisor License	ACD	ACD Call center supervisor	30
	[Sub-total]		30
ACD Group License	Group Feature	ACD Group	60
	[Sub-total]		60
ACD Group User License	ACD	ACD Group User	35
	[Sub-total]		35
ACD Report Manager License	ACD	ACD Report Manager	10
	[Sub-total]		10

At the bottom of the table, there is a pagination control showing 'Page 1 of 11' and a dropdown menu set to '10'. An 'Excel' button is located at the bottom right of the table area.

Using Qty.	Displays the quantity of service products in use by all customers under the Reseller selected in the search condition.
Return Reservation Qty.	Displays the quantity being returned.
Available Qty.	Displays the quantity of service products allocated to all customers under the Reseller selected in the search condition, excluding the quantity being used or returned.

### 2.5.4.5 Items Outside of Trial Period

It provides customer-specific order item status lookup function that belongs to child resellers including itself.

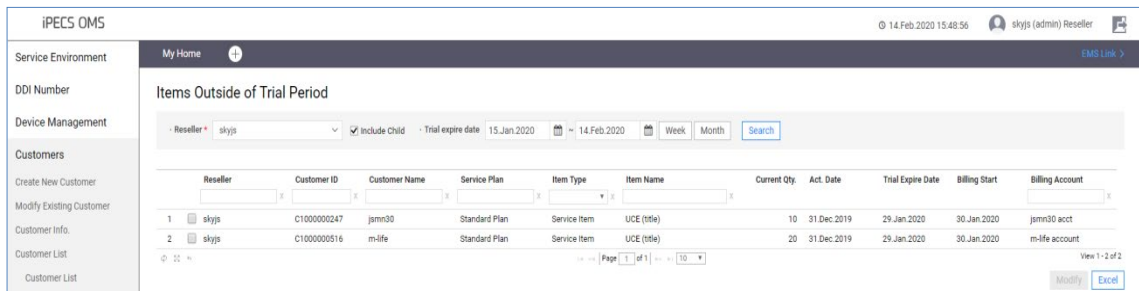

Check the status of the Trial expiration date among the Final Confirmed order items.

If the usage start date and the billing start date are different for each order item, calculate Billing Start Date - 1 day as the total expiration date.

Provides the ability to modify the Trial expiration date if the Trial expiration date is later than today.

However, if the order item is associated with a Vendor Cloud License, it cannot exceed the maximum Trial period set in the Cloud License.

The customer details that have already been closed are not inquired and are inquired into customers whose current status is Active.

#### View the state information in the grid

Grid column name	Description
Reseller	The reseller selected in the search condition is displayed. If Include Child is selected, the child reseller is included and displayed.
Customer ID	Unique code for management the customer
Customer Name	The name used by customer in the system
Service Plan	Service plan for the order item used by the customer is displayed.
Item Type	Options for defining the type of order product. <ul style="list-style-type: none"> <li>• <b>User Package</b> is a package product that includes User Seat License by default. Combining multiple order products with one Device Phone/Soft Client and Bundle License makes up the product.</li> <li>• <b>Feature Package</b> is a package product that does not include a User Seat License. Combining multiple order products and bundle licenses makes up a product.</li> <li>• <b>Service Item</b> configures products by linking with Cloud License. At this time, the Cloud License linked with the Shipping Device is not displayed in the Linked Cloud License list so that it cannot be connected.</li> <li>• <b>Customized Item</b> is an order product for user-defined and use.</li> </ul>

Grid column name	Description
Item Name	Enter a unique name of up to 100 characters that identifies the product ordered.
Current Qty.	Displays the quantity of items.
Act. Date	Displays the start date of the order item.
Trial Expire Date	Displays the date when the trial item's trial period expires.
Billing Start	Displays the settlement start date of the item.
Billing Account	Displays the account responsible for settlement.

### To modify a Trial days

1. Click the **Modify** button to display the modification page.
2. Select the **Increase/Decrease trial days** field to change.

The screenshot shows a form with the following fields and values:

- Customer: C1000000022 (da\_test customer 1)
- Item Type: Service Item
- Item Name: Voice Mail
- Current Qty.: 1
- Act. Date: 2019-06-22
- Increase / Decrease trial days: 0 Days (Min: -7, Max: 2)
- To be trial expire date: 2019-07-19
- To be billing start date: 2019-07-20

Buttons: Cancel, Save

- You can adjust the trial days using **up/down** arrows in the field.
3. Click the **Save** button.

## 2.5.5

# Customer Terms and conditions

This section explains how to view the terms and conditions. Reseller cannot register or modify the terms and conditions.

The screenshot shows the iPECS OMS interface. The left sidebar contains navigation options like 'Service Environment', 'Customers', 'Order Management', and 'Reseller'. The main content area is titled 'Customer Terms and conditions'. It features a search bar with an 'Available Period' filter and a 'Search' button. Below is a table with the following data:

	Title	Type	Available Period	Description	Creator
1	Privacy Statement	Terms of Service	22.May.2020 – 08.Jul.2020	Privacy Statement	SP Admin

Below the table is a detailed form for editing a 'Privacy Statement'. The form fields include:

- Title: Privacy Statement
- Type: Terms of Service
- Available Period: 22.May.2020 to 08.Jul.2020
- Terms and conditions: Ericsson-LG's privacy policy includes the following: end. Personal information items to be collected and collection methods 1. Purpose of collection and using personal
- Description: Privacy Statement
- Created / Creator: 22.May.2020 14:40:06, SP Admin
- Last Updated / Last Updater: 09.Jul.2020 16:49:01, SP Admin

Buttons for 'Add', 'Modify', 'Delete', 'Excel', 'Cancel', and 'Save' are visible at the bottom of the form.

### View the state information in the grid

Grid column name	Description
Title	Displays the title of terms and conditions.
Type	Displays the type of terms and conditions. Currently only the Terms of Service type is available.
Available Period	Displays the expiration date of terms and conditions.
Description	Displays descriptions of terms and conditions.
Creator	The name of the user who has registered terms and conditions is displayed.
Last Updated	Displays the last changed date and time.
Last Updater	Displays the name of the user who last changed.

### 2.5.5.1 Agree to terms and conditions

If the customer agrees to the terms and conditions on the EMS portal, it will be displayed on the Basic Information tab of the Customer Information screen.

The screenshot shows the 'Basic Info' tab of the Customer Information screen. The 'Terms and condition' section is highlighted with an orange box. The form includes the following fields and values:

Field	Value
Customer ID	C100000633
Customer Company Name *	jhchae420
Domain *	jhchae420.com
Language *	English
Customer Type *	Normal
Customer Service Type	Cloud Service
Reseller	Jaehu Reseller
Customer CLI	07048182000
Customer Group ID	
Customer Group Name	
Terms and condition	Privacy Statement
Apply Date	07.Sep.2020 ~ 12.Oct.2020
Accept Date	21.Sep.2020
Contact Name *	jhchae420
Contact E-mail *	jhchae@skyc.com.ne.kr
Contact Direct Dial Call Number	

#### View the state information in tab

Item	Description
Terms and condition	Displays the title of the terms and conditions. If you click the View Details Image button, a pop-up window appears, displaying the details of the terms and conditions.
Apply Date	Displays the validity period of the terms and conditions.
Accept Date	Displays the date and time that the customer agreed to the terms and conditions on the EMS portal.

