Connecting the Modern Student through Technology

CBTS is a leading technology provider to clients in all industries, including hundreds of K-12 and higher education organizations. Our differentiator is the agility, flexible delivery models, and client focus of a smaller company, coupled with the ability to deliver the resources, scale, and capabilities required by large, multi-site organizations. With over 800 certified engineers and locations across North America and the UK, CBTS offers the future-forward technology that schools need to meet the ever-increasing communications and collaboration demands of their students and faculty.

CBTS stays at the forefront of technology trends in order to offer best-of-breed, customized solutions to achieve our clients' measurable business outcomes. Clients leverage our flexible OpEx or CapEx delivery model to:

- Enable inter-professional collaboration among faculty and staff, and student engagement with always-on networking

- Modernize voice, mobile, web, and video communications applications to digitally transform student communications

- Improve data protection and security strategies that address ongoing cyber threats and meet compliance requirements.

- Implement cloud strategies that improve operational agility and efficiency while reducing costs.

- Manage technology infrastructure and maintain 24x7x365 operational uptime.
