

Online Voting – 2.5.5

StrataMax has been dedicated to meeting the needs of Strata Managers for over 30 years through the continual enhancement of our software suite. We are committed to providing new functionality to support you in servicing your clients and to provide opportunities for you to optimize efficiency within your office environment.

This document describes exciting new features and enhancements available in the above release.

A history of Release Notes can be reviewed on the [StrataMax Online Help](#)

THE COMPLETE STRATA MANAGEMENT SOLUTION

What's New 3

1. Allow minor modifications to motions in ballot only meetings 3

2. Enhancements to screens with scrolling capabilities 3

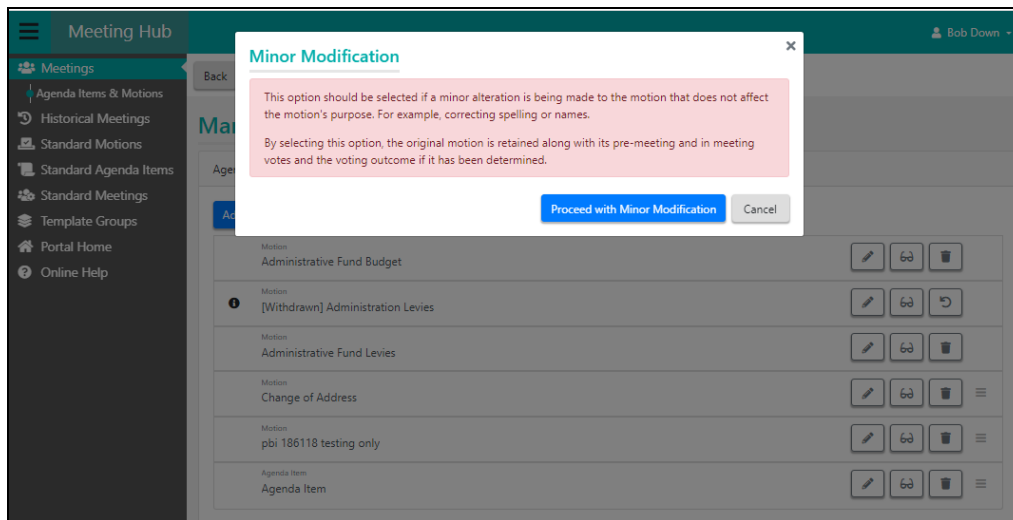

3. Introduction of a description for ballot meetings 4

What's Better 7

What's New

1. Allow minor modifications to motions in ballot only meetings

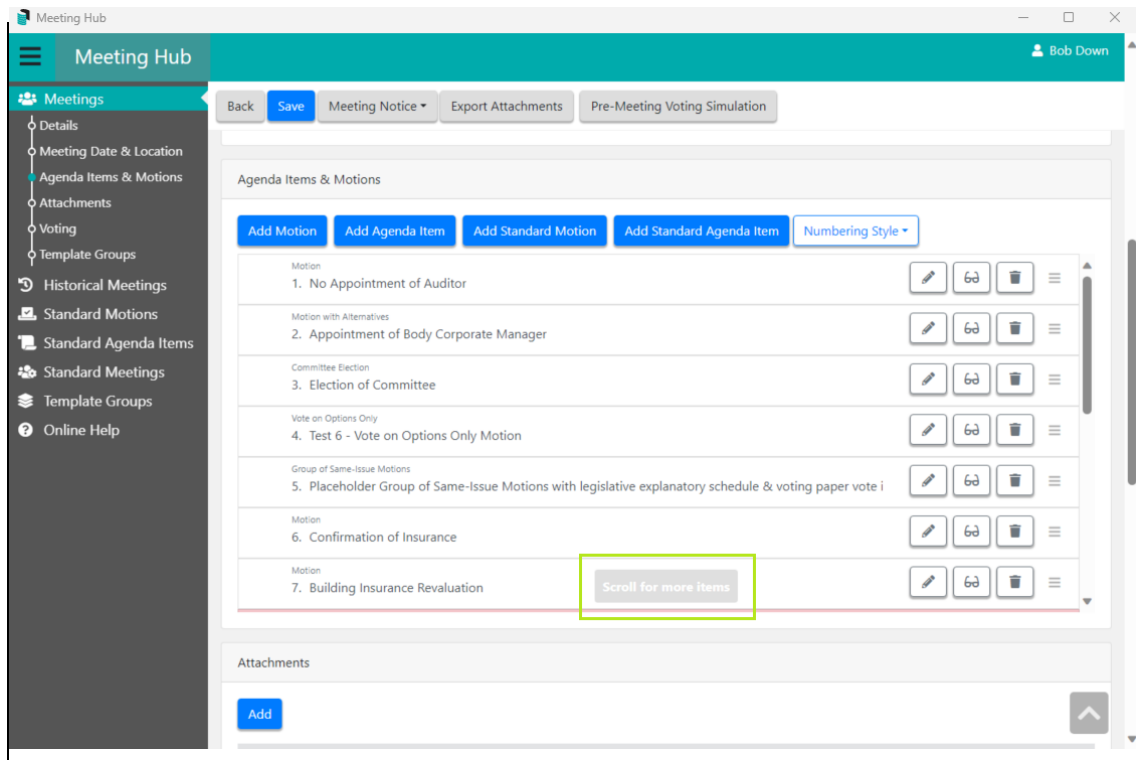

The Manage Agenda & Motion Details page has been enhanced when updating motions in ballot only type meetings, to ensure only minor modifications are made.