## 2.5.6

# Customer Group

This section describes how to register a Customer Group and add customers to the Customer Group.

	Reseller	Customer Group ID	Customer Group Name	CM ID	Customers	Description	Last Updated
1	RE	G100000001	TEST GROUP	C01	1	TEST	10.
2	RE	G100000027	Second Test Customer Group	C01	1		01.
3	RE	G100000038	Change Group-A	C01	0		03.
4	RE	G100000039	Change Group-B	C01	1		03.
5	RE	G100000053	TEST GROUP 2	C01	1		07.

### View the state information in the grid

Grid column name	Description
Reseller	Displays the partner responsible for the customer group.
Customer Group ID	Unique code for management the customer group.
Customer Group Name	The name used by customer group in the system.
CM ID	Displays the CM ID of the Call Server to which the customer group belongs.
Customers	Displays the number of customers in the Customer Group.
Description	Displays a description of the Customer Group.
Last Updated	Displays the last changed date and time.
Last Updater	Displays the name of the user who last changed.

### To add a Customer Group

Reseller can add customer group as follows.

1. Click the **Add** button and customer group add page appears.

2. Enter information based on the following.

Item	Description
Customer Group ID	Customer Group ID is automatically assigned a serial number.
Customer Group Name	Enter the Customer Group Name. (Up to 40 characters).
Reseller	Select the reseller that owns the customer group.
Description	Enter a description of the customer group. (Up to 1000 characters)

3. Click the **Save** button.
4. To exit without saving, click the **Cancel** button.

### To modify the Basic Info tab

1. If you want to change data, click the customer group.
2. Click the **Modify** button and the basic info modification page appears.

The screenshot shows a web interface for modifying a customer group. At the top, there are three tabs: 'Basic Info.' (selected), 'Customer List', and 'Change History'. Below the tabs, the form contains the following fields:

- Customer Group ID: G1000000072
- Customer Group Name \*: TEST GROUP
- Reseller: RE (dropdown menu)
- Customers: 0
- Description: (empty text box)
- Registration Date: 14.Oct.2020 17:37:30
- Last Updated / Last Updater: 14.Oct.2020 17:37:30, RE

At the bottom right of the form, there are three buttons: 'Modify' (disabled), 'Cancel', and 'Save' (active).

3. You can edit only when there is no customer in the customer group, and only the customer group name and description can be modified.

Item	Description
Customer Group Name	Enter the Customer Group Name. (Up to 40 characters).
Description	Enter a description of the customer group. (Up to 1000 characters)

4. To save the change, click the Save button.
5. To exit without saving, click the **Cancel** button.

### 2.5.6.1 Basic Info

If you select Customer Group from the list in section 2.5.6 Customer Group, detailed information is displayed on the Basic Info tab.

The screenshot shows a web interface with three tabs: 'Basic Info.', 'Customer List', and 'Change History'. The 'Basic Info.' tab is active. The form contains the following fields:

Customer Group ID	G1000000059	C01
Customer Group Name *	MOG Group	
Reseller	MOG	
Customers	3	
Description		
Registration Date	23.Sep.2020 16:16:01	
Last Updated / Last Updater	23.Sep.2020 16:16:40	SP Admin

Buttons: Modify, Cancel, Save

Item	Description
Customer Group ID/ CM ID	Unique code for management the customer group. Displays the CM ID of the Call Server to which the customer group belongs.
Customer Group Name	The name used by customer group in the system.
Reseller	Displays the partner responsible for the customer group.
Customers	Displays the number of customers in the Customer Group.
Description	Displays a description of the Customer Group.
Registration Date	Displays the registration date and time.
Last Updated/Last Updater	Displays the last changed date and time. Displays the name of the user who last changed.

## 2.5.6.2 Customer List

Displays a list of the customers belonging to the customer group selected from the list in Section 2.5.6. Multiple tenants are grouped into a group, and each tenant is used as an extension call by pressing the extension number including the dial number identified by the other's Customer Access Code. Resellers cannot register Customers in the Customer Group.

	Customer ID	Customer Name	Customer Access Code	CM ID	Tenant
1	C1000000511	MOG24	*71	C01	C01T00049
2	C1000000512	MOG25	*72	C01	C01T00050
3	C1000000525	MOG26		C01	C01T00053

### View the state information in the grid

Grid column name	Description
Customer ID	The customer IDs of customers in the customer group are displayed.
Customer Name	Displays the name of the customer corresponding to the customer ID.
Customer Access Code	A dial number is displayed to identify the tenant within the customer group.
CM ID	The ID information of the call server being used is displayed.
Tenant	Tenant information of the CM being used is displayed.
Tenant Prefix	Displays tenant information, including information added by default.
Customer Status	Displays the customer's service status. <ul style="list-style-type: none"> <li>• <b>Ordering</b>: Order is in progress</li> <li>• <b>Created</b>: Order process is final confirmed</li> <li>• <b>Activated</b>: Service is in use</li> <li>• <b>Closed</b>: Service provision has expired</li> <li>• <b>Stopped</b>: Service is paused</li> <li>• <b>Cancel</b>: The canceled order is not displayed in the Customer Info screen</li> </ul>
Customer Type	Normal, Demo, etc. are displayed as customer types.

### 2.5.6.3 Change History

In this tab, you can view the history of adding and deleting customers to the customer group.

Basic Info. Customer List Change History				
Change Date	Act Type	Customer ID	Customer Name	
1	13.Oct.2020 17:53:14	Add	C1000000525	MOG26

10	06.Oct.2020 14:30:14	Delete	C1000000512	MOG25

View 1 - 10 of 15

#### View the state information in the grid

Grid column name	Description
Change Date	Displays the date and time the customer was added or deleted from the customer group.
Act Type	Indicates whether a customer has been added or deleted from the customer group.
Customer ID	The customer IDs of customers in the customer group are displayed.
Customer Name	Displays the name of the customer corresponding to the customer ID.
SP / Reseller	Displays the SP who added or deleted customers to the customer group.
Operator	Displays the users of the SP who added or deleted customers to the customer group.

## 2.5.6.4 Customer Info (Customer Group)

This section describes how to view customer group information on the Customer Information screen in Section 2.5.3. Reseller cannot change Customer's Customer Group.

