

Billing Engine Version 7.0.2 Release Notes  
*All content is subject to change.*

Release Date: July 5, 2023

## Resolved Issues

### Path: 837 Form > HIPAA 5010

Previously, the **Only use Diagnose from Line Item** checkbox on the HIPAA 5010 form would produce an error when generating the claim file. Now, the **Only use Diagnose from Line Item** checkbox will no longer produce an error and when checked, the claim file will only include the diagnoses on the line items. Any diagnoses associated with the client in the client master will be excluded.

The screenshot shows the 'HIPAA 5010 Transfer Form - (HIP5010F)' window. The 'Only use Diagnoses from Line Item' checkbox is checked and highlighted with a red box. Other visible fields include:
