

Pulse (eVet) Coding Standardization

Flea/Tick/Heartworm Coding Roll-Out

The next batch of items we are rolling out in our Coding Standardization is Flea/Tick/Heartworm (FTH) inventory.

- Refer to the screenshot from Pulse for an example of the FTH new codes.
- These codes start on <u>Tuesday 04/04/2023</u>.
- Please note that we have updated these to be single doses vs single doses and 6 pack.
 - Please make sure your team orders up the correct quantity that the client will be purchasing.
- The <u>category name</u>, <u>code number</u>, <u>name</u>, and <u>pricing</u> for the standardized codes will be determined by WellHaven.
 - \circ \quad DO NOT change or edit these names or codes
 - o DO NOT add new codes or names

If you have any questions, concerns, or are looking to make any changes/additions, please reach out to
<u>Steve Polakowski</u>. Please be aware that we will be auditing as codes roll out so we ask that you don't make any changes/additions prior to talking to Steve.

How does this affect Wellness Plans?

- It's imperative that all plan services are ordered from the patient's wellness plan screen (not quick invoicing).
 - Quick invoicing is **NOT** a reliable way to ensure items are consumed from the plan.
 - Failing to order items from the pet's wellness plan screen leads to inaccurate reporting and incorrect figures around plan utilization.
 - Do not order up the updated FTH coded items and zero them out. If you have any questions, please contact <u>Emily Neiger</u>.

What do YOU need to do on the day of go-live?

- □ All reminders have been created and properly associated for the new FTH inventory items. If there are additional reminders or callbacks you would like, please add those in.
- □ Add in any Client Notes and 'Is Dispensable' instruction details. There will already be dispensing instructions but please feel free to edit as your hospital sees fit.
- □ If you have a package that included an old code (excluding Wellness Plans), edit that package to include the updated line item.