The screenshot displays the iPECS OMS interface for viewing customer group information. The main content area shows a table of customer records. The table has the following columns: Reseller, Customer ID, Customer Name, User License(EA), Admin ID, Admin Name, and Service Start. The data in the table is as follows:

Reseller	Customer ID	Customer Name	User License(EA)	Admin ID	Admin Name	Service Start
MOG	C100000495	MOG22	22	admin@mog22.com	mog22	
MOG	C100000499	MOG23	1	admin@mog23.com	mog23	
MOG	C100000511	MOG24	10	admin@mog24.com	mog24	
MOG	C100000512	MOG25	0	admin@mog25.com	mog25	
MOG	C100000525	MOG26	2,623	admin@mog26.com	mog26	

Below the table, the 'Basic Info' tab is selected, showing a form with the following fields:

- Customer ID: C100000511
- Customer Company Name: MOG24
- Domain: mog24.com
- Language: English
- Customer Type: Normal
- Customer Service Type: Cloud Service
- Reseller: MOG (with a 'Change Reseller' button)
- Customer CLI: 7987240000001
- Customer Group ID: G100000059
- Customer Group Name: MOG Group
- Terms and condition: "Customer" "Terms" and "conditions"
- Apply Date: 09 Jul 2020 - 06 Sep 2020
- Accept Date: 21 Jul 2020

Item	Description
Customer Group ID	Displays the customer Group ID to which the customer belongs.
Customer Group Name	Displays the name of the customer group. If you click the <b>detail view</b> button, detailed information of the customer group is displayed in a pop-up window.

## 2.6 Order Management

This section describes how the order process is organized and how the order process is performed.

### 2.6.1 Order Status

The complete order details of the customers belonging to the sub-partner, including the login partner, are reviewed in batches. It provides correction and unregistration functions according to order status.

Make it possible to modify/cancel an order request partner and a login partner only if they are the same.

The selected order details are viewed on the bottom screen and will run on the Modify pop-up screen to modify an order while in the **Registration** state.

#### View the state information in the grid

Grid column name	Description
Order Date	The start date of the order is displayed.
Reseller	Show ordered partners.
Customer ID	The Customer ID of the ordered customer is displayed.
Customer Name	Displays the name of the customer corresponding to the customer ID.
Order No	The unique sequence number for the order.
Order Type	Customer's Order Type is displayed. <ul style="list-style-type: none"> <li>• <b>New Customer:</b> Create new customer</li> <li>• <b>Service Start:</b> Start service</li> <li>• <b>Change:</b> Change service items, equipment, etc</li> <li>• <b>Service Stop:</b> Pause the service</li> </ul>

### 2.6.1.1.1 New Customer Order Change Popup

If Create New Customer Order is in Registration status, you can click the **Modify Order** button to bring up a pop-up where you can change the Order information to change the current Order information.

The screenshot shows the 'Create New Customer' popup in the iPECS OMS interface. The popup has a title bar with 'iPECS OMS' on the left and 'SKY Reseller (rss) Reseller' on the right. Below the title bar is a breadcrumb navigation bar with steps: 'Customer Info' (highlighted in green), 'Service Plan & Customer Site', 'Number Ordering', 'Number Assign', 'Order Items', 'Trunk Channel', 'Device Ordering', and 'Call Bundle & Call Fraud'. Below the breadcrumb bar are two buttons: 'Device Shipping Info.' and 'Submit Order'. The main content area is divided into two sections: 'Customer Profile' and 'Billing Account'. The 'Customer Profile' section contains the following fields: 'Customer Company Name' (text input with value 'skycor8'), 'Domain' (text input with value 'sky8.com' and a note 'Only input lowercase characters.'), 'Language' (dropdown menu with value 'English'), 'Customer Type' (dropdown menu with value 'Normal'), 'Reseller' (dropdown menu with value 'SKY Reseller'), and 'PO Number' (text input). The 'Billing Account' section contains the following fields: 'Billing Account Name' (text input), 'Billing Address' (text input), 'City' (text input), and 'Country' (text input). A 'Close' button is located at the bottom right of the popup.

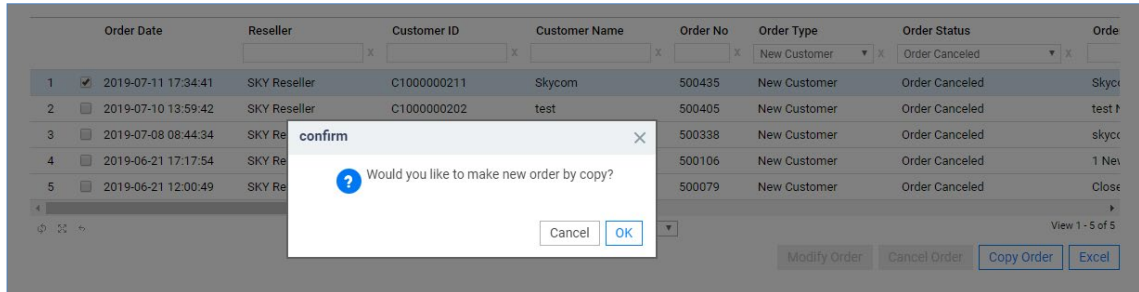

---

**NOTE** Please refer to Reseller's Create New Customer menu item for a description of the popup.

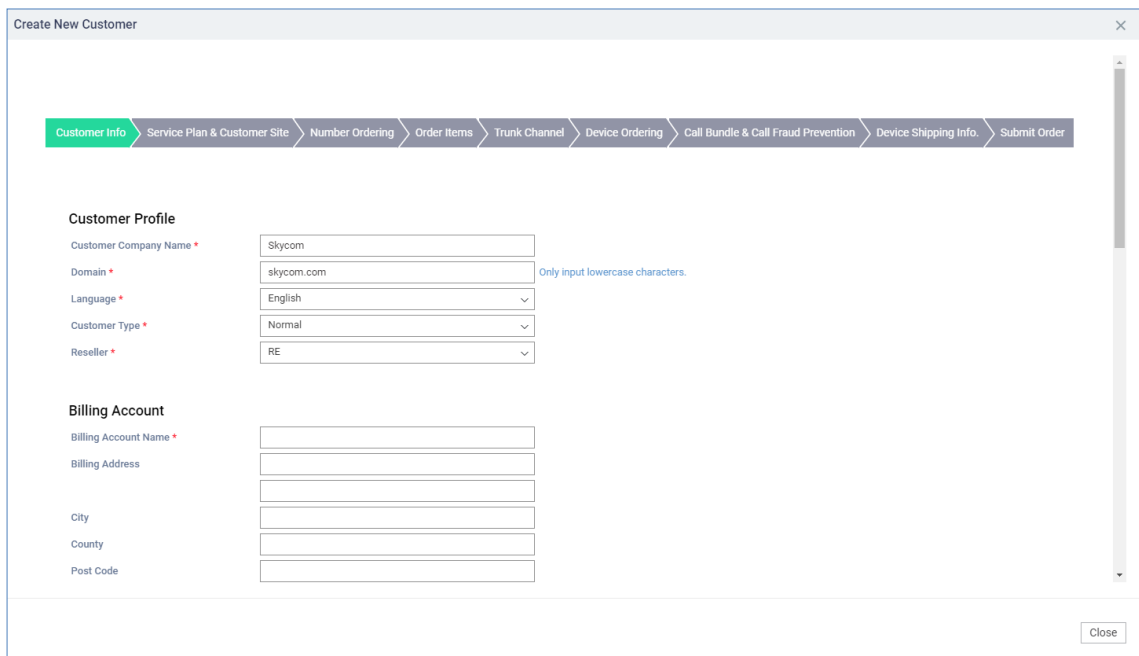

---

### 2.6.1.1.2 Copy Order

If the selected order's status is Order Canceled or Rejected Order, the **Copy Order** Button will be activated.

If the Order Type is New Customer, the Create New Customer Order screen pops up. In the pop-up screen, the previously ordered contents are copied and displayed.

**NOTE** For a description of the Create New Customer screen, see Section 2.5.1 Create New Customer.

### 2.6.1.2 Change Order

If you apply for a change order from Modify Existing Customer, the input or application items are displayed, and only the item that requested the change is displayed.

### 2.6.1.2.1 Change Order Change Popup

If the Change Order is in the Registration status, you can click the **Modify Order** button to bring up a pop-up where you can change the Order information to change the current Order information.

The screenshot shows the iPECS OMS interface with a 'Change Order' popup window. The popup has a breadcrumb trail: 'Order Title & Customer Site' (highlighted in green), 'Number Ordering', 'Number Assign', 'Order Items', 'Trunk Channel', 'Device Ordering', 'Call Bundle', 'Device Shipping Info', and 'Submit Order'. The form is divided into two sections: 'Order Title' and 'Customer Site'. The 'Order Title' section includes fields for 'Order No. / Title' (500482 | skycor4 Change Order), 'Service Plan' (Standard Plan), 'Change Date \*' (2019-07-11), and 'Agreement Period' (-- NONE --). There is also a text area for 'Order Note'. The 'Customer Site' section includes fields for 'Site Name \*', 'Address 1 \*', 'Address 2', 'City \*', 'Country', and 'Post Code \*'. An 'Add' button is located at the bottom right of the form. The background shows the iPECS OMS header with 'SKY Reseller (rss) Reseller' and a sidebar with various menu items.

---

**NOTE** Please refer to the Reseller's Change Order section for a description of the popup.

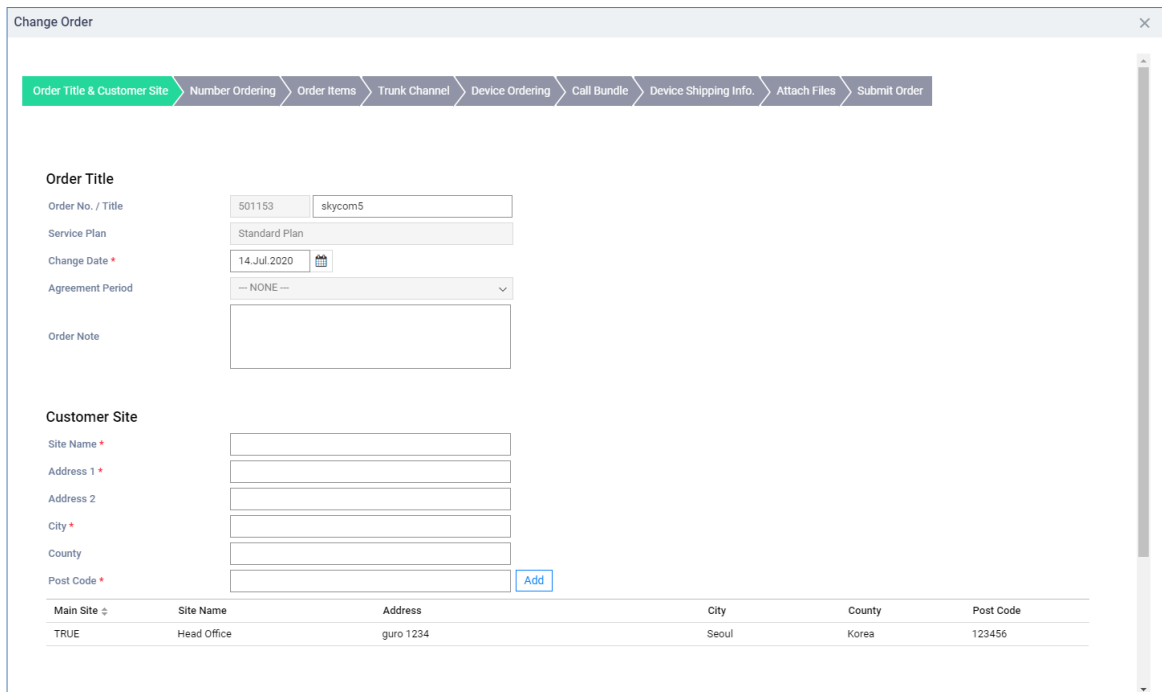

---

### 2.6.1.2.2 Copy Order

If the selected order's status is Order Canceled or Rejected Order, the Copy Order Button will be activated.

If the Order Type is Change, the Change Order screen pops up. In the pop-up screen, the previously ordered contents are copied and displayed.

**NOTE** For the description of the Change Order screen, refer to the Change Order screen in Section 2.5.2.2 Change Order.

### 2.6.1.3 Service Stop

This is displayed when you apply for a Service Stop Order from Modify Existing Customer.

Customer Company Name	C100000002 / sky2

## 2.7

# Reseller

This section describes how to manage resellers and child resellers, view their status and information, and manage and view Lifetime licenses.

### 2.7.1

## Reseller Management

Look up the list of sub-renewers based on the login partner and perform the following tasks, such as registering or changing sub-renewal according to permissions

The screenshot displays the 'Reseller Management' page in the iPECS OMS system. The interface includes a search bar with the following fields: Reseller ID, Reseller Company Name, Administrator Name, Administrator ID, Reseller Domain, and Customer(EA). A table below the search bar shows one entry with the following details: Reseller ID: 100021, Reseller Company Name: 100021, Administrator Name: AdminReseller, Administrator ID: skyres@skyres, Reseller Domain: skyres, and Customer(EA): 0. The page also features navigation buttons for 'Add', 'Delete', and 'Excel', and a sidebar menu with various options including 'Reseller', 'Reseller Status', 'Lifetime License', 'Call Status', 'System Log', 'Menu', 'My Home Setting', and 'My Information'.

**NOTE** The logged in reseller is unable to change its information.

### View the state information in the grid

Grid column name	Description
Reseller ID	Unique code for management the reseller
Reseller Company Name	Reseller's company name is displayed.
Administrator Name	Displays the partner's Chief Admin account name.
Administrator ID	Displays the partner's Chief Admin account ID.
Reseller Domain	Displays the partner's domain.
Customer(EA)	Displays the number of customers excluding demos where partner contracts exist.

