## Summary

This entity represents the prescribed span of time when an education institution is open, instruction is provided and students are under the direction and guidance of teachers and/or education institution administration. A session may be interrupted by one or more vacations.

## Object Triggering Logic

Action	Business Rule(s)
--------	------------------

<p>POST</p>	<p>Reports a record when a Term or Term Override (for Course or Section) is mapped to an Ed-Fi Code and a resync of Sessions is performed.</p> <ul style="list-style-type: none"> <li>• Do not report a record if the any of the following exclusions are present:             <ul style="list-style-type: none"> <li>◦ Calendar Exclude</li> <li>◦ School Exclude</li> <li>◦ Course is marked as Inactive</li> <li>◦ Course is marked as State Exclude</li> </ul> </li> <li>• When the same Ed-Fi Code is mapped to multiple terms, group the terms together to report one record.             <ul style="list-style-type: none"> <li>◦ When there are multiple Calendars or Schedule Structures within a School with the same Ed-Fi Code, only one record will report.</li> <li>◦ Report the earliest Term Start Date and the latest Term End Date.</li> </ul> </li> <li>• IDOE considers the "Sessions" resource to be the <b>periods the school provides final outcomes for the students</b>. This means that if you're a high school that has calendar terms set-up in quarters, but only provide course outcomes on a semester basis, Q1 and Q2 should map to "Fall Semester" and Q3 and Q4 should map to "Spring Semester". Similarly, if you're an elementary school that only provides course outcomes at the end of a year-long course, all terms should be mapped to "Year Round."             <ul style="list-style-type: none"> <li>◦ Any courses / sections that do not follow the school's "default" mapping (e.g. Year Round course offered at a high school) will need to have the Ed-Fi Term Descriptor Override checkbox checked and be manually mapped to the correct termDescriptors in the Sessions Resource Preferences.</li> </ul> </li> </ul>
<p>DELETE / POST</p> <p>PUT</p>	<p>A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise.</p> <ul style="list-style-type: none"> <li>• When the following information is changed on Terms:             <ul style="list-style-type: none"> <li>◦ Term ID (New Term)</li> <li>◦ Start Date</li> <li>◦ End Date</li> </ul> </li> </ul>
<p>DELETE</p>	<ul style="list-style-type: none"> <li>• When the term is deleted.</li> <li>• When the course or section is deleted.</li> <li>• When the course or section has an override removed.</li> </ul>
