

NextStep Solutions Version 11.3.2 Release Notes
All content is subject to change.

Release Date: August 13, 2023

Resolved Issues

Census Billing

- We have resolved an issue where clients were not showing in Census billing for previous cases when they have been discharged and readmitted. Clients will now properly show on census billing.

Forms

- There was an issue when linking forms to group notes that our team has resolved. When linking forms in group notes the user will only see forms for the client they are viewing in the group note.