Grid column name	Description
Demo Customers(EA)	Displays the number of demo customers that have a partner's commitment.
Parent Reseller	Displays the name of the parent partner.
Status	Displays the partner's status. <ul style="list-style-type: none"> <li>• <b>Activate:</b> You can log in to the system to activate.</li> <li>• <b>Deactivate:</b> Login to the system is not possible.</li> </ul>

3. Modify the items you want to change.
4. Click the **Save** button.

## 2.7.1.2 Administrator

This is a screen for managing account information that can use the reseller's authority, and one Chief Admin account must be selected. You don't have a Chief Admin account, or you can't choose more than one.

The screenshot shows the 'Administrator' tab in a management interface. At the top, there are tabs for 'Basic Info', 'Administrator', 'Additional Info', 'Child Reseller', 'Permission', 'Useable Service Plan', and 'Notification History'. Below these is a 'Change History' section. The main form contains several input fields: 'Administrator ID', 'Administrator Name', 'Administrator E-mail', 'Chief Admin' (a dropdown menu), and 'Auth. Gro'. Below the form is a table with one row of data. The table has columns for 'Administrator ID', 'Administrator Name', 'Administrator E-mail', 'Chief Admin', and 'Auth. Gro'. The row contains the values: '1', 'skyles', '@skyles', 'AdminReseller', 'kjs@skycom.com', and 'Reseller'. At the bottom of the form, there are buttons for 'Send Login Information via E-Mail', 'Modify', 'Cancel', and 'Save'.

### View the state information in the grid

Grid column name	Description
Administrator ID	Displays the partner's system login account ID information.
Administrator Name	The name of the user using the Administrator ID is displayed.
Administrator E-mail	The email address of the user using the Administrator ID is displayed.
Chief Admin	The main account is displayed from the Administrator ID.
Auth. Group	Displays the account's permission groups.
Language	Displays the language used by the account logged in with the Administrator ID.
Password	You can change the password used by the administrator ID.

### To modify the Administrator Tab

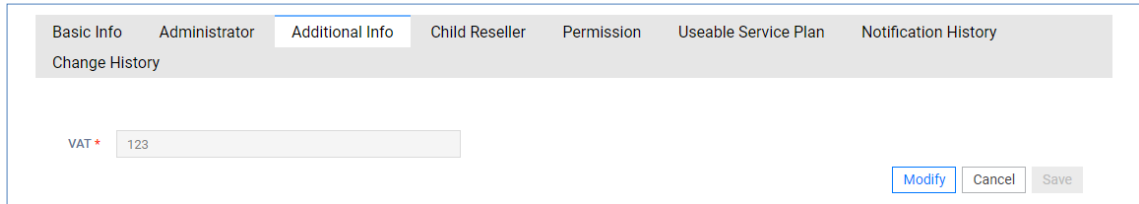

1. If you want to change the item, select the item
2. Click the **Modify** button.

This screenshot is similar to the previous one, but the 'Modify' button in the bottom right corner is highlighted in green, indicating it is the active button for the selected item in the table.

- When adding or deleting an account, you can add or delete it using the button at the bottom left in the grid edit mode, and click the plus button to add an account. Click the minus button to delete your account.
3. Modify the items you want to change.
  4. Click the **Save** button.

### 2.7.1.3 Additional Info

This is a screen to manage additional information about Reseller. Additional info. Items registered in the Items tab are exposed, so if there are no registered items or Available is false, they are not exposed.

The screenshot shows a web interface with a top navigation bar containing tabs: Basic Info, Administrator, Additional Info (selected), Child Reseller, Permission, Useable Service Plan, and Notification History. Below the tabs is a 'Change History' section. The main content area features a 'VAT \*' label followed by a text input field containing '123'. At the bottom right, there are three buttons: 'Modify' (highlighted in blue), 'Cancel', and 'Save'.

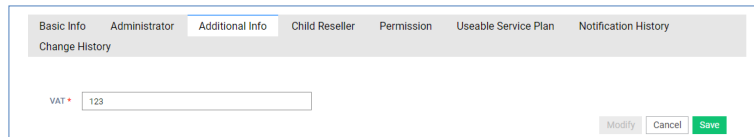

---

**NOTE** There is no fixed item, so there is no description of the item.

---

#### To modify the Additional Info Tab

1. If you want to change the item, select the item
2. Click the **Modify** button.

This screenshot is identical to the one above, showing the 'Additional Info' tab with 'VAT \*' set to '123'. However, in this version, the 'Save' button is highlighted in green, while the 'Modify' button is no longer highlighted.

3. Modify the items you want to change.
4. Click the **Save** button.

### 2.7.1.4 Child Reseller

The parent reseller set in the Basic Info tab creates a parent-child relationship, exposes a list of parent-child relationships in the form of a tree, and displays the basic info of the Reseller on the right when selecting a tree item on the left.

Basic Info	Administrator	Additional Info	Child Reseller	Permission	Useable Service Plan	Notification History
Change History						
[Normal Reseller] 100021			Reseller ID	100021		
			Reseller Company Name	100021

## 2.7.2

# Reseller Status

Look up the list of child reseller, including yourself, as well as the resource details assigned to the reseller and additions to the reseller.

The screenshot shows the 'Reseller Status' page in the iPECS OMS system. The page title is 'Reseller Status' and it displays a table of reseller information. The table has the following columns: Reseller ID, Reseller Company Name, Reseller Type, Parent, Customer (EA), Demo Customers (EA), and Package (EA). The data in the table is as follows:

Reseller ID	Reseller Company Name	Reseller Type	Parent	Customer (EA)	Demo Customers (EA)	Package (EA)
1 100007	SKY Reseller	Normal Reseller	Pragma	0	0/10	
2 100010	Datakom	Normal Reseller	Pragma	3	2/500	47
3 100016	5G	Normal Reseller	Pragma	0	1/5	
4 100018	5G_R1	Normal Reseller	5G	0	2/10	
5 100019	5g_r2	Normal Reseller	5G	0	0/1	
6 100021	100021	Normal Reseller	SKY Reseller	0	0/2	
7 100042	City VSP	VSP Reseller	Pragma	0	1/1	
8 100043	jung	Normal Reseller	Pragma	0	0/1	

The page also includes a navigation menu on the left with options like Service Environment, DDI Number, Device Management, Customers, Order Management, Reseller, Reseller Management, Reseller Status, Lifetime License, Lifetime License Order, Lifetime License Approval, and Lifetime License Order Status. The top navigation bar includes options like My Home, Modify Existing Customer, Order Final confirm, Daily Call Usage, Number Porting, and EMS Link. The page also has a search bar and a page indicator showing 'Page 1 of 1' and 'View 1 - 8 of 8'.

