# KS Ed-Fi Suite v3.6.2, Data Standard v4.0: Student Education Organization Responsibility Associations

## Table of Contents

- [Summary](#)
- [Object Triggering Logic](#)
- [Required Resources \(Upstream\)](#)
- [Dependent Resources \(Downstream\)](#)
- [Error Log](#)
- [Object Data Elements Logic](#)
- [Appendix](#)

## Summary

This association indicates a relationship between a student and an education organization other than an enrollment relationship, and generally indicating some kind of responsibility of the education organization for the student.

## Object Triggering Logic

Action	Business Rule(s)
Post	<p>Report a record when the student has an Enrollment saved that overlaps the configured year.</p> <ul style="list-style-type: none"> <li>• Do not report a record if the any of the following exclusions are present: <ul style="list-style-type: none"> <li>◦ Enrollment State Exclude</li> <li>◦ Enrollment Grade Exclude from State Reporting</li> <li>◦ Calendar Exclude</li> <li>◦ School Exclude</li> </ul> </li> <li>• Three records will report for each reportable enrollment for these descriptors: <ul style="list-style-type: none"> <li>◦ Accountability</li> <li>◦ Attendance</li> <li>◦ Funding</li> </ul> </li> </ul>

Delete /Post	A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise.
Put	<p>When a student's enrollment information changes on any of the following fields:</p> <ul style="list-style-type: none"> <li>• State School Number</li> <li>• Funding School Override</li> <li>• Attendance School Override</li> <li>• Accounting School Override (AYP Override 1)</li> <li>• Local End Status</li> </ul>
Delete	<ul style="list-style-type: none"> <li>• When an Enrollment is deleted or no longer overlaps the configured year.</li> <li>• When the Enrollment is marked as State Exclude or No Show.</li> </ul>

## Required Resources (Upstream)

The following resources must be sent prior to this resource:

- Students
- Student School Associations

## Dependent Resources (Downstream)

The following resources are dependent on this resource (must be sent after this resource):

- N/A

## Error Log

The following are potential Tier 1 (Ed-Fi API generated) or custom (Campus generated) errors you may receive when posting, updating, or deleting this resource. Please keep in mind that the "Error Message" below may not match your exact error message.

Error Message	Possible Causes / How to Fix
400: Validation of ' <b>RESOURCE</b> ' failed. <b>FIELD</b> is required.	<p>An element of the JSON that is required is missing and needs to be added.</p> <ul style="list-style-type: none"> <li>• Double check that all bolded data elements below are reporting a valid value and no data elements below are reporting an invalid value.</li> </ul>
400: ' <b>RESOURCE</b> ' failed. <b>RESOURCE</b> reference could not be resolved.	<p>A resource that was referenced from a difference resource does not yet exist.</p> <ul style="list-style-type: none"> <li>• Resync the resource being mentioned in the error, then resync the errored resource. Alternatively, the resource being referenced may be incorrect. This can happen with Schools and the Ed-Fi School ID being used as an example. Double check the referenced values being sent are valid.</li> </ul>

<p>403: Authorization denied. The claim does not have any established relationships with the requested resource.</p>	<p>The key/secret being used does not have permission to send a record for the resource / referenced resource.</p> <ul style="list-style-type: none"> <li>• Double check your API credentials (key/secret). Sometimes specific keys/secrets cannot report specific resources.</li> <li>• The referenced person (student, staff, parent, contact, etc.) has not yet been associated to the key /secret. Resync their "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource.</li> <li>• The referenced person (student, staff, parent, contact, etc.) may not exist in the ODS yet. Resync the "person" resource and the "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource.</li> </ul>
<p>404: Failed to delete '<b>RESOURCE</b>'. Record does not exist.</p>	<p>The attempt to delete a specific Ed-Fi record ID in the ODS failed because it did not exist.</p> <ul style="list-style-type: none"> <li>• This error can be ignored. The ID was cleared from the Ed-Fi Identity Mapping Report and will not attempt to delete again.</li> </ul>
<p>409: A natural key conflict occurred when attempting to create a new resource '<b>RESOURCE</b>' with a duplicate key.</p>	<p>The Ed-Fi API has a natural key system alongside a standard REST ID system. This error is often protecting against the erroneous creation of a duplicate record in the API. However, it may also indicate that the natural key requirements of the Ed-Fi API have not been satisfied, and the key needs to be modified.</p> <ul style="list-style-type: none"> <li>• Check for duplicate data in your Campus site. If no duplicate data can be found, report the issue to Campus Support.             <ul style="list-style-type: none"> <li>◦ This can be caused by numerous issues. Our code may be attempting to send duplicate records when it should not. The natural key (bolded fields below) may not be unique enough to satisfy Ed-Fi requirements in all cases. Most times this error will require a code change to fix.</li> </ul> </li> </ul>
<p>409: The resource (or a subordinate entity of the resource) cannot be deleted because it is a dependency of the '<b>RESOURCE</b>' entity.</p>	<p>The resource that the application is attempting to delete is referenced from another entity.</p> <ul style="list-style-type: none"> <li>• Use the Delete Tool to delete the referenced resource in the error message. Then retry the delete on the original resource that errored.</li> </ul>

