

AutoText 2.0 Setup (MGW portion)

This document provides instructions for installing the .XML files for the updates to AutoText 2.0.

1. Download the .XML files from this KB article and put them onto the desktop of the server hosting MediaGateway (MGW).

<https://manitou-knowledge-base.knowledgeowl.com/help/notify-autotext-20>

2. Open up MGW and navigate to MediaGateway>Administration>Menu Items.

3. Click on Menu Items and enter password of "a" and click OK.

4. Once logged into the Menu Items, right-click on Menu Configuration and click on Import.
5. Import each of the .XML files using the Import function.