### 2.7.3

## Lifetime License

The Lifetime license is managed by the reseller unit and is associated with User Package (User license).

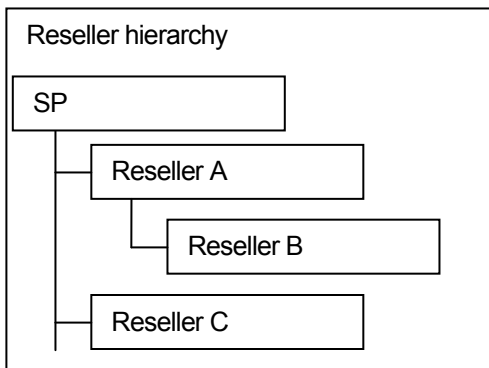

User In the case of settlement between vendor and SP, the user license is settled according to the number of user package. In the case of purchase of lifetime license for each reseller under SP, the amount of purchased lifetime license is excluded from user license settlement. □

Lifetime license You will be charged for the Lifetime maintenance license instead of being excluded from the license as much as the quantity.

### (Example) If Reseller A holds 100 Lifetime licenses,

```
. If the User package quantity of the reseller A customer is 90
    → User licensed to: 0
      Lifetime maintenance License: 90
. Reseller A has 120 user packages.
    → User licenses: 20
      Lifetime maintenance for: 100
```

Lifetime license aggregation is applied to the user license calculation by aggregating in the reseller unit, but the lifetime license amount is settled for the quantity approved by the SP.

When ordering a Lifetime License, in the partner structure shown on the left, B can be ordered to A and A to SP. When B orders A, A can only be assigned to B within the quantity he holds. Although B can be ordered to SP rather than A, the lifetime license quantity can only be allocated to B within the quantity owned by A.

### 2.7.3.1 Lifetime License Order

An SP or reseller provides a lifetime license assignment order to a parent partner.

The sub-partner of the login partner can view the current lifetime license status and user package status, and provides additional lifetime license order and order history inquiry function.

Lifetime licenses are optionally classified into basic and hybrid types and are managed separately.

#### View the state information in the grid

Grid column name	Description
SP/Reseller	Displays the partner's name.
SP/Reseller Type	Displays the type of partner ordered.
Parent SP/Reseller	Shows the partner's parent partner.
Lifetime Option	Displays lifetime licenses in basic type and hybrid type. <ul style="list-style-type: none"> <li>• <b>Lifetime:</b> basic type</li> <li>• <b>Hybrid Lifetime:</b> It's a way for resellers to pay their lifetime licenses in installments for three or five years without paying them in a lump sum.</li> </ul>
Total Lifetime License (EA)	Displays the total quantity held by the partner.
Allocated to Child (EA)	Displays the quantity assigned to sub-partners.
Lifetime User (EA)	Displays the number of users to whom the Lifetime license has been applied.
Non Lifetime User (EA)	Displays the number of users whose lifetime license has not been applied.
Inactive Lifetime License (EA)	Displays the number of unused licenses.
User License within Order Process (EA)	The number of licenses in progress is displayed.

### 2.7.3.1.1 Lifetime License Order

With the tab screen that provides the Lifetime License Order function, you can place an order by specifying the order quantity and application date.

#### View the state information in the list

Input box name	Description
SP/Reseller Company Name	The company name of the login partner applying for the order is automatically displayed and cannot be modified.
Request to	This is the area to select the target to approve the order.
Lifetime Option	Displays lifetime licenses in basic type and hybrid type. <ul style="list-style-type: none"> <li>• <b>Lifetime:</b> basic type</li> <li>• <b>Hybrid Lifetime:</b> It's a way for resellers to pay their lifetime licenses in installments for three or five years without paying them in a lump sum.</li> </ul>
Current-Total Lifetime License	Displays the current lifetime license quantity for the selected partner in the grid.
Increase/Decrease Order	Enter the order increase/decrease quantity. To return, just add a minus sign in front of the number.
To be - Total Lifetime License	Displays the lifetime quantities changed by the quantity ordered.
Activation Date	Specify the date on which the Lifetime License applies.
Comment	Informational phrase or more description.

### 2.7.3.1.2 Order Request History

In the Lifetime License order grid, the order history requested by the selected partner is displayed. If there is no history requested, the order request history tab is not displayed.

Lifetime License Order		Order Request History								
Order Date	Order Status	Request to	Lifetime Option	Act. Date	Approve Date	License Qty. before Order	Order Qty.	License Qty. after Order	Order Comment	
1	2022-01-12 13:17:29	Order Approved	SP Company	Lifetime	2022-01-12	2022-01-12 13:18:41	10	1	11	PO No : 12345
2	2022-01-12 13:16:51	Order Approved	SP Company	Lifetime	2022-01-12	2022-01-12 13:18:38	10	5	15	
3	2022-01-12 11:23:35	Order Approved	SP Company	Lifetime	2022-01-12	2022-01-12 11:24:34	0	10	10	

If the selected partner in the grid has a request history, the **Order Request History** tab is activated and the history is displayed.

#### View the state information in the grid

Grid column name	Description
Order Date	Displays the order request date and time.
Order Status	Displays the progress of the order. <ul style="list-style-type: none"> <li>• <b>Ordered:</b> Order request</li> <li>• <b>Order Rejected:</b> Order rejection</li> <li>• <b>Order Approved:</b> Order approval</li> </ul>
Request to	Shows the partner who will order the order.
Lifetime Option	Displays lifetime licenses in basic type and hybrid type. <ul style="list-style-type: none"> <li>• <b>Lifetime:</b> basic type</li> <li>• <b>Hybrid Lifetime:</b> It's a way for resellers to pay their lifetime licenses in installments for three or five years without paying them in a lump sum.</li> </ul>
Act. Date	The date reflecting the ordered Lifetime License is displayed.
Approve Date	Approved Displays the date and time.
License Qty. before Order	Displays the quantity of licenses before the order.
Order Qty.	Ordered license quantity is displayed.
License Qty. after Order	When the order is completed, the license quantity is displayed.
Order Comment	Displays the contents of the note created when the Order is requested.
Approval Comment	Displays the contents of the note created at the time the Order is Approve.
Approver	Displays the administrator name of the partner who applied the order.

### 2.7.3.1.3 Received Ordering History

The partner selected in the Lifetime License Order grid displays the order history requested, and if no history has been requested, the Received Ordering History tab does not appear.

Order Date	Order Status	Order Reseller	Lifetime Option	Act. Date	Approve Date	License Qty. before Order	Order Qty.	License Qty. after Order
2022-01-12 14:29:09	Ordered	Child Reseller	Lifetime	2022-01-12		0	1	1
2022-01-12 14:29:05	Ordered	Child Reseller	Lifetime	2022-01-12		0	10	10

If the selected partner in the grid has a received history, the '**Received Ordering History**' tab is activated and the history is displayed.

