# Pulse (eVet) Coding Standardization

In-House Labs Coding Roll-Out

The next batch of items we are rolling out in our Coding Standardization is **In-House Labs.**

- To create better efficiency in in-house labs, the name of the item will correlate with what is being ran IE Chem 10, CBC, Electrolytes.
  - If you are using a line item that is labeled 'Preanesthetic Blood Work' (or something similar) you will be ordering up the updated standard code that best correlates with the old code.

Old Line Item	Updated Line Item
Preanesthetic blood panel w/CBC/CHEM/Lytes	Chem 10, CBC, Electrolytes

- The <u>category name</u>, <u>code number</u>, <u>name</u>, and <u>pricing</u> for the standardized codes will be determined by WellHaven.
  - **DO NOT change or edit these names or codes. No common name is allowed in Pulse for lab items.**
  - **DO NOT add new codes or name.**

If you have any questions, concerns, or are looking to make any changes/additions, please reach out to Steve Polakowski. Please be aware that we will be auditing as codes roll out so we ask that you don't make any changes/additions prior to talking to Steve.

5301-0031	Bile Acids
5301-0005	CBC, Electrolytes
5301-0006	Chem 10
5301-0007	Chem 10, CBC
5301-0009	Chem 10, CBC, Electrolytes
5301-0010	Chem 10, CBC, Electrolytes, SDMA
5301-0011	Chem 10, CBC, Electrolytes, SDMA, Thyroid
5301-0008	Chem 10, Electrolytes
5301-0012	Chem 15
5301-0013	Chem 15, CBC
5301-0015	Chem 15, CBC, Electrolytes
5301-0017	Chem 15, CBC, Electrolytes , SDMA, Thyroid
5301-0016	Chem 15, CBC, Electrolytes, SDMA
5301-0019	Chem 15, CBC, Electrolytes, SDMA, Thyroid, Urinalysis
5301-0034	SNAP® 4Dx Plus (Heartworm, Lyme, Anaplasma, Ehrlichia)
5301-0040	SNAP® Cortisol Test
5301-0036	SNAP® cPL
5301-0043	SNAP® Feline (FELV, FIV)
5301-0042	SNAP® Feline ProBNP
5301-0044	SNAP® Feline Triple (Heartworm, FELV, FIV)
5301-0041	SNAP® fPL
5301-0037	SNAP® Giardia
5301-0035	SNAP® Heartworm RT
5301-0039	SNAP® Lepto

How does this affect Wellness Plans?

- It's imperative that all plan services are ordered from the patient's wellness plan screen (**not quick invoicing**).
  - Quick invoicing is **NOT** a reliable way to ensure items are consumed from the plan.
  - Failing to order items from the pet's wellness plan screen leads to inaccurate reporting and incorrect figures around plan utilization.
  - Do not order up the updated labwork coded items and zero them out. If you have any questions, please contact Emily Neiger.

What do YOU need to do on the day of go-live?

- ☐ Please create any 'Annual Labwork' **Reminders** or any others you'd like on your labs. Reach out to Steve Polakowski if you need help creating in-house lab **Reminders.**
- ☐ Add in any **Callbacks** you need.
- ☐ Add in any **Client Notes** details.
- ☐ Attach any **Handouts**.
- ☐ **Disable** any line items you do not use in your hospital.
- ☐ If you have a **package** that included an old code (<u>excluding Wellness Plans</u>), edit that package to include the updated line item.