2. Enhancements to screens with scrolling capabilities

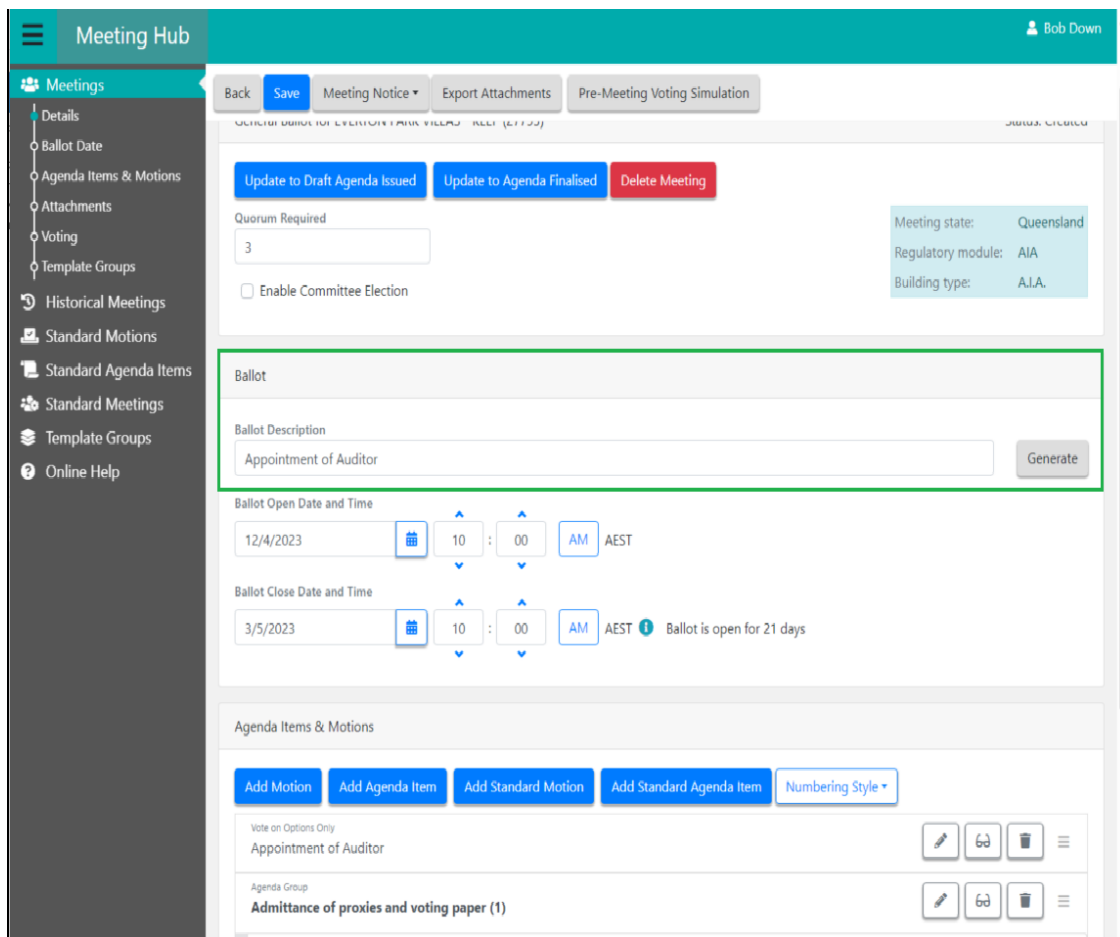

A new prompt has been introduced on Meeting Hub screens to advise the user when there are additional items in a list which are accessible by scrolling down. The following lists contain this new functionality:

- Attachments
- Template groups
- Committee nominations
- Standard motions
- Motions and agenda items

3. Introduction of a description for ballot meetings

A description can now be captured for ballot only meetings via the Meeting Details screen. The description can be entered manually or by selecting a generate button, which when selected will automatically populate the description with the title of the first motion in the meeting.

The description of a ballot type meeting will be shown on the Meetings, Historical Meetings and Meeting Overview screens, allowing the purpose of the meeting to be easily identified.

The screenshot displays the 'Meeting Hub' interface for a meeting. The top navigation bar includes 'Meeting Hub' and a user profile 'Bob Down'. Below this is a secondary navigation bar with buttons for 'Back', 'Save', 'Attendance', 'Voting Register', 'Finalise Meeting', 'Meeting Notice', and 'Pre-Meeting Voting Simulation'. The main content area is titled 'Meeting Overview' and features a yellow warning banner: 'The voting window for this meeting has now lapsed. Click here to finalise the meeting.' The interface is divided into several sections: 'Motions' with a table of items, 'VoteMax Settings' with various checkboxes and date/time fields, 'Template Groups' with an 'Add' button and tabs for 'Notice', 'Minutes', and 'Adjourned Minutes', 'Details' with a 'Ballot Description' highlighted in a green box, 'Quorum' with a required count of 2, and 'Notice Attachments' which currently shows no attachments.

FOR CLIENT REVIEW - Committee Meeting Minutes (Strata) - Lifestyle Re

What's Better

- WYSIWYG editors have been modified to ensure that all fields, including ones being displayed as read-only fields, appear as expected.
- Enhancements have been made so that when the Motion Details page is accessed, the top of the page will be initially displayed.