#### View the state information in the grid

## 2.8.3

# Call Fraud Status

In real time, it compares the amount of call amount aggregation and Fraud setting amount in real time, checks the excess amount of generated Fraud setting amount, and unblocks the extension in blocking state if necessary. Also, it is possible to unblock an extension in a blocking state. Unblocking processing is available only to the reseller to whom the customer belongs.

	Fraud Day	Reseller	Customer Name	Extension	Extension Name	Site Name	User State	Fraud
1	2019-06-26 11:45:18	Reseller_Kwak	Kwak	1005	Mino	SiteA	Blocking	
2	2019-06-26 11:45:18	Reseller_Kwak	Kwak	1004	Manon	SiteA	Unblocking	
3	2019-06-24 17:32:18	Reseller_Kwak	Kwak	1004	Manon	SiteA	Unblocking	
4	2019-06-24 17:32:18	Reseller_Kwak	Kwak	1005	Mino	SiteA	Blocking	

### To unblock Extensions

1. Click the **Unblock** button and the Unblock popup appears.
2. Click the **Unblock Comment** field to enter your comments.

Unblocking

Unblock Comment

Cancel Save

- Writing a reason for unblocking in the text field.
3. If you click the **Save** button, the blocked call will be released and the call will be possible.
  4. To exit without saving, click the **Cancel** button.

## 2.9

# System Log

This section describes the functions related to the system log so that the event log generated by the OMS service can be easily viewed on the screen by the service administrator, and the action or system administrator can be queried as needed. The system event log provided to Reseller is Login History, Notification History, etc.

### 2.9.1

## Login History

This screen provides the function to search the login history of the corresponding Reseller and child Reseller users. If you have any inquiries regarding login failure of Reseller users, you can check briefly on this screen.

Date	State	Retry Count	Reseller	Login ID	Login Name	System Role	Auth. Role	Login IP
14 Feb 2020 15:50:38	Login	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 15:00:34	Logout	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 15:00:05	Login	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 14:31:20	Logout	1	5G	5g@5g.com	James Lee	Reseller	Reseller	192.168.255.118
14 Feb 2020 14:18:11	Login	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 14:16:46	Logout	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 14:16:23	Login	2	5G	5g@5g.com	James Lee	Reseller	Reseller	192.168.255.118
14 Feb 2020 14:16:14	Login Fail	1	5G	5g@5g.com	James Lee	Reseller	Reseller	192.168.255.118
14 Feb 2020 14:06:52	Login	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1
14 Feb 2020 13:35:48	Login	1	5G	5g@5g.com	James Lee	Reseller	Reseller	127.0.0.1

1. To check the login history, enter the search start date and time and the search end date and time, then click the Search button. The search period is set to same-day search by default.

2. Enter information based on the following.

Item	Description
Date	Displays the date and time of the log-in request.
State	The login history is displayed as follows. <ul style="list-style-type: none"> <li>• <b>Login:</b> Login success history.</li> <li>• <b>Logout:</b> Logout history.</li> <li>• <b>Login Fail:</b> Login failure history.</li> <li>• <b>Redirect Login Success:</b> Login success history through EMS Link or Account Information via Email.</li> <li>• <b>Redirect Login Fail:</b> Login failure history through EMS Link or Account Information via Email.</li> </ul>
Retry Count	The number of attempts to log in with the same login ID. It accumulates when a login request fails within 5 minutes, and if it

<b>Item</b>	<b>Description</b>
	fails more than 5 times, it blocks the login request of the corresponding login ID for 5 minutes.
Reseller	Displays the company name of the Reseller user who requested login.
Login ID	Displays the login ID of the user who requested the login.
Login Name	The user name of the user who requested the login is displayed.
System Role	Displays the system roles of users within the OMS service. User's system authority is divided into Reseller.
Auth. Role	Displays user-defined menu permission groups, including VSP Reseller, and Reseller, which are user's menu permission groups provided by OMS. For the description of the menu authority group. Refer to Section 2.10.1 Menu Auth Setting.
Login IP	Displays the client IP address included in the browser header of the user who requested the login.

## 2.9.2

# Menu Access History

In this screen, in case of Reseller, it provides the function to search the history of accessing the menu of the Reseller and sub Reseller users.

Date	Reseller	Account ID	Account Name	System Role	Auth. Role	Menu Name	Client IP
14 Feb 2020 16:05:39	5G	5g@5g.com	James Lee	Reseller	Reseller	Menu Access History	127.0.0.1
14 Feb 2020 16:02:38	5G	5g@5g.com	James Lee	Reseller	Reseller	Login History	127.0.0.1
14 Feb 2020 16:02:02	5G	5g@5g.com	James Lee	Reseller	Reseller	Call Fraud Status	127.0.0.1
14 Feb 2020 16:00:11	5G	5g@5g.com	James Lee	Reseller	Reseller	Hourly Call Usage	127.0.0.1
14 Feb 2020 15:58:27	5G	5g@5g.com	James Lee	Reseller	Reseller	Daily Call Usage	127.0.0.1
14 Feb 2020 15:54:09	5G	5g@5g.com	James Lee	Reseller	Reseller	Daily Cloud License Status	127.0.0.1
14 Feb 2020 15:51:42	5G	5g@5g.com	James Lee	Reseller	Reseller	Lifetime License Status	127.0.0.1
14 Feb 2020 15:51:20	5G	5g@5g.com	James Lee	Reseller	Reseller	Lifetime License Order Status	127.0.0.1
14 Feb 2020 15:50:40	5G	5g@5g.com	James Lee	Reseller	Reseller	Lifetime License Approval	127.0.0.1
14 Feb 2020 15:00:20	5G	5g@5g.com	James Lee	Reseller	Reseller	Shipping Result	127.0.0.1

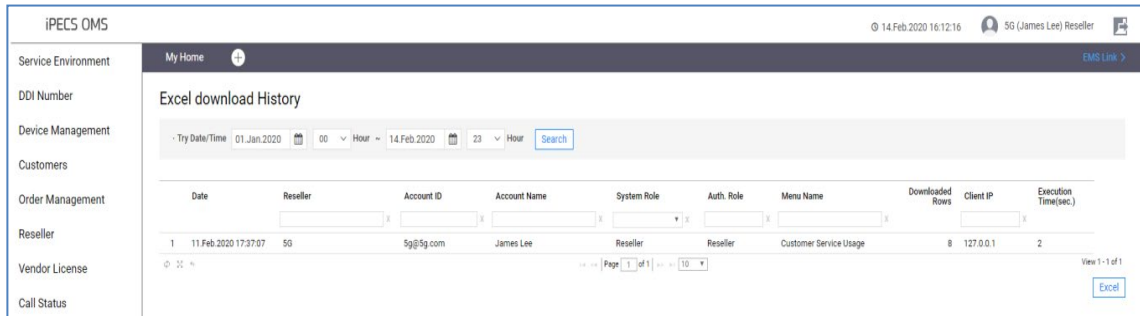

1. Enter the search start date and time and search end date and time to check the menu access history, and click the **Search** button. The search period is set to same-day search by default.

