Overview

Summary, Scope, and Purpose

The Student Roster submission can be used to register K-12 students for all state assessments as well as NHSAS Interim testing. Home school students wishing to take a state assessment may be rostered through this submission. Submit student rosters outside of enrollment submissions (including home schooled students) who need to take a NH state assessment.

#	Requirement
R1	Reports a record for each student with an Enrollment.
R1. BR1	Student's Enrollment must be within the Start Date and the End Date entered on the Extract Editor by at least one day .
R1. BR2	Do not include any records that match the following exclusions: <ul style="list-style-type: none"> • Enrollment No Show • Enrollment State Exclude • Enrollment Grade Level Exclude • Enrollment State Start Status of: <ul style="list-style-type: none"> ◦ 28: Education Free Account (EFA) Program • Calendar Exclude • School Exclude
R2	The report can be run against a district's active year as well as any prior year.
R3	The report can be run in District Editions.
R4	The report will be generated in CSV format as well as a human-readable format (HTML). The CSV format is the State Format.
R4. BR1	<div style="border: 1px solid green; padding: 10px;"> <p> CSV Format Best Practice</p> <p>The accepted state format for all iNHDEX extracts is Comma-Separated Value (CSV) files. CSV files usually default to opening with the Microsoft Excel application if you have it installed on your computer. Microsoft Excel handles date-time values in a very specific way. The default handling of date values will remove leading 0's. This will cause issues with your reporting.</p> <p>To prevent this issue, make sure to perform edits to CSV files through a text editor application such as Notepad, Notepad++, or any number of other text editor applications. If you want to continue using Excel, ensure that all date fields are set to format MM/DD/YYYY with leading 0's (e.g. "8/4/2024" should display as "08/04/2024"). This article from Microsoft provides detailed instructions on how to change the format of dates within Excel: Format a date the way you want - Microsoft Support.</p> </div>
R5	If multiple calendars are selected, the report will sort in the following order: <ul style="list-style-type: none"> • District Number • School Number • State Assigned Student Identifier
R6	The file name that is generated will be titled NH_StudentRoster .
