

# Connected Campus. Inspired Learning. Enhanced Student Outcomes.

Today's colleges and universities require state-of-the-art technology to keep up with the ever-increasing communication and collaboration demands of their students, faculty, administrators, guests, and alumni.

Consult Build Transform Support

# CBTS Strategic Higher Education Technology Solutions

With deep capabilities across the IT and communications landscape, CBTS is bringing end-to-end expertise and a personal touch to hundreds of higher education organizations. We offer the agility, flexibility, and client focus of a smaller company, coupled with the ability to deliver the resources, scale, and capabilities required by large, multi-site organizations. With over 800 certified engineers and locations across North America and the UK, CBTS offers the future-forward technology schools need to meet the strict communications and collaboration demands of their various stakeholders.

## Streamline Your Administration

- Choose from public, private or hybrid cloud solutions.
- Benefit from on-demand computation, storage, and database.
- Scale services to meet peak usage times.
- Reduce IT budget strain and management of aging infrastructure.
- Create a secure and compliant environment for mission-critical applications.

## Connect Your Campus Environment

- Offer robust Wi-Fi in residence halls.
- Secure student data.
- Extend unified voice and network communications.
- Respond quickly in times of emergencies.
- Create custom applications at lower costs.

## Expand Your Learning Environment

- Promote learning wherever and whenever it is preferred.
- Provide a seamless experience with CBTS collaboration technology.

CBTS offers best-of-breed, customized solutions to achieve our clients' measurable business outcomes. And clients leverage our flexible OpEx or CapEx delivery model to:

- **Enhance** student engagement and faculty collaboration with always-on networking.
- **Modernize** voice, mobile, web, and video communications applications to digitally transform student communications.
- **Improve** data protection and security strategies to address ongoing cyber threats and meet compliance requirements.
- **Implement** cloud strategies that improve operational agility.

## Access Highly-Trained, Certified IT Consultants

- Implement a comprehensive IT strategy.
- Augment university IT staff as needed.
- Take advantage of CBTS on-site consultants.

## Create a Safer Campus and Online Environment

Protect students, staff, and visitors with vital security solutions, including:

- Security risk and compliance assessments.
- Installation of security hardware and software.
- Security management, network monitoring, intrusion detection, and disaster recovery.

## CBTS Strategic Education Technology Solutions

**UCaaS**—Voice solution that includes tools for collaboration, mobile, chat/presence, messaging, web, audio, and video conferencing, contact center solutions, and third-party integrations.

**SD-WAN**—Coordinates UCaaS, LANs, SaaS applications, security systems, and private and public clouds for always-on access to critical applications and more efficient use of networks.

**NaaS**—Network solution with auto VPN, security, switching, Wi-Fi, and optical sensor cameras.

**Cloud**—Public, private, and hybrid-cloud consulting, migration, and ongoing management.

**Application Modernization**—Updating of applications to improve operational efficiency or to make cloud-native.

**Data Integration**—Integrating of any number of data sources to facilitate analysis and improve student recruiting and retention.

**IT Staffing and Resources**—CBTS highly-skilled, certified IT professionals deployed to an organization to take control of demanding technical projects or environments.

## CBTS Education Client Base

We are fully equipped to support all types of educational organizations from single-site, to online, to large multi-campus organizations with complex technology infrastructure.

No matter the size of your higher education institution or the scale of your organization, CBTS is ready and willing to build a full-spectrum package of networking solutions tailor-made for the needs of your faculty, staff, students, and administrators. Our experts will also work closely with your in-house IT specialists to put our strategy into action, saving you time, cutting expenses, and delivering results as quickly as possible.