2. Enter information based on the following.

Item	Description
Date	Displays the date and time of the history requesting access to the menu.
Reseller	Displays the company name of the Reseller user who requested the menu access.
Account ID	The login ID of the user who requested the menu access is displayed.
Account Name	The user name of the user who requested the menu access is displayed.
System Role	Displays the system roles of users within the OMS service. User's system authority is divided into Reseller.
Auth. Role	Displays user-defined menu permission groups, including VSP Reseller, and Reseller, which are user's menu permission groups provided by OMS. For the description of the menu authority group. Refer to Section 2.10.1 Menu Auth Setting.
Menu Name	The menu name of the menu requested by the user is displayed.
Client IP	Displays the client IP address included in the browser header of the user requesting access to the menu.

## 2.9.3 Excel download History

This screen provides the ability to search the Excel download history for resellers and sub-reseller users. If you have any inquiries regarding reseller users' Excel download capabilities, you can simply check on this screen.

1. To check the download history of Excel, enter the search start date and time and the search end date and time, then click the **Search** button. The search period is set to same-day search by default.

2. Enter information based on the following.

Item	Description
Date	Displays the date and time of the history of requesting Excel download.
Reseller	Displays the company name of the SP or Reseller user who requested Excel download.
Account ID	The login ID of the user who requested the download of Excel is displayed.
Account Name	Displays the user name of the user who requested Excel download.
System Role	Displays the system roles of users within the OMS service. User's system authority is divided into Reseller.
Auth. Role	Displays user-defined menu permission groups, including VSP Reseller, and Reseller, which are user's menu permission groups provided by OMS. For the description of the menu authority group. Refer to Section 2.10.1Menu Auth Setting.
Menu Name	The menu name of the menu requested by the user is displayed.
Downloaded Rows	Displays the number of rows included in the downloaded Excel document. If there is no search result on the screen, it is displayed as 0.
Client IP	Displays the client IP address included in the browser header of the user who requested the Excel download.
Execution Time(sec.)	Displays the time taken from when the download of Excel is requested to when the download is completed.

## 2.9.4

# Notification History

This menu provides to view the notification history for that period.

	Delivery Date	SP/Reseller	Receiver	Status	Delivery Method	Message Type	Message
1	2019-07-11 14:10:16	Pragma	SP Admin	Send	Screen Message	Order Notification	You got a message of order. [201

Administrator Name	Enter a name for your partner's Chief Admin account.
Administrator ID	Enter your partner's Chief Admin account ID.
Administrator E-mail	Enter the email address of your partner's Chief Admin account.
Administrator Password	Enter the password for the partner's Chief Admin account.
Confirm Password	Enter the same password as the Administrator Password.
Demo Customer Limi	Enter the maximum number of customers to use as a demo.
Note	Enter any other information about the partner.

## 2.12.1.2 Administrator ►

This section describes how to view and manage Reseller's administrator account.

Administrator ID	Administrator Name	Administrator E-mail	Chief Admin	Auth. Group	
1	rss	@sky.com	rss	rss@sky.com	Reseller

### View the state information in the grid

Grid column name	Description
Administrator ID	Displays the partner's system login account ID information.
Administrator Name	The name of the user using the Administrator ID is displayed.
Administrator E-mail	The email address of the user using the Administrator ID is displayed.
Chief Admin	The main account is displayed from the Administrator ID.
Auth. Group	Displays the account's permission groups.
Language	Displays the language used by the account logged in with the Administrator ID.
Password	You can change the password used by the administrator ID.

### To modify the Administrator Tab

1. If you want to change the item, select the item
2. Click the **Modify** button.
3. Modify the items that you want to change.

- When adding or deleting an account, you can delete it using the button at the bottom left in the grid edit mode.
  - Clicking the plus button adds an account and clicking the minus button deletes it.
  - Up to 500 accounts can be registered.
4. Click the **Save** button.

### 2.12.1.3 Additional Info

This section displays information added by the SP so that you can manage additional information by Reseller.

My Account	Basic Info	Administrator	Additional Info	Child Reseller	Useable Service Plan	Notification History	Change History
VAT *	123						
ToDate *	2019-07-23						
Cancel							

The items displayed on this tab screen are items added to the Reseller information as required by the SP and displayed differently as Text, Date, Select Box, and so on.

For example, the figure shows that the SP can be managed by adding additional information for each Reseller, **VAT** and **ToDate**.

### 2.12.1.4 Child Reseller

The parent reseller set in the Basic Info tab creates a parent-child relationship, exposes a list of parent-child relationships in the form of a tree, and displays the basic info of the Reseller on the right when selecting a tree item on the left.

My Account	Basic Info	Administrator	Additional Info	Child Reseller	Useable Service Plan	Notification History	Change History
[Normal Reseller] SKY Reseller				Reseller ID	100007		
[Normal Reseller] 100021				Reseller Company Name	SKY Reseller		
				Reseller Domain	sky.com		
				Nation	United Kingdom		
				Language	English		
				Auth. Group	Reseller		
				Administrator Name	rss		
				Administrator ID	rss@sky.com		
				Administrator E-mail	rss@sky.com		
				Demo Customer Limit	10		
				Address			
				City			
				Country			
				Postal Code			
				Phone Number			
				Note			

**NOTE** Please refer to the item description on the Basic Info tab..

### 2.12.1.5 Service Plan

Reseller displays the list of service plans available in the order, and you can change the list available by registering a partner in the service plan management menu.

Service Plan	Service Plan Type	Available Period	Description
jsmn	Normal	25.Sep.2019 ~ 31.Dec.9999	
jsmn2	Normal	25.Sep.2019 ~ 31.Dec.9999	
Mocking Plan	Normal	02.Sep.2019 ~ 31.Dec.9999	The 'Mocking Plan' is maintaining the number with low price.
Standard Plan	Normal	01.Jan.2019 ~ 31.Dec.9999	

#### View the state information in the grid

Grid column name	Description
Service Plan	Reseller displays the available service plan names.
Service Plan Type	Displays the type of Service Plan.
Available Period	Displays how long the service plan is available.
Description	The service plan may not have any details as an additional explanation.

## 2.12.1.6 Notification History

You can check the history of alarm occurrences from the past to the present related to the Reseller, and you can also search the date and content of the alarm.

Send Date	Status	Delivery method	Message Type	Message	Sender	Receiver
1 2019-08-01 13:34:14	Send	Screen Message	Lifetime Order Notificatio	[20.Jun.2019] APPROV, S Order Qty. : 10	Pragma	rss
2 2019-08-01 13:34:14	Send	Screen Message	Lifetime Order Notificatio	[20.Jun.2019] APPROV, S Order Qty. : 10	Pragma	rss
