Release Notes – Version 5.6.119

StrataMax has been dedicated to meeting the needs of Strata Managers for over 30 years through the continual enhancement of our software suite. We are committed to providing new functionality to support you in servicing your clients and to provide opportunities for you to optimize efficiency within your office environment.

This document describes exciting new features and enhancements available in the above release.

A history of Release Notes can be reviewed on the StrataMax Online Help

THE COMPLETE STRATA MANAGEMENT SOLUTION

Wha	ťs New	3
1.	Proxy Contacts and Proxy Manager UI changes	3
1.1	Adding a Proxy in the Roll	3
1.2	Edit a Proxy in the Roll	.5
1.3	Terminate a Proxy	.5
1.4	Proxy Manager – Report Distribution	6
1.5	Proxy Manager Security	.7
Wha	t's Better	9

What's New

1. Proxy Contacts and Proxy Manager UI changes

On upgrade to V5.6.119, Proxy data stored in Proxy Manager will be imported into the Roll. Contact cards will be created for each proxy and new proxy contacts will be added and set up through the Roll.

1.1 Adding a Proxy in the Roll

The ability to set up a new Proxy has been added to the Roll / Add function.

- Navigate to the Roll
- Select the Lot Account that requires a new proxy
- Click Add
- Click Proxy

Repre	sentative
No	minee
Power o	of Attorney
Mor	tgagee
Te	nant
Lettin	ig Agent
Sellin	g Agent
Othe	r Person
Р	roxy
Add 🔻	View Histor

- Add the Proxy Name and other details
- Set the Appointment Date
- Set a Termination Date if Required
- Set if position is permanent by ticking the 'Permanent' checkbox
- Add Comments and/or conditions if required
- Click Save to save the record

1.2 Edit a Proxy in the Roll

Proxy contacts can be edited or updated in the same way as other Roll contacts.

1.2.1 Change of Details

Click the Change of Details pencil icon to open the contact details screen.

Proxy			
	🕹 My New Proxy Te	est	✓ Z 0
	Proxy Road Change	🚾 mynewproxy@testing.com	whange of Details

Make any required changes and save.

1.2.2 Edit Details

Click the View or Edit Details to open the contact card.

Make any required changes and save.

1.3 Terminate a Proxy

A proxy can be terminated by clicking the Change of Details icon, add a Date of Termination and Click Save.

Date of Receipt of Notice:	28/10/2024 🔻 Tim	e: 11:57	
	Date of Appointment:	28/10/2024	•
	Date of Termination:	31/10/2025	•

Once the termination date is reached, the proxy will be retired and no longer displayed on the Roll screen. The proxy contact details can be reviewed after expiry by ticking the 'Show Retired / Terminated Positions' checkbox.

Contacts	Permission denied (BCMax > Menu > Proxy Manager). Please contact your office administrator for permission to use this feature.

Note: Any permissions currently set will be retained on upgrade to this version.

What's Better

- EFT Manager When selecting the history option to launch the account history the system was not returning the creditor information as the status column was the incorrect type. This has now been corrected.
- Financials Lot Budget Summary Account code (Lot number) was not in numerical order. This has now been resolved.
- Creditor Maintenance Master Chart Creditor Compare should only delete creditors that have had no activity when 'Delete where possible' is selected.
- Account Selection List The Account Selection List will now reflect a 0.00 instead of a blank for Lot accounts that have had no recent transactions
- A new filter has been added to the Local Transactions search to allow users to search and include the 'Levy Number.'
- Financial Statements When output to Excel is selected in Financial Statements clicking Proceed auto selects Printer and prints the report. This is resolved and if Excel is selected the report will no longer print.
- Unpaid Creditor Invoices Report Summary Report and Excel output has been corrected
- Creditor Management Edit Creditor option button was slightly cut off on the user interface. This has now been resolved.
- Building Information / Meetings Add New folder Location button was not working if clicked to the right of the text.
- Invoice Hub Flag historical year invoices in Invoice Hub as invalid to upload
- Change Code Validation has been reimplemented to prevent changing codes across different funds
- Change Transaction Code Invoices and Transactions that are generated via Process Recoveries and Management Fees in GLMax can now be selected to run Change Transaction Code in BCMax.
- Subgroup When creating an invoice in a utility subgroup the Tax Code was being overridden and set to "Not Included In BAS". This caused invoices to skip the GST calculation, and no GST was showing incorrectly on invoices
- Report Distribution Saved PDF documents that were unusually large were potentially undeliverable. This has now been corrected
