- [Appendix](#)

Summary

This association indicates those staff who were victims, perpetrators, witnesses, and reporters for a discipline incident.

Object Triggering Logic

Action	Business Rule(s)
--------	------------------

<p>Post</p>	<p>Reports a record when a Staff is associated to a Behavior Incident that has at least one event with a behavior that is mapped to an Ed-Fi Code AND the Staff member has a Staff Relationship to School value that is mapped to an Ed-Fi Code AND the Behavior Incident is marked as "Complete."</p> <ul style="list-style-type: none"> • Do not report a record if the any of the following exclusions are present: <ul style="list-style-type: none"> ◦ District Assignment Exclude ◦ Role selected is not mapped to an Ed-Fi Code ◦ Relationship to School is not mapped to "Staff Relationship to School" <ul style="list-style-type: none"> ▪ The Relationship to School value must be included in the "Staff Relationship to School" mapping to be eligible. ▪ This mapping can be found in the Resource Preferences of the Ed-Fi Connection under the Staff Discipline Incident Associations resource. ◦ Calendar Exclude ◦ School Exclude
<p>Delete /Post Put</p>	<p>A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise.</p> <ul style="list-style-type: none"> • When any of the following information is changed on District Assignments: <ul style="list-style-type: none"> ◦ District Assignment ID (New District Assignment) ◦ Start Date ◦ End Date ◦ Exclude • When any of the following information is changed on Behavior Events: <ul style="list-style-type: none"> ◦ Event ID (New Event) ◦ Event Type • When any of the following information is changed on Behavior Incidents: <ul style="list-style-type: none"> ◦ Status • Changes to Resource Preferences mappings do NOT trigger. A manual resync must be performed on the resource if mappings are changed.
<p>Delete</p>	<ul style="list-style-type: none"> • When a Behavior Event is deleted. • When a Behavior Incident is changed to a Status other than Complete. • When the District Assignment is deleted or changed to no longer overlap the configured year. • When the Incident is deleted or changed to no longer overlap the configured year. • When the Staff is now excluded in some way. • When a record is in the Ed-Fi Identity Mapping Report but cannot be found on the Campus site.

Required Resources (Upstream)

The following resources must be sent prior to this resource:

- Discipline Incidents

Dependent Resources (Downstream)

The following resources are dependent on this resource (must be sent after this resource):

- N/A

Error Log

The following are potential Tier 1 (Ed-Fi API generated) or custom (Campus generated) errors you may receive when posting, updating, or deleting this resource. Please keep in mind that the "Error Message" below may not match your exact error message.

Error Message	Possible Causes / How to Fix
400: Validation of ' RESOURCE ' failed. FIELD is required.	<p>An element of the JSON that is required is missing and needs to be added.</p> <ul style="list-style-type: none"> • Double check that all bolded data elements below are reporting a valid value and no data elements below are reporting an invalid value.
400: ' RESOURCE ' failed. RESOURCE reference could not be resolved.	<p>A resource that was referenced from a difference resource does not yet exist.</p> <ul style="list-style-type: none"> • Resync the resource being mentioned in the error, then resync the errored resource. Alternatively, the resource being referenced may be incorrect. This can happen with Schools and the Ed-Fi School ID being used as an example. Double check the referenced values being sent are valid.

<p>403: Authorization denied. The claim does not have any established relationships with the requested resource.</p>	<p>The key/secret being used does not have permission to send a record for the resource / referenced resource.</p> <ul style="list-style-type: none"> • Double check your API credentials (key/secret). Sometimes specific keys/secrets cannot report specific resources. • The referenced person (student, staff, parent, contact, etc.) has not yet been associated to the key /secret. Resync their "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource. • The referenced person (student, staff, parent, contact, etc.) may not exist in the ODS yet. Resync the "person" resource and the "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource.
<p>404: Failed to delete 'RESOURCE'. Record does not exist.</p>	<p>The attempt to delete a specific Ed-Fi record ID in the ODS failed because it did not exist.</p> <ul style="list-style-type: none"> • This error can be ignored. The ID was cleared from the Ed-Fi Identity Mapping Report and will not attempt to delete again.
<p>409: A natural key conflict occurred when attempting to create a new resource 'RESOURCE' with a duplicate key.</p>	<p>The Ed-Fi API has a natural key system alongside a standard REST ID system. This error is often protecting against the erroneous creation of a duplicate record in the API. However, it may also indicate that the natural key requirements of the Ed-Fi API have not been satisfied, and the key needs to be modified.</p> <ul style="list-style-type: none"> • Check for duplicate data in your Campus site. If no duplicate data can be found, report the issue to Campus Support. <ul style="list-style-type: none"> ◦ This can be caused by numerous issues. Our code may be attempting to send duplicate records when it should not. The natural key (bolded fields below) may not be unique enough to satisfy Ed-Fi requirements in all cases. Most times this error will require a code change to fix.
<p>409: The resource (or a subordinate entity of the resource) cannot be deleted because it is a dependency of the 'RESOURCE' entity.</p>	<p>The resource that the application is attempting to delete is referenced from another entity.</p> <ul style="list-style-type: none"> • Use the Delete Tool to delete the referenced resource in the error message. Then retry the delete on the original resource that errored.

500: Internal Server Error.

Something unexpected happened and no specific error message could be returned.

- This issue usually occurs when the ODS is having issues. Confirm that there are no issues with the ODS the data is being sent to and then attempt to retry the errored record.
- Contact Campus Support if 500 errors continue to occur, can be replicated consistently, and the ODS the data is being sent to has no ongoing issues.
 - There is a chance that Campus Ed-Fi code is sending an invalid JSON request resulting in the 500 error.
 - There is a chance that an Ed-Fi Data Standard / API bug is causing the issue.
 - Investigation is needed in these cases as there are many different potential causes.

Object Data Elements Logic

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element. For Core Ed-Fi connections, it indicates what the data standard requires for each data element.

	Data Element Label	Business Rule(s)	Mandatory (M) Conditional (C) Optional (O)	Data Source GUI Path	Database Field	Uses Template Logic (✓ / ✗ / EXT)
1	disciplineIncident ParticipationCodes (array)	<p><i>An unordered collection of staffDiscipline IncidentAssociation DisciplineIncident ParticipationCodes. The role or type of participation of a student in a discipline incident (e.g., Victim, Perpetrator, Witness, Reporter).</i></p> <hr/> <p>Reports the following data elements in an array:</p> <ul style="list-style-type: none"> disciplineIncident ParticipationCode Descriptor <ul style="list-style-type: none"> Reports the Ed-Fi Code mapped to the Role selected for the Staff. <ul style="list-style-type: none"> This mapping can be found in the Resource Preferences of the Ed-Fi Connection under the Staff Discipline Incident Associations resource. If the Staff has multiple Roles on the same Discipline Incident, each unique role will report. 	M	Behavior	BehaviorRole .role	✓

2	disciplineIncidentReference (reference)	<p><i>A reference to the Discipline Incidents resource associated with the Staff Discipline Incident Association being reported.</i></p> <hr/> <p>Reports the fields that are part of the Natural Key for the Discipline Incidents resource.</p>	M	N/A	N/A	✓
3	staffReference (reference)	<p><i>A reference to the Staffs resource associated with the Staff Discipline Incident Association being reported.</i></p> <hr/> <p>Reports the fields that are part of the Natural Key for the Staffs resource.</p>	M	N/A	N/A	✓