500: Internal Server Error.

Something unexpected happened and no specific error message could be returned.

- This issue usually occurs when the ODS is having issues. Confirm that there are no issues with the ODS the data is being sent to and then attempt to retry the errored record.
- Contact Campus Support if 500 errors continue to occur, can be replicated consistently, and the ODS the data is being sent to has no ongoing issues.
  - There is a chance that Campus Ed-Fi code is sending an invalid JSON request resulting in the 500 error.
  - There is a chance that an Ed-Fi Data Standard / API bug is causing the issue.
  - Investigation is needed in these cases as there are many different potential causes.

## Object Data Elements Logic

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element. For Core Ed-Fi connections, it indicates what the data standard requires for each data element.

	<b>Data Element Label</b>	<b>Business Rule(s)</b>	<b>Mandatory (M) Conditional (C) Optional (O)</b>	<b>Data Source GUI Path</b>	<b>Database Field</b>	<b>Uses Template Logic</b>  (✓ / ✗ / EXT)
1	<b>beginDate</b> ( <i>date</i> )	<p><i>Month, day, and year of the start date of an education organization's responsibility for a student.</i></p> <hr/> <p>Reports the <b>Enrollment Start Date</b>.</p>	M	Enrollment	Enrollment. startDate	✗

2	<b>responsibilityDescriptor</b> ( <i>string</i> )	<p><i>Indication of an education organization's responsibility for a student, such as accountability, attendance, funding, etc.</i></p> <hr/> <p>Report Ed-Fi code value for each responsibility descriptor:</p> <ul style="list-style-type: none"> <li>• <b>Accountability School:</b> uri://ed-fi.org /ResponsibilityDescriptor#Accountability</li> <li>• <b>Attendance School:</b> uri://ed-fi.org /ResponsibilityDescriptor#Attendance</li> <li>• <b>Funding School:</b> uri://ed-fi.org /ResponsibilityDescriptor#Funding</li> </ul>	M	Enrollment		✘
3	<b>educationOrganizationReference</b> ( <i>reference</i> )	<p>A reference to the related EducationOrganization resource</p> <hr/> <p>For each responsibility descriptor, report the responsible Education Organization:</p> <ol style="list-style-type: none"> <li>1. <b>Accountability School:</b> <ol style="list-style-type: none"> <li>a. Report from Enrollment Override location</li> <li>b. If Override location is NULL, report State School Number</li> </ol> </li> <li>2. <b>Attendance School:</b> <ol style="list-style-type: none"> <li>a. Report from Enrollment Override location</li> <li>b. If Override location is NULL, report State School Number</li> </ol> </li> <li>3. <b>Funding School:</b> <ol style="list-style-type: none"> <li>a. Report from Enrollment Override location</li> <li>b. If Override location is NULL, report State School Number</li> </ol> </li> </ol>	M	N/A	N/A	✘

4	<b>studentReference</b> ( <i>reference</i> )	<p>A reference to the related Student resource</p> <hr/> <p>Reports the fields that are part of the Natural Key for the Students resource.</p>	M	N/A	N/A	✘
5	endDate ( <i>date</i> )	<p>The end date of an education organization's responsibility for a student.</p> <hr/> <p>Reports the Enrollment End Date.</p> <ul style="list-style-type: none"> <li>• Does not report if NULL.</li> </ul>	C	Enrollment	Enrollment. endDate	✘
