

What's your (payment) type?

Offer even more ways to pay.

How do you capture the younger demographic on your online parts counter?
By offering a variety of payment providers like digital wallets and BNPL options.

Younger online shoppers crave convenience, ease and speed when making their purchases. To meet the needs of an ever-changing market, we've implemented even more ways for your customers to pay at checkout (on top of your current payment providers).

Choose what's best for you and your business goals—mix, match or opt in for all. The more options you have for your customers, the higher the chance you'll convert a sale.
